Rates and bases by type of company and by type of insurance:

North Carolina levies several types of insurance premium tax upon insurers, both domestic and foreign, for the privilege of engaging in the insurance business. Foreign insurers are subject to retaliatory provisions. Article 65 corporations (hospital, medical, and dental service corporations), insurers and self-insurers are subject to various types of insurance premium tax. The tax imposed on an insurer is measured by gross premiums from business done in this State during the calendar year. Finance charges are included in gross premiums.

There are several types of insurance premium tax applied, according to the type of insurance company and the type of insurance written: Gross and Retaliatory Premium Tax, Additional Statewide Fire and Lightning Tax, and Additional Local Fire and Lightning Tax. Insurers, Article 65 corporations, HMO's (beginning with the 2003 tax year), and self-insurers pay an Insurance Regulatory Charge (IRC) in addition to all other fees and taxes. For insurers and self-insurers, the IRC is a percentage of the gross premium tax liability, exclusive of any additional taxes and credits; for Article 65 corporations and HMO's, the IRC is a percentage of a presumed tax liability for the year calculated as if the corporation or organization were an insurer providing health insurance. (Same exclusions apply.)

The insurance premium tax requirements do not apply to farmers' mutual assessment fire insurance companies, to fraternal orders or societies that do not operate for a profit and do not issue policies on any person except members.
