Detail may not add to totals due to rounding.

Effective August 1, 1989, the tax rate was changed to 17 cents per gallon plus 7% of the average wholesale price which was then converted to the nearest 1/10 of a cent.

Effective January 1, 1992, the tax rate was changed to 17.5 cents per gallon plus a variable wholesale component which is the greater of either 3.5 cents per gallon or 7% of the average wholesale price of motor fuel for the applicable base period.

In addition to the per gallon road tax, every gallon of motor fuel includes a 0.25-cent per gallon inspection tax.

Rates are set semiannually for January-June and July-December. Collections received by the Department of Revenue in July reflect June transactions (the rate in effect for the prior January-June period); collections received during August-January reflect July-December transactions (the rate in effect for the July-December period); collections received during February-June reflect January-May transactions (the rate in effect for the January-June period). Collections also include delinquent tax payments reflecting the tax rate in effect at the time of the transaction. Collections for any given fiscal year may reflect several tax rates.

*A road tax for the privilege of using the streets and highways of this State is imposed upon every motor carrier on the amount of motor fuel or alternative fuel used by a carrier in its operations within this State. Such carriers are entitled to a credit for tax paid by the carrier on fuel purchased in the State.
