The information contained in this booklet is to be used as a guide in the preparation of a North Carolina individual income tax return and is not intended to cover all provisions of the law.

Filing Requirements

The minimum gross income filing requirements under North Carolina law are different from the filing requirements under the Internal Revenue Code because North Carolina law does not adjust the standard deduction and personal exemption for inflation as required by the Internal Revenue Code.

Who is required to file a North Carolina individual income tax return?

- Every resident of North Carolina whose income for the taxable year equals or exceeds the amount for his filing status shown in Chart A or B below.
- Every part-year resident who received income while a resident of North Carolina or who received income while a nonresident attributable to the ownership of any interest in real or tangible personal property in North Carolina or derived from a business, trade, profession or occupation carried on in North Carolina and whose total income for the taxable year equals or exceeds the amount for his filing status shown in Chart A or B below.
- Every nonresident who received income for the taxable year from North Carolina sources that was attributable to the ownership of any interest in real or tangible personal property in North Carolina or derived from a business, trade, profession, or occupation carried on in North Carolina and whose total income from all sources both inside and outside of North Carolina equals or exceeds the amount for his filing status shown in Chart A or B below.
- If you had North Carolina income tax withheld during the year but your income is below the amount required for filing, as shown in Chart A or B below, you must still file a return to receive a refund of the tax withheld.

If you were not required to file a federal income tax return but your gross income from all sources both inside and outside of North Carolina equals or exceeds the amount for your filing status shown in Chart A or B, you must complete a federal return and attach it to your North Carolina income tax return to show how your negative federal taxable income was determined.

You and your spouse must file a joint North Carolina return if you filed a joint federal income tax return, and both of you were residents of North Carolina or both of you had North Carolina taxable income. All other individuals must file separate returns.

When filing a joint return, include the name and social security number of each spouse on the return. Both spouses are jointly and severally liable for the tax due on a joint return unless one spouse has been relieved of any liability for federal income tax purposes as a result of the "innocent spouse" rules provided under Internal Revenue Code Section 6015.

If you filed a joint federal income tax return but file a separate North Carolina return, you must complete either a federal return as married filing separately reporting only your income, exemptions, and deductions, or a schedule showing the computation of your separate federal taxable income and attach it to your North Carolina return. You must also include a copy of your joint federal return unless your federal return reflects a North Carolina address.

Instructions for Filing Form D-400

The Income Tax Return

All individuals (including part-year residents and nonresidents) must file their income tax return on Form D-400. If applicable, be sure to read the section entitled **Information for Part-Year Residents and Nonresidents**.

When to File

If you file your return on a calendar year basis, it is due on or before April 15 of the following year. A fiscal year return is due on the 15th day of the 4th month following the end of the taxable year. When the due date falls on a Saturday, Sunday, or holiday, the return is due on or before the next business day. A fiscal year return should be filed on a tax form for the year in which the fiscal year begins (For example: A 2004 tax form should be used for a fiscal year beginning in 2004).

Extensions

If you cannot file your return by the due date, you may apply for an automatic 6-month extension of time to file the return. **To receive the extension, you must file Form D-410, Application for Extension for Filing Individual Income Tax Return, by the original due date of the return.** You should apply for an extension even if you believe you will be due a refund but cannot file by the due date.

You are not required to send a payment of the tax you estimate as due to receive the extension; however, it will benefit you to pay as much as you can with the extension request. **An extension of time for filing the return does not extend the time for paying the tax.** If you do not pay the amount due by the original due date, you will owe a 10 percent late-payment penalty and interest. The late-payment penalty will not be due if you pay at least 90 percent of your tax liability through withholding, estimated tax payments, or with Form D-410 by the original due date.

A late-filing penalty may be assessed if your return is filed after the due date (including extensions). The penalty is 5 percent per month (\$5.00 minimum; 25 percent maximum) on the remaining tax due.

If you do not file the application for extension by the original due date of the return, you are subject to both a late-filing penalty and a late-payment penalty.

The penalties will also apply if your extension is not valid. An application for extension is not valid if the amount entered on Form D-410 as the tax expected to be due is not properly estimated.

If you are living outside the United States or Puerto Rico, or if you are in the military stationed outside the United States or Puerto Rico, you are granted an automatic 2-month extension for filing your North Carolina return if you attach a statement showing that you were living outside the United States or Puerto Rico on the date the return was due. The time for payment of the tax is also extended; however, interest is due on any unpaid tax from the original due date of the return until the tax is paid. If you are unable to file the return within the automatic 2-month extension period, an additional 4-month extension may be obtained by following the provisions in the first paragraph of this section; however, Form D-410 must be filed by the automatic 2-month extended date of June 15.

How to Pay Your Tax

If you owe additional tax, you can pay online by bank draft or credit or debit card using Visa or MasterCard. To pay online, go to the Department's website at www.dor.state.nc.us and click on **Electronic Services**.

