The transit rates of sales and use tax levied by certain counties apply to the sales price of taxable items unless exempt as provided in this subsection. The taxes are administered, collected, and distributed by the Department of Revenue. A chart reflecting the total general State, applicable local, and applicable transit rates of sales and use tax by county and zip code is available on the Department's website. Except as provided in Article 43, the adoption, levy, collection, administration, and repeal of the taxes shall be in accordance with Article 39 of Chapter 105 of the North Carolina General Statutes.

1. Transit Rates of Sales and Use Tax Applicable to Certain Counties (0.50%)

Article 43, Local Government Sales and Use Taxes for Public Transportation, of Subchapter VIII of Chapter 105 of the North Carolina General Statutes authorizes Mecklenburg County, the Triangle Regional Public Transportation Authority, and the Triad Regional Transportation Authority to levy an additional 0.50% local sales and use tax to be used only for local public transportation systems. The 0.50% local transit sales and use tax is in addition to the general State rate of sales and use tax and any local rates of sales and use tax currently in effect in a taxing district (e.g. any of those listed in SUTBs 1-3A or 1-3B).

The following four (4) counties have levied the additional 0.50% local transit sales and use tax:

- a. Durham.
- b. Mecklenburg.
- c. Orange.
- d. Wake.

Forsyth and Guilford Counties have not levied the 0.50% local transit sales and use tax as of the date of these SUTBs.

2. All Other Counties (0.25%)

Article 43, Local Government Sales and Use Taxes for Public Transportation, of Subchapter VIII of Chapter 105 of the North Carolina General Statutes authorizes a county other than Durham, Forsyth, Guilford, Mecklenburg, Orange, or Wake to levy the 0.25% local transit sales and use tax if the county or at least one unit of local government in the county operates a public transportation system pursuant to G.S. §§ 105-511 and 105-511.1.

Operation of a public transportation system includes a contract or interlocal agreement for the operation of the public transportation system by another county, municipality, or by a transportation authority created under a municipal charter or Article 25, 26, or 27 of Chapter 160A of the North Carolina General Statutes. Operation of a public transportation system also includes a contract with a private entity for operation of the public transportation system.

There has not been a county that has levied the 0.25% local transit sales and use tax provided by this subsection as of the date of these SUTBs.

3. Exemptions and Exclusions from Transit Sales and Use Tax

The transit rates of sales and use tax do not apply to the following:

- a. An item not subject to sales and use tax.
- b. An item specifically exempt by statute from the general State rate of sales and use tax.
- c. An item subject to the combined general rate of sales and use tax as provided in SUTB 1-3F
- d. A manufactured home.
- e. A modular home.
- f. An aircraft.

- g. A qualified jet engine.
- h. A boat.
- i. Qualifying food, subject to the 2% food rate of sales and use tax as provided in SUTB 32.

D. Food Rate of Sales and Use Tax

The sales price of qualifying food, as provided in SUTB 32, is only subject to the 2% food rate of sales and use tax. Sales and purchases of qualifying food are exempt from the general State rate and any other additional local or transit rates of sales and use tax.

The general State, applicable local, and applicable transit rates of sales and use tax apply to the sales price of non-qualifying food sold at retail (e.g. prepared food, soft drinks, and candy).

Note: For more detailed information on the application of tax to qualifying and non-qualifying food, refer to SUTB 32.

E. 3% State Rate of Sales and Use Tax

The sales price of a boat sold at retail, including any charges for parts or accessories attached to the boat when it is delivered to the purchaser, is subject to the 3% State rate of sales and use tax with a maximum tax of one thousand five hundred dollars (\$1,500).

F. Combined General Rate of Sales and Use Tax

The combined general rate of sales and use tax is 7% and is levied on the sales price of or the gross receipts derived from retail sales of the following:

1. Electricity.
2. Piped natural gas.
3. Telecommunications service and ancillary service.
4. Spirituous liquor and antique spirituous liquor, other than mixed beverages.
5. Video programming service.
6. Aviation gasoline and jet fuel.

SUTB 2 RESPONSIBILITY FOR COLLECTING AND REMITTING SALES AND USE TAX**2-1 RETAILER OR FACILITATOR AS TRUSTEE FOR STATE**

The sales tax is intended to be passed on to the purchaser of a taxable item and borne by the purchaser instead of by the retailer. A retailer must collect the tax due on an item when sold at retail. These requirements also apply to facilitators liable for sales and use tax. The tax is a debt from the purchaser to the retailer until paid and is recoverable at law by the retailer in the same manner as other debts. A retailer is considered to act as a trustee on behalf of the State when it collects tax from the purchaser on a taxable sale. The tax must be stated and charged separately on the invoices or other documents of the retailer given to the purchaser at the time of the sale except for either of the following:

