Article 40 proceeds are allocated to counties on a county's share of state population. County allocated amounts are then reduced by administrative costs retained by the State and adjusted by an adjustment factor according to special provisions prescribed in G.S. 105-486(b).

Amounts shown as *Distributable proceeds as adjusted* do not exactly compute to *Net proceeds* multiplied by *Adjustment factors* due to rounding.

These amounts do not agree with the actual receipts of the local governments in fiscal year 2004-05 due to the lag in the collection/distribution cycle.

These amounts do not include local sales and use taxes collected on food. Refer to *Table 55* for details of net allocated collections and distributable shares pertaining to food.