You can also pay by check or money order. **Do not send cash.** The Department will not accept a check, money order, or cashier's check unless it is drawn on a U.S. (domestic) bank and the funds are payable in U.S. dollars. Make your check or money order payable to the N.C. Department of Revenue for the full amount due. Write "2004 D-400" and your name, address, and social security number on your payment. If you are filing a joint return, write both social security numbers on your payment in the order that they appear on the return. If you received a pre-addressed income tax booklet, also complete Form D-400V included with the booklet and enclose it with your return and payment in the envelope provided. **Do not use Form D-400V if any of the preprinted information does not match what you entered on your return.** Go to our website to generate a **personalized D-400V with the correct information.** If you use tax software to prepare your return, be sure to include with your return and payment the Form D-400V generated by the software package.

Estimated Income Tax

You are required to pay estimated income tax if the tax shown due on your return, reduced by your North Carolina tax withheld and allowable tax credits, is \$1,000 or more

regardless of the amount of income you have that is not subject to withholding. Each payment of estimated tax must be accompanied by Form NC-40, North Carolina Individual Estimated Income Tax. If you paid estimated tax for 2004, forms for filing and paying your estimated tax for 2005 will be included in a pre-addressed forms packet mailed to you in February, 2005. If you fail to receive a forms packet or if you are filing estimated tax for the first time, contact any of our offices so that appropriate forms can be mailed to you. You can also obtain forms from our website at www.dor.state.nc.us.

You should prepare your estimated tax carefully, both to avoid having to pay a large amount of tax when you file your return, and to avoid the penalty for underpayment of estimated income tax. Payment of estimated tax does not relieve you of your responsibility for filing a return if one is due.

Amended Returns and Statute of Limitations

You may amend your return by filing Form D-400X. To receive a refund, your amended return must be filed within three years from the date the original return was due or within six months of the date the tax was paid, whichever date is later. However, special rules extending the time for filing refund claims beyond the normal three-year statute of limitations apply to overpayments attributable to (1) worthless debts or securities, (2) capital loss carrybacks, or (3) net operating loss carrybacks. For overpayments resulting from worthless debts or securities, the period of time for demanding an overpayment is seven years; for overpayments resulting from capital loss or net operating loss carrybacks, the period of time is three years from the due date of the return for the year in which the loss was incurred rather than three years from the due date of the return for the year to which the loss is carried back.

Amended returns on which you owe additional tax are required to be filed and the tax paid within three years after the date on which the original return was filed or within three years from the date required by law for filing the return, whichever is later.

If changes are made to your federal return by the Internal Revenue Service, you must report the changes to the State by filing an amended return within two years from the date you receive the report from the Internal Revenue Service. If you do not amend your State return to reflect the federal changes and the Department of Revenue receives the report from the Internal Revenue Service, an assessment may be made by the Department within three years from the date of receipt of the report, and you forfeit your right to any refund which might have been due by reason of the changes.

Penalties and Interest

Failure to file penalty. Returns filed after the due date are subject to a penalty of 5 percent of the tax for each month, or part of a month, the return is late (minimum \$5.00; maximum 25 percent of the additional tax). If you file your return late, figure the amount of the penalty and add it to the tax due.

Failure to pay penalty. Returns filed after April 15 without a valid extension are subject to

a late-payment penalty of 10 percent of the unpaid tax. If you have an extension of time for filing your return, the 10 percent penalty will apply on the remaining balance due if the tax paid by the original due date of the return is less than 90 percent of the total amount of tax due. If the 90 percent rule is met, any remaining balance due, including interest, must be paid with the return before the expiration of any extension period to avoid the late-payment penalty. The minimum penalty is \$5.00. If your payment is late, figure the amount of the penalty and add it to the tax due.

The late-payment penalty will not be assessed if the amount shown due on an amended return is paid with the return. Proposed assessments of additional tax due are subject to the 10 percent late-payment penalty if payment of the tax is not received within 30 days of the assessment.

Other penalties. There are other penalties for negligence, underpayment of estimated income tax, filing a frivolous return and fraud. Criminal penalties also apply for fraud with intent to evade or defeat the tax and for willful failure to file a return, supply information or pay the tax. Compute the penalty for underpayment of estimated income tax on Form D-422, Penalty for Underpayment of Estimated Tax by Individuals. The penalty will not apply if each of your payments equals 25 percent of the lesser of 90 percent (66 2/3 percent for farmers and fishermen) of the tax due on your current year's return or 100 percent of the tax due on your previous year's return. If the penalty is applicable, add the amount of the penalty to the tax due, and include the full payment with your return. If a refund is due, subtract the amount of the penalty from the refund.

Collection Assistance Fee. Any tax, penalty, and interest not paid within 90 days after a final notice of assessment has been mailed to you is subject to a 20 percent collection assistance fee. The fee will not apply if you are making payments under an installment agreement that became effective within 90 days after the final notice was mailed.

Interest. Interest is due on tax not paid by April 15, even though you may have an

extension of time for filing your return. You may obtain the current interest rate from any of the Department's offices. If you pay your tax late, figure the amount of interest due and include it with the tax and any applicable penalty.

