Detail may not add to totals due to rounding.

The table reflects amounts actually paid to local governments; amounts are shown by year in which received by local governments. Allocated amounts retained by the State to be deposited into special funds or due to budgetary shortfall are excluded.

- a State street-aid allocations are made annually to incorporated eligible and qualifying municipalities to be expended for maintaining, repairing, constructing, reconstructing or widening local streets that are the responsibility of the municipalities, or for planning, construction, and maintenance of bikeways or sidewalks along public streets and highways. The annual allocation is a combination of appropriations sourced to the Highway and Highway Trust Funds; in addition to the 1 3/4¢ per gallon share of the motor fuels and alternative fuels tax revenue from the Highway Fund, municipalities receive an annual amount equal to 6.5% of certain revenues from the Highway Trust Fund.
- b In 2001-02, local governments did not receive an allocation for beer and wine excise taxes as the funds were retained by the State due to budgetary shortfall. The allocated amounts retained by the State included the county share of \$10,141,027 and the municipal share of \$16,637,645. Municipalities received only \$96,915,830 of the \$178,065,964 proceeds of utility franchise tax as two quarters of distributions were retained by the State due to budgetary shortfall.  
S.L. 2009-451, s.27A.4(a), effective September 1, 2009, and applicable to liquor sold and to malt beverages and wine first sold or otherwise disposed of on or after that date, increased the excise tax rates and, accordingly, reduced the local government distributable share percentages of the beer and wine excise taxes net proceeds.  
The legislation specified a temporary additional reduction in the percentage of the net amount of excise taxes distributable to local governments for the taxes collected during the 12-month collection period ending March 31, 2010 (reflected in annual local government distribution transacted May 28, 2010).
- c The telecommunications tax became effective January 1, 2002; the municipal distribution amount shown for 2001-02 was based on tax collections for less than a full year due to the date of implementation.
- d HB 787 (SL 2005-433, s.10(a)) authorized counties meeting certain requirements to receive a share of the distributable proceeds of utility franchise tax, piped natural gas excise tax, and telecommunications tax. An eligible county must contain either no incorporated areas or one incorporated municipality consisting of less than 100 acres within the county with land area primarily located in another county. Beginning with 2006-07, Camden County received a share of the distributable proceeds as a result of the legislation.
- e Effective January 1, 2007, cable television franchise taxes paid by cable service providers to local governments were repealed; concurrently, legislation authorized a payment from the State to local governments as replacement for the taxing authority. § 105-164.44I authorizes a quarterly distribution to counties and municipalities of portions of the State sales taxes imposed on telecommunications and video programming services. Due to the January 1, 2007 effective date of the legislation, local governments received a single quarterly distribution during fiscal year 2006-07. The initial distribution in June 2007 was based on tax collections for the quarter ended March 31, 2007.
