† Valuation of public service companies subject to appraisal by the Property Tax Section.

Information compiled from property tax assessed valuation data provided by the NCDOR Local Government Division.

The above presentation incorporates revised valuations and may differ from alternative previously compiled public service company valuation data for 2015.

System valuation means the real property and tangible personal property used by a public service company in its public service activities.

Non-system valuation means the real and personal property owned by a public service company but not used in its public service activities.

†† System valuation shown in the table is the original appraised system property value prior to equalization adjustment performed in accordance with the Railroad Revitalization Regulatory Reform Act (4-R Act); the 4-R Act requires an equalization adjustment to rail values when the county sales assessment ratio analysis is less than 95%. The total 100% valuation (base to which tax rate is applied to derive levy) reflects the equalized system value. The total 100% valuation is not equal to the sum of the system valuation plus non-system valuation for a county affected by equalization adjustments.

††† Airline Companies, Busline Companies, and Motor Freight Carrier Companies. System valuation and total valuation are the same in all 100 counties.