N.C. Public Campaign Financing Fund

You may designate \$3.00 of the tax you pay to this Fund. (Married couples filing a joint return may each make a spousal designation if their income tax liability is \$6.00 or more.) The Fund provides campaign money to nonpartisan candidates for the North Carolina Supreme Court and Court of Appeals who voluntarily accept strict campaign spending and fund-raising limits. The Fund also helps finance educational materials about voter registration, the role of the appellate courts, and the candidates seeking election as appellate judges in North Carolina. Three dollars (\$3.00) from the taxes you pay will go to the Fund if you mark an agreement. Regardless of what choice you make, your tax will not increase, nor will any refund you are entitled to be reduced.

N.C. Political Parties Financing Fund

You may designate \$1.00 of the tax you pay for use by the Democratic or Republican Party. (Married couples filing a joint return may make a spousal designation only if their income tax liability is \$2.00 or more.) If you do not wish to specify a party but wish to designate \$1.00, fill in the "Unspecified" circle and the amount you designate will be distributed on a pro rata basis according to party voter registration. No political party with less than 1 percent of the total number of registered voters in the State will receive any of the designated funds.

United States Armed Forces Pay

If you are serving in the United States Armed Forces and your legal residence is North Carolina, you are liable for North Carolina income tax and North Carolina income tax should be withheld from your pay regardless of where you may be stationed. If you are a legal resident

of another state stationed in North Carolina on military orders, you are not liable for North Carolina income tax on your military pay, but other income from employment, a business, or tangible property in North Carolina is subject to North Carolina income tax. If you are a military nonresident stationed in North Carolina with no North Carolina income but your spouse earned income in North Carolina, please see "Information for Part-Year Residents and Nonresidents" below.

Death of the Taxpayer

If you are the spouse or personal representative of an individual who died prior to filing a return, you may be required to file a return on the decedent's behalf. If so, enter the date of death in the applicable box on Page 1 of Form D-400 to indicate the return is being filed for a deceased individual.

An Income Tax Return for Estates and Trusts, Form D-407, must be filed for an estate for the period from the date of death to the end of the taxable year if the estate had taxable income from North Carolina sources or income which was for the benefit of a North Carolina resident, and the estate is required to file a federal return for estates and trusts.

If you are filing a return for an unmarried individual who died during the year, enter the date of death in the applicable box and enter the name of the deceased and the address of the executor or administrator. The executor or administrator should sign the return. When filing a separate return for a decedent who was married at the time of death, enter the date of death, the name of the deceased, and the address of the surviving spouse. The surviving spouse should sign the return. In either case, be sure to enter the date of death in the space provided.

If you are a court-appointed representative, you **must** attach to the return a copy of the certificate that shows your appointment. A refund due on a return filed for a deceased taxpayer by a person other than a surviving spouse or a court-appointed representative will be mailed to the Clerk of Superior Court of the county in which the taxpayer resided.

Information for Part-Year Residents and Nonresidents

If you move your legal residence into or out of North Carolina during the tax year, you are a resident of two different states during two different periods of the tax year.

You are a nonresident if you maintain your legal residence in another state or country even though you may temporarily reside in North Carolina. If you reside in North Carolina for more than 183 days of a tax year, you are presumed to be a resident for income tax purposes in the absence of factual proof of residence in another state. However, your absence from North Carolina for more than 183 days raises no presumption that you are not a resident.

If you filed a joint federal return but cannot file a joint North Carolina return because your spouse is a nonresident and had no North Carolina taxable income, you must calculate

your federal taxable income as a married person filing a separate federal return.

Complete either a federal return as married filing separately reporting only your income, exemptions, and deductions, or a schedule showing the computation of your separate federal taxable income and attach it to your North Carolina return. You must also include a copy of your joint federal return unless your federal return reflects a North Carolina address.

Part-year residents and nonresidents receiving income from North Carolina sources must determine the portion of their federal taxable income that is subject to North Carolina income tax by completing Lines 47 through 51 on Page 4 of Form D-400. See the instructions for Lines 47 through 51 on Page 11.

A part-year resident receiving partnership income from a partnership doing business in North Carolina and in one or more other states must prorate his share of the partnership's income attributable and not attributable to North Carolina between his periods of residence and nonresidence in accordance with the number of days in each period. Include on Line 47 your share of partnership income determined for the period of residence. Include on Line 48 your share of the partnership income attributable to North Carolina during the period of nonresidence.

If you have income from sources within another state or country while you are a resident of North Carolina and the other state or country taxes you on such income, you may be eligible to claim a tax credit on your North Carolina return. See "Credit for Tax Paid to Another State or Country" on Page 12 for additional information.

Line Instructions for Filing Form D-400

The references to line numbers on federal income tax forms were correct at the time of printing. If they have changed and you are unable to determine the proper line to use, please contact the Department of Revenue.

Lines 1 through 5 - Filing Status

Check the same filing status you checked on your federal return. **Important:** If either you or your spouse is a nonresident and had no North Carolina taxable income for the tax year, the spouse with the North Carolina taxable income must check **Married Filing Separately** and complete a separate federal return or a schedule showing the computation of federal taxable income as **married filing separately** and attach it to the North Carolina return.

