Detail may not add to totals due to rounding.

Selective sales category includes collections of alcoholic beverages, amusements, insurance premiums, motor fuels, pari-mutuels, public utilities, tobacco products, and other selective sales taxes.

Licenses category includes collections of alcoholic beverages, amusements, corporation, hunting and fishing, motor vehicle, motor vehicle operators, public utility, occupation and businesses, and miscellaneous license taxes.

Other category includes collections of death and gift, documentary and stock transfer, severance, and other taxes.

Per capita tax collection amounts are computations based on July 1, 2014 population estimates of the Bureau of the Census and should be interpreted as a reflection of the portion of tax imposed (collected) on behalf of each individual. The statistical abstract series follows the US Census established practice of computing the per capita tax collection metric using the July 1 population subsequent to the fiscal year ending on June 30th.

Personal income amounts are BEA estimates and are in current dollars (not adjusted for inflation). Per capita personal income amounts are BEA estimates based on July 1, 2013 population estimates of the Bureau of the Census.

^aWeighted average computations based on tax collection, personal income, and population totals for the 50 states.

†Data reflect state government fiscal years that end on June 30, except for four states with alternative fiscal year ending dates: Alabama and Michigan (September 30), New York (March 31), and Texas (August 31).

††Data for some states include state-collected local sales tax. North Carolina sales tax data include \$15,031,097.17 retained by state to pay for the costs of collecting and distributing various local sales taxes.
