Article 42 net allocated collections have been reduced for expenses associated with the Property Tax Commission, Local Government Commission, et al. (G.S. 105-501) and are therefore, not equal to Article 40 1/2% net allocated collections.

Article 42 proceeds are allocated to counties based on a county's share of state population. County allocated amounts are then reduced by administrative costs retained by the State and adjusted by an adjustment factor according to special provisions in G.S. 105-486(b).

Amounts shown as *Distributable proceeds as adjusted* do not exactly compute to Net proceeds multiplied by *Adjustment factors* due to rounding.

These amounts do not agree with the actual receipts of the local governments in fiscal year 2004-05 due to the lag in the collection/distribution cycle.

These amounts do not include local sales and use taxes collected on food. Refer to *Table 55* for details of net allocated collections and distributable shares pertaining to food.