Line 6 - Federal Taxable Income

Enter your federal taxable income from your federal return or TeleFile Tax Record. If federal taxable income is less than zero, you were required to enter zero on your federal return. On your North Carolina return, enter the negative amount and fill in the circle to indicate that the amount is negative.

Line 13 - North Carolina Taxable Income

- If you were a **resident** of North Carolina for the entire year, enter the amount from Line 11 on Line 13.
- If you were a **part-year resident or a nonresident you must complete Lines 47 through 51** and enter on Line 12 the decimal amount from Line 51. Multiply the amount on Line 11 by the decimal amount on Line 12 and enter the result on Line 13.

Part-year residents and nonresidents should read the instructions on Page 5 for additional information and complete the applicable worksheets for Lines 47 through 51 on Page 11.

Line 14 - North Carolina Income Tax

To calculate your tax, use one of the following methods:

North Carolina Tax Table. Use the **Tax Table** beginning on Page 15 to determine your tax if your taxable income on Line 13 is less than \$68,000. Be sure to use the correct column in the **Tax Table**. After you have found the correct tax, enter that amount on Line 14.

Line 15 - Tax Credits

See Page 12 for information about tax credits. Complete **Form D-400TC, Individual Tax Credits**, if you are entitled to one or more of the credits.

Line 17 – Consumer Use Tax

Like all states that have a sales tax, North Carolina has a use tax on out-of-state purchases. The use tax applies to purchases made outside the State for use inside the State. Individuals in North Carolina are responsible for paying use tax on their out-of-state purchases.

An individual in North Carolina owes use tax on an out-of-state purchase when the item purchased is subject to the North Carolina sales tax and the retailer making the sale does not collect sales tax on the sale. Items that are subject to sales tax include computers and other electronic equipment, canned software, books, audio and video tapes, compact discs, records, clothing, appliances, furniture and other home furnishings, sporting goods, and jewelry. Out-of-state retailers include mail-order companies, television shopping networks, firms selling over the internet, and retailers located outside North Carolina. When an out-of-state retailer does not collect sales tax, the responsibility of paying the tax falls on the purchaser.

The use tax is calculated at the same rate as the sales tax, which is 7% in all counties except Mecklenburg. In Mecklenburg County, the rate is 7.5%. If you paid another state's sales or use tax on out-of-state purchases, that amount may be credited against the North Carolina use tax due. You may not claim a credit for sales tax or value-added tax paid to another country.

To calculate your North Carolina use tax, complete one of the Use Tax Worksheets below. Complete Worksheet 1 if you kept records of all of your out-of-state purchases. Complete Worksheet 2 if you did not keep records of all of your out-of-state purchases. Worksheet 2 has two parts; the first part is a calculation of the amount due on items that cost less than \$1,000 each and the second part is a calculation of the amount due on items that cost \$1,000 or more each. The first calculation is based on a Use Tax Table that reflects the estimated amount of use tax due by taxpayers with varying amounts of North Carolina taxable income. The estimated amount is .07% (.0007) of North Carolina taxable income. If you believe the estimate from the table is too high for your out-of-state purchases, you may estimate what you think you owe.

You should report use tax on purchases of food subject to the reduced rate of tax on Form E-554 and use tax on purchases of boats and aircraft on Form E-555.

Line Instructions

Adjustments to Federal Taxable Income

You must make certain adjustments to your federal taxable income (Line 6) in arriving at your North Carolina taxable income (Line 13). The law may require other adjustments that are not included in these instructions. Follow the Line Instructions below to determine the adjustments that apply to you.

Additions to Federal Taxable Income (Lines 29 - 38)

Federal law requires that the federal standard deduction and personal exemption be increased each year if necessary for inflation. North Carolina law, however, does not have a similar provision.

If you claimed the standard deduction on your federal return, you must add to your federal taxable income the difference in the standard deduction for federal and State income tax purposes in figuring your North Carolina taxable income.

If you itemized deductions on your federal return, you must add to your federal taxable income the amount of any state and local income taxes or general sales taxes claimed as deductions on your federal return to the extent your itemized deductions exceed the standard deduction without the federal inflation adjustment.

You must also increase your federal taxable income by the difference in the personal exemption for federal and State income tax purposes.

Line 30

Most people can find their standard deduction amounts on Line 30 of Form D-400. However, if you are 65 or older or blind, **OR** you can be claimed as a dependent on another individual's return, you must use the chart or worksheet on this page, whichever applies, to determine the amount to enter on Line 30. **IMPORTANT: If you are (1) married filing a separate return for federal income tax purposes and your spouse itemizes deductions, or (2) a nonresident alien, or (3) filing a short-year return because of a change in your accounting period, you are not entitled to the standard deduction; therefore, enter 0 on Line 30.** Note: A short-year return does not relate to a taxpayer who files a return as a part-year resident.

Line 31

Subtract Line 30 from Line 29 and enter the result (not less than zero). If you claimed the standard deduction on your federal return, skip Line 32 and enter on Line 33 the amount entered on Line 31.

