# CD-429 Corporate Estimated Income Tax

**GENERAL INSTRUCTIONS**

Estimated income tax is the amount of income tax a corporation expects to owe for the tax year after subtracting the amount of any tax credits taken during the tax year. A corporation that expects to incur an income tax liability to North Carolina of \$500 or more during the taxable year must submit a declaration of estimated tax. Complete the worksheet below to determine if estimated income tax is due.

Generally, a corporation must make its first estimated income tax payment by the fifteenth day of the fourth month of its taxable year. A schedule for determining when a corporation must pay its estimated income tax is located on page 2.

To pay estimated income tax, a taxpayer must file Form CD-429 by the date determined. A taxpayer can use the Department's website or mail the completed form to the address provided. The Department's website offers two electronic options,

(1) an online filing and payment system, and (2) an eFile program. For more information, visit [www.dornc.com](http://www.dornc.com) and search for online file and pay.

- No 2017 corporate annual reports can be filed with your state tax return at NC Department of Revenue.

### Failure to Pay Estimated Tax

Failure to pay the required amount of estimated income tax will subject the corporation to interest on the underpayment of estimated income tax provided in Article 4C of Chapter 105 of the General Statutes. It is important to estimate the corporation's income tax carefully to avoid interest on the underpayment of estimated income tax.
