The table reflects amounts actually paid to local governments; amounts are shown by year in which received by local governments. Allocated amounts retained by the State to be deposited into special funds or due to budgetary shortfall are excluded.

a State street-aid allocations are made annually to incorporated eligible and qualifying municipalities to be expended for maintaining, repairing, constructing, reconstructing or widening of any street or public thoroughfare including bridges, drainage, curb and gutter, and other necessary appurtenances within the municipal limits or for meeting the municipality's proportionate share of assessments levied for such purposes, or for the planning, construction and maintenance of bikeways, greenways, or sidewalks.

Effective through the fiscal year 2012-13 allocation, the annual allocation is a combination of appropriations sourced to the Highway and Highway Trust Funds; in addition to the 1 3/4¢ per gallon share of the motor fuels and alternative fuels tax revenue from the Highway Fund, municipalities received an annual amount equal to 6.5% of certain revenues from the Highway Trust Fund.

SL 2013-183, s. 3.1, effective July 1, 2013, amended § 136-41.1(a) such that the annual Powell Bill appropriation from the Highway Fund is an amount equal to 10.4% of the net collections generated during the immediately preceding fiscal year under § 105, Article 36C and alternative fuel taxed under § 105, Article 36D. SL 2013-183, s. 4.8(b)(3) abolished the 6.5% Highway Trust Fund annual appropriation component of the annual Powell Bill allocation.

Historical note: The first State street-aid allocation was disbursed in 1951 at a rate of 1/2¢ per gallon of taxed motor fuel; for fiscal years 1972 through 1981, the allocation rate was set at 1¢ per gallon; for fiscal years 1982 through 1986, the allocation rate was set at 1 3/8¢ per gallon. The 1 3/4¢ per gallon rate (effective for the fiscal year 1987 allocation) was established as result of the 1986 General Assembly's actions to increase the motor fuels tax rate to 14 cents per gallon plus 3% of the average wholesale price (15.5¢ per gallon) effective July 15, 1986.

b In 2001-02, local governments did not receive an allocation for beer and wine excise taxes as the funds were retained by the State due to budgetary shortfall. The allocated amounts retained by the State included the county share of \$10,141,027 and the municipal share of \$16,637,645. Municipalities received only \$96,915,830 of the \$178,065,964 proceeds of utility franchise tax as two quarters of distributions were retained by the State due to budgetary shortfall.

SL 2009-451, s.27A.4(a), effective September 1, 2009, and applicable to liquor sold and to malt beverages and wine first sold or otherwise disposed of on or after that date, increased the excise tax rates and, accordingly, reduced the local government distributable share percentages of the beer and wine excise taxes net proceeds. The legislation specified a temporary additional reduction in the percentage of the net amount of excise taxes distributable to local governments for the taxes collected during the 12-month collection period ending March 31, 2010 (reflected in annual local government distribution transacted May 2010).

c The telecommunications tax became effective January 1, 2002; the municipal distribution amount shown for 2001-02 was based on tax collections for less than a full year due to the date of implementation.

d HB 787 (SL 2005-433, s.10(a)) authorized counties meeting certain requirements to receive a share of the distributable proceeds of utility franchise tax, piped natural gas excise tax, and telecommunications tax. An eligible county must contain either no incorporated areas or one incorporated municipality consisting of less than 100 acres within the county with land area primarily located in another county. Beginning with 2006-07, Camden County received a share of the distributable proceeds as a result of the legislation.

e Effective January 1, 2007, cable television franchise taxes paid by cable service providers to local governments were repealed; concurrently, legislation authorized a payment from the State to local governments as replacement for the taxing authority. § 105-164.44i authorizes a quarterly distribution to counties and municipalities of portions of the State sales taxes imposed on telecommunications and video programming services. Due to the January 1, 2007 effective date of the legislation, local governments received a single quarterly distribution during fiscal year 2006-07. The initial distribution in June 2007 was based on tax collections for the quarter ended March 31, 2007.