Line 35 - Interest Income

Enter the amount of interest received from notes, bonds, and other obligations of states and political subdivisions other than North Carolina if not included in federal taxable income. This includes exempt interest dividends received from regulated investment companies (mutual funds) to the extent such dividends do not represent interest from obligations of North Carolina or its political subdivisions.

Line 36 - Adjustment for Additional First-Year Depreciation

The federal **Job Creation and Worker Assistance Act of 2002** allowed a 30% additional first-year depreciation deduction on the federal return for certain assets acquired after September 10, 2001, and before September 11, 2004. The additional first-year depreciation rules were amended by the federal **Jobs and Growth Tax Relief Reconciliation Act of 2003**, by increasing the deduction from 30% to 50% for property placed in service after May 5, 2003 and before January 1, 2005. **North Carolina did not adopt the additional first-year depreciation provision.** Therefore, an addition to federal taxable income is required on the 2004 State return for 70% of the amount of additional first-year depreciation deducted on your 2004 federal return. No addback is required for any taxable year beginning on or after January 1, 2005. This adjustment does not result in a difference in basis of the affected assets for State and federal income tax purposes.

Note: Any amount of additional first-year depreciation added to federal taxable income on your 2002, 2003, or 2004 State return may be deducted in five equal annual installments beginning with the tax return for taxable year 2005.

Line 37 - Other Additions to Federal Taxable Income

If you elected to exclude a lump-sum distribution from a retirement plan from your regular federal income tax computation and computed the tax separately, the amount of the lump-sum distribution must be added to federal taxable income.

Amounts deducted on your federal return as net operating losses brought forward from tax years beginning prior to January 1, 1989, must be added to your federal taxable income. For tax years prior to January 1, 1989, State law allowed a net economic loss to be carried forward to subsequent years. A net economic loss was computed differently from the federal net operating loss.

If you carry over a net operating loss from another year to the 2004 return, an addition is required for the amount of net operating loss carried to the 2004 year that is not absorbed and will be carried forward to subsequent years.

Example: You incur a net operating loss of \$75,000 in 2003. You carry the net operating loss to the 2004 federal return and deduct the entire loss in arriving at federal taxable income. Only \$50,000 of the loss is absorbed and \$25,000 is carried forward to subsequent years. To determine North Carolina taxable income, you must make an addition to federal taxable income of \$25,000.

Line Instructions

If you recovered all or any portion of your contributions to an annuity for State income tax purposes for taxable years beginning prior to January 1, 1989, but such amount was not recovered for federal income tax purposes, you must include a ratable portion of the difference in the cost previously recovered for North Carolina purposes and the amount previously recovered for federal purposes on the North Carolina return for each tax year beginning on or after January 1, 1989. The ratable portion to be added to federal taxable income is determined as follows:

$$\frac{\text{Amount recovered on State return} - \text{Amount recovered on federal return}}{\text{Remaining Years Life Expectancy}} = \text{Addition to Taxable Income}$$

The difference in the cost recovered for State and federal purposes should reflect only the cost recovered during your period of residence in North Carolina and exclude any cost recovered during the period you resided in another state. The amount figured as a transitional adjustment will remain the same for each year of your remaining life expectancy. Note: If any portion of your cost that was recovered for federal income tax purposes for taxable years beginning prior to January 1, 1989, is greater than the cost recovered for State income tax purposes for years prior to 1989, you are entitled to deduct a ratable portion of that cost as a transitional adjustment on Line 45. The ratable portion to be deducted is determined as follows:

$$\frac{\text{Amount recovered on federal return} - \text{Amount recovered on State return}}{\text{Remaining Years Life Expectancy}} = \text{Deduction from Taxable Income}$$

If you qualified and elected to report your child's unearned income on your federal return, you included only the child's unearned income in excess of \$1,600 in your federal taxable income. The difference in the child's standard deduction of \$500 and the amount of his income not included in your federal taxable income must be added to your federal taxable income in figuring your North Carolina taxable income.

Example 1:

Tommy, age 8, received \$800 in dividends in 2004. He had no other income.

Tommy's unearned income	\$800
Amount included in parents' federal income	<u>0</u>
Amount not included in parents' federal income ..	\$800
Tommy's standard deduction	<u>500</u>
Addition to federal taxable income	
on parents' return	<u>\$300</u>

Example 2:

Susan, age 10, received \$1,800 in interest income in 2004. She had no other income. Her parents include \$200 (\$1,800-\$1,600) of her income in their federal taxable income. In figuring their State taxable income, Susan's parents must add \$1,100 to federal taxable income in figuring their North Carolina taxable income.

Susan's unearned income	\$1,800
Amount included in parents' federal income	<u>200</u>
Amount not included in parents' federal income ..	\$1,600
Susan's standard deduction	<u>500</u>
Addition to federal taxable income	
on parents' return	<u>\$1,100</u>

Enter any Title 2 social security benefits received under the Social Security Act and any Tier 1 or Tier 2 railroad retirement benefits received under the Railroad Retirement Act that were included in federal taxable income. Railroad Retirement Act benefits include railroad unemployment insurance benefits and railroad sickness benefits.

