[Collections for any given period may reflect multiple State general rates. The *Computed State sales and use tax collections per 1¢ of tax* amounts computed for years with multiple rates have been adjusted to account for the timing of rate change implementation. Tax collections generated from transactions subject to rates less than the general rate (preferential rates) and those subject to the *combined general rate* (telecommunications services, ancillary services, spirituous liquor, direct-to-home satellite service, and cable service) are not included in the computations of collections per 1¢ of tax. Collections do not include state retained portions of local sales and use tax collections or refunds of local sales taxes to State agencies. Major legislative changes affecting the tax base subject to the general rate and food purchased for home consumption are noted below.]

**State general rate:**

The State general rate increased from 4% to 4.5% effective for sales made on or after October 16, 2001 and was reduced to 4.25% effective December 1, 2006; the 2007 General Assembly enacted legislation to extend the 4.25% rate through September 30, 2008. Effective October 1, 2008, the rate increased to 4.5%; effective September 1, 2009, the rate increased from 4.5% to 5.5% (temporary additional 1% rate scheduled to expire on July 1, 2011); effective October 1, 2009, the rate increased from 5.5% to 5.75%; effective July 1, 2011, the temporary additional 1% rate expired resulting in an applicable rate of 4.75%.

**State rate applicable to food purchased for home consumption:**

Effective January 1, 1997, the State rate applicable to food purchased for home consumption was reduced from the State general rate of 4% to 3%.

Effective July 1, 1998, the State rate applicable to food purchased for home consumption was reduced from 3% to 2%.

Effective May 1, 1999, the 2% State rate applicable to food purchased for home consumption was repealed.

[Column 1 includes all collections of any State sales and use taxes generated from food purchased for home consumption.

For fiscal year 1998-99, collections of food purchased for home consumption generated from the 3% or 2% rate are not included in columns 2 and 5 because the applicable rate was less than the State general rate.]