Line 42 - Retirement Benefits Received by Vested Government Retirees (Bailey Settlement)

As a result of the North Carolina Supreme Court's decision in *Bailey v. State of North Carolina*, North Carolina may not tax certain retirement benefits received by retirees of the State of North Carolina and its local governments or by United States government retirees (including military). The exclusion applies to retirement benefits received from certain defined benefit plans, such as the North Carolina Teachers' and State Employees' Retirement System, the North Carolina Local Governmental Employees' Retirement System, the North Carolina Consolidated Judicial Retirement System, the Federal Employees' Retirement System, or the United States Civil Service Retirement System, if the retiree had five or more years of creditable service as of August 12, 1989. The exclusion also applies to retirement benefits received from the State's §401(k) and §457 plans if the retiree had contributed to the plan prior to August 12, 1989. Benefits from other State, local, and federal retirement plans may or may not be excluded depending on rulings in the *Bailey* case. **The exclusion does not apply to retirement benefits paid to former teachers and state employees of other states and their political subdivisions.** A retiree entitled to exclude retirement benefits from North Carolina income tax should claim a deduction on Line 42 for the amount of excludable retirement benefits included in federal taxable income. **Important:** If you qualify for this deduction, you do not qualify for the deduction for retirement benefits of up to \$4,000 for the same federal, state, and local government retirement benefits. A copy of Form 1099-R or W-2 received from the payer

must be attached to the return to support the deduction.

Line 43 - Other Retirement Benefits

You may deduct a portion of other retirement benefits included in federal taxable income. Retirement benefits are amounts paid by an employer to a former employee or to a beneficiary of a former employee under a written retirement plan established by the employer to provide payments to an employee or beneficiary after the employee ends employment with the employer where the right to receive the payments is based upon the employment relationship. For self-employed individuals, retirement benefits are amounts paid to an individual (or beneficiary) under a written retirement plan established by the individual to provide payments after self-employment ends. Retirement benefits also include amounts received from an individual retirement account or from an individual retirement annuity (IRA) and long-term disability benefits received under the Disability Income Plan of North Carolina. Retirement benefits do not include short-term disability benefits from the Disability Income Plan of North Carolina or distributions paid to an employee from an employer's retirement plan because of a change in the structure of a corporate employer.

Federal, State, and Local Government Retirement Benefits. (Important: The following instructions apply to you if you received retirement benefits as a former employee of the State of North Carolina or any of its local governments or as a former employee of the federal government and you did not have five years of service with the government as of August 12, 1989, or if you received retirement benefits as a former employee of any other state. Otherwise, see the Line 42 instructions on this page.) If you received retirement benefits from one or more federal, state, or local government retirement plans, you may deduct the amount included in federal taxable income or \$4,000, whichever is less. Married individuals filing a joint return where both received such retirement benefits may each deduct up to \$4,000 for a potential deduction of \$8,000.

Private Retirement Benefits. If you received retirement benefits from one or more private retirement plans other than federal, state, or local government retirement plans, you may deduct the amount included in federal taxable income or \$2,000, whichever is less. Married individuals filing a joint return where both received such retirement benefits may each deduct up to \$2,000 for a potential deduction of \$4,000.

The total retirement benefits deduction may not exceed \$4,000 per taxpayer. For married couples filing a joint return where both spouses received retirement benefits, the deduction applies separately to each, so that the maximum deduction on a joint return is \$8,000.

If you included retirement benefits in federal taxable income, complete the Retirement Benefits Worksheet at the top of Page 11 and enter the result on Form D-400, Line 43.

General Information for Claiming Tax Credits - Form D-400TC

Credit for Tax Paid to Another State or Country

When income is taxed by North Carolina for a period during which you were a legal resident of North Carolina and the same income is also taxed by another state or country because it was earned in or derived from sources within that state or country, a tax credit may be claimed, but not on the basis of a withholding statement alone. Attach a copy of the return filed with the other state or country and a copy of the check or receipt if a balance of tax was paid with the return.

Complete the North Carolina return and include all income both within and outside the State. Compute the tax as though no credit is to be claimed. Complete Part 1 of Form D-400TC to determine the allowable tax credit. **The amount entered on Line 1, Part 1 of Form D-400TC is total income from all sources received while a resident of North Carolina**, adjusted by the applicable additions and/or deductions to federal taxable income that relate to gross income that you listed on Form D-400, Page 3. The amount of **net tax paid** on Line 6 is any prepayment of tax (tax withheld, estimated tax payments, amount paid with extension, etc.) plus any additional tax paid or **less** any refunds received or expected to be received. Attach a copy of the tax return filed with the other state and proof of the payment.

Include on Line 2, Part 1 of Form D-400TC your share of any S Corporation income that is attributable to and taxed by another state, whether or not the other state taxed the income at the individual or corporate level. Include on Line 6, Part 1, Form D-400TC the net tax you paid another state on your share of S Corporation income or your pro rata share of the net corporate tax paid by the S Corporation to another state that taxes the corporation rather than the shareholder. Attach a schedule to your return showing the total amount of tax paid to the other state by the S Corporation, and how your pro rata share of the tax was determined.

If you claim credit for tax paid to more than one state or country, use the worksheet below to determine the tax credit allowable for each state or country. Determine the total credits for all states by adding the amount on Line 7 of each worksheet and enter the total on Form D-400TC, Line 7a. Be sure to use separate worksheets to determine the separate credits for each state or country.

Out-of-State Tax Credit Worksheet

2. The portion of Line 1 that was taxed by the other state or country 2. _____
3. Divide Line 2 by Line 1 and enter the result as a decimal amount (Round to four decimal places) 3. . _____
4. Enter North Carolina income tax (From Form D-400, Line 14) 4. _____
5. Multiply Line 3 by Line 4 5. _____
6. Amount of net tax paid to the other state or country on the income shown on Line 2 (See instructions above for definition of net tax paid) 6. _____

Credit for Child and Dependent Care Expenses

If you are entitled to claim an income tax credit for child and dependent care expenses on your federal return, you may claim a tax credit for such expenses on your North Carolina return.

Important: The maximum amount of qualified expenses for federal purposes is \$3,000 for one qualifying dependent and \$6,000 for two or more qualifying dependents. Under North Carolina law, the maximum qualifying expenses on which the credit is based is \$2,400 for one dependent and \$4,800 for two or more dependents.

If your employer paid dependent care benefits of \$2,400 or more for one dependent or \$4,800 or more for two or more dependents, you are not entitled to claim the child and dependent care tax credit on the State return.

For dependents who were age seven or older and not physically or mentally incapable of caring for themselves, the credit is from 7 percent to 9 percent of the federal employment-related expenses, depending on your filing status and federal adjusted gross income. For dependents who were under the age of seven and dependents who were physically or mentally incapable of caring for themselves, the tax credit is from 10 to 13

percent of the qualified federal employment-related expenses, depending on your filing status and your federal adjusted gross income. The federal employment-related expense is shown on Line 3 of Federal Form 2441 or on Line 3 of Schedule 2, Part II, of Federal Form 1040A. **However, do not enter more than \$2,400 for one dependent or \$4,800 for two or more dependents on Line 8, Part 2 of Form D-400TC.**

A nonresident or part-year resident is allowed the tax credit in the proportion that federal taxable income (as adjusted) is taxable to North Carolina.

For a dependent who reaches age seven during the taxable year and who is not physically or mentally incapable of caring for himself, the tax credit for employment-related expenses incurred prior to the dependent's 7th birthday will be calculated using the applicable percentage in column A, and the tax credit for employment related expenses incurred after the dependent becomes age seven will be calculated by using the applicable percentage in column B.

You must use the table below left to determine the amounts to enter on Lines 10 and 12 of Form D-400TC.

Credit for Children

You may claim a child tax credit of \$100 on your State return for each dependent child for whom you are entitled to claim a child tax credit on your federal return if your federal adjusted gross income (Form 1040, Line 36; or Form 1040A, Line 21) is less than the following amount shown for your filing status: **Married filing jointly/qualifying widow(er) - \$100,000; Head of household - \$80,000; Single - \$60,000; or Married filing separately - \$50,000.**

The credit for children can be claimed only for a child who was under 17 years of age on the last day of the year. A nonresident or part-year resident is allowed the tax credit in the proportion that federal taxable income (as adjusted) is taxable to North Carolina.

Complete Form D-400TC, Part 3 to determine the allowable credit.

Credit for Charitable Contributions by Nonitemizers

If you claimed the standard deduction on your federal return, you may claim a tax credit for charitable contributions. You may not claim the credit if you claimed itemized deductions on your federal return. The allowable credit equals 7 percent of the amount by which your charitable contributions for the taxable year exceed 2 percent of your federal adjusted gross income. The credit may not be claimed for contributions for which the credit for certain real property donations or the credit for gleaned crops is claimed. A nonresident or part-year resident may claim a prorated credit equal to the percentage of income that is subject to North Carolina tax. The credit may not exceed the tax liability for the tax year, reduced by other tax credits.

Complete the following worksheet to determine the allowable credit.

Credit for Qualified Business Investments

A tax credit is allowed for qualifying investments in the equity securities or subordinated debt of a qualified business venture, qualified grantee business, or a qualified licensee business. The credit is 25 percent of the amount invested or \$50,000, whichever is less. The tax credit is not allowed for the year in which the investment is made but is allowed for the taxable year beginning during the calendar year following the calendar year in which the investment was made. Any unused credit may be carried forward for the next succeeding five years. Your basis in the equity securities or subordinated debt acquired as a result of your investment must be reduced by the amount of allowable credit.

To be eligible for the tax credit, you must file **Form D-499, Application for Tax Credit for Qualified Business Investments**, with the Secretary of Revenue on or before April 15 of the year following the calendar year in which the investment was made. The date set for filing the application may be extended provided you furnish a written statement by April 15 requesting that you be allowed additional time in which to file the application. However, the date for filing the application may not be extended by the Secretary beyond September 15. **An extension of time to file your individual income tax return (Form D-400) does not extend the time for filing Form D-499.** See Page 2 of Form D-499 for additional rules and regulations for claiming the credit. The allowable credit should be shown on Form D-400TC, Line 21.

Credit for Disabled Taxpayer, Dependent, or Spouse

If you claimed an income tax credit on your federal tax return for being permanently and totally disabled, you are entitled to a tax credit on your North Carolina return equal to one-third (1/3) of the amount of the federal tax credit. Although the federal tax credit is also allowed for being age 65 or older, no portion of the tax credit is allowed on the North Carolina return for being age 65 or older.

You may also be entitled to a tax credit if a dependent or spouse for whom you are allowed an exemption on your federal return is permanently and totally disabled. To qualify for the credit, a statement from a physician or local health department must be attached to your return certifying that the dependent was unable to engage in any substantial gainful activity by reason of a physical or mental impairment that can be expected to result in death or that has lasted or can be expected to last for a continuous period of not less than 12 months.

A nonresident or part-year resident is allowed the tax credit in the proportion that federal taxable income (as adjusted) is taxable to North Carolina. The allowable credit is determined by completing **Form D-429, Worksheet for Determining the Credit for the Disabled Taxpayer, Dependent or Spouse.** The credit should be shown on Form D-400TC, Line 22. You may contact the Department for Form D-429 or you may download it from our website at www.dor.state.nc.us.

Credit for Certain Real Property Donations

A tax credit is allowed for a qualified donation of an interest in real property located in North Carolina that is useful for public beach access or use, public access to public waters or trails, fish and wildlife conservation, or other similar land conservation purposes. The credit is 25% of the fair market value of the donated property, but may not exceed \$250,000. (With respect to a credit claimed by a partnership, the \$250,000 limitation applies to each partner instead of to the partnership as a whole.) To be eligible for the credit, the interest in the property must be donated in perpetuity to and accepted by the State, a local government, or a body that is both organized to receive and administer lands for conservation purposes and qualified to receive charitable contributions under the Internal Revenue Code. To support the credit, a certification by the Department of Environment and Natural Resources that the donated property is suitable for one or more of the valid public benefits described above must be attached to your return.

The credit may not exceed the tax liability for the tax year, reduced by other tax credits. Any unused portion of the credit may be carried forward for the next succeeding five years.

Credit for Rehabilitating an Historic Structure

Income-producing – Generally, a taxpayer who is allowed a federal income tax credit under section 47 of the Internal Revenue Code for making rehabilitation expenditures for a certified historic structure located in North Carolina is allowed a credit equal to 20% of the expenditures that qualify for the federal credit.

Nonincome-producing – Generally, a taxpayer who is not allowed a federal income tax credit under section 47 of the Internal Revenue Code and who makes rehabilitation expenses for a State-certified historic structure located in North Carolina is allowed a credit equal to 30% of the rehabilitation expenses. To qualify for the credit, the rehabilitation expenses must exceed \$25,000 within a 24-month period. You must attach to the return a copy of the certification obtained from the State Historic Preservation Officer verifying that the historic structure has been rehabilitated in accordance with the Secretary of the Interior's Standards for Rehabilitation.

Important: The credit for rehabilitating an historic structure must be claimed in five equal installments beginning with the taxable year in which the property is placed in service. Any unused portion of the credit may be carried forward for the succeeding five years.

Reminders

- Do not submit photocopies of the return. Submit original forms only. Do not use any prior year forms to file a current year return.
- Double-check your figures, including your social security number. Accuracy speeds processing of your tax return.
- Claim the same filing status you claimed on your federal return. (Nonresidents see instructions on page 5.) If you do not fill in the applicable circle to indicate your filing status, processing of your return will be delayed.
- Sign and date your return on Page 4. If you file a joint tax return, both you and your spouse must sign the return. Staple the originals or copies of the original State wage and tax statements in the top left-hand corner of the return.
- You must include a copy of your federal return with your North Carolina return unless your federal return reflects a North Carolina address or you file electronically.
- If you owe additional tax and you received a pre-addressed income tax booklet, use the payment voucher (**Form D-400V**) included with the booklet to make your payment. **Note:** The Department will not accept a check, money order, or cashier's check unless it is drawn on a U.S. (domestic) bank and the funds are payable in U.S. dollars. Enter your social security number(s) in the boxes provided on the voucher. Do not use **Form D-400V** if any of the preprinted information does not match what you entered on your return. Do not staple, tape, or otherwise attach your payment or voucher to your return or to each other. Instead, just put them loose in the envelope. In lieu of using the payment voucher, you may pay your tax liability online by bank draft or credit or debit card using Visa or MasterCard. Visit our website for details.

Next, they find the column for married filing jointly and read down the column. The amount shown where the income line and filing status column meet is \$1,560. This is the tax amount they must write on Line 14 of Form D-400. ➔