1. Vending machine sales.
2. Where a retailer displays a statement indicating the sales price includes the tax.

2-2 RETAILER'S OBLIGATION TO COLLECT TAX; REMOTE SALES SUBJECT TO TAX

A. A retailer is required to collect sales and use tax imposed, notwithstanding any of the following:

1. That the purchaser's order or the contract of sale is delivered, mailed, or otherwise transmitted by the purchaser to the retailer at a point outside this State as a result of solicitation by the retailer through the medium of a catalogue or other written advertisement.
2. That the purchaser's order or the contract of sale is made or closed by acceptance or approval outside this State, or before any tangible personal property or certain digital property that is part of the order or contract enters this State.
3. That the purchaser's order or the contract of sale provides that the property shall be or is in fact procured or manufactured at a point outside this State and shipped directly to the purchaser from the point of origin.
4. That the property is mailed to the purchaser in this State or a point outside this State or delivered to a carrier outside this State f.o.b. or otherwise and directed to the purchaser in this State regardless of whether the cost of transportation is paid by the retailer or by the purchaser.
5. That the property is delivered directly to the purchaser at a point outside this State.
6. Any combination in whole or in part of any two or more of the foregoing statements of fact, if it is intended that the property purchased be brought to this State for storage, use, or consumption in this State.

B. A remote sale is a sale of an item ordered by mail, telephone, Internet, mobile phone application, or another method by a retailer who receives the order in another state and delivers the item or makes it accessible to a person in this State or causes the item to be delivered or made accessible to a person in this State or performs a service sourced to this state. It is presumed that a resident of this State who makes an order was in this State at the time the order was made. A retailer who makes a remote sale is engaged in business in this State and is subject to sales and use tax if at least one of the conditions below is met.

1. The retailer is a corporation engaged in business under the laws of this State or a person domiciled in, a resident of, or a citizen of, this State.

2. The retailer maintains retail establishments or offices in this State, whether the remote sales thus subject to taxation by this State result from or are related in any other way to the activities of the establishments or offices.
3. The retailer solicits or transacts business in this State by employees, independent contractors, agents, or other representatives, whether the remote sales subject to taxation by this State result from or are related in any other way to the solicitation or transaction of business. A retailer is presumed to be soliciting or transacting business by an independent contractor, agent, or other representative if the retailer enters into an agreement with a person of this State under which the person, for a commission or other consideration, directly or indirectly refers potential customers, whether by a link on an Internet Web site or otherwise, to the retailer. This presumption applies only if the cumulative gross receipts from sales by the retailer to purchasers in this State who are referred to the retailer by all persons of this State with this type of agreement with the retailer is in excess of ten thousand dollars (\$10,000) during the preceding four quarterly periods. This presumption may be rebutted by proof that the person with whom the retailer has an agreement did not engage in any solicitation in the State on behalf of the retailer that would satisfy the nexus requirement of the United States Constitution during the four quarterly periods in question.
4. The retailer, by purposefully or systematically exploiting the market provided by this State by any media-assisted, media-facilitated, or media-solicited means, including direct mail advertising, distribution of catalogs, computer-assisted shopping, television, radio or other electronic media, telephone solicitation, magazine or newspaper advertisements, or other media, creates nexus with this State. A nonresident retailer who purchases advertising to be delivered by television, by radio, in print, on the Internet, or by any other medium is not considered to be engaged in business in this State based solely on the purchase of the advertising.
5. Through compact or reciprocity with another jurisdiction of the United States, that jurisdiction uses its taxing power and its jurisdiction over the retailer in support of this State's taxing power.
6. The retailer consents, expressly or by implication, to the imposition of the tax imposed by Article 5 of Chapter 105 of the North Carolina General Statutes. For purposes of this subsection, evidence that a retailer engaged in the activity described in SUTB 2-2B.1. is prima facie evidence that the retailer consents to the imposition of the tax imposed by Article 5 of Chapter 105 of the North Carolina General Statutes.
7. The retailer is a holder of a wine shipper permit issued by the ABC Commission pursuant to G.S. § 18B-1001.1.
8. The retailer makes remote sales sourced to this State, including sales as a marketplace seller, for the previous or the current calendar year that meet either of the following:
 - a. Gross sales in excess of one hundred thousand dollars (\$100,000).
 - b. Two hundred or more separate transactions.
9. The retailer is a marketplace facilitator that makes sales, including all marketplace-facilitated sales for all marketplace sellers, sourced to this State for the previous or the current calendar year that meet either of the following:
 - a. Gross sales in excess of one hundred thousand dollars (\$100,000).
 - b. Two hundred or more separate transactions.

- C. A retailer who is required to collect the tax imposed by Article 5 of Chapter 105 of the North Carolina General Statutes must collect a local use tax on a transaction if a local sales tax does not apply to the transaction. The sourcing principles in G.S. § 105-164.4B determine whether a local sales tax or a local use tax applies to a transaction. A local sales tax or local use tax is a tax imposed under Chapter 1096 of the 1967 Session Laws or by Subchapter VIII of Chapter 105 of the North Carolina General Statutes.
- D. A retailer that delivers property for storage, use, or consumption in this State or provides services sourced to this State, but does not have a place of business in this State, is required to register with the Department in accordance with G.S. § 105-164.29.

2-3 PRESUMPTION THAT SALES ARE TAXABLE

For the purpose of the proper administration of sales and use tax and to prevent evasion of the retail sales tax, the following presumptions apply:

1. That all gross receipts of wholesale merchants and retailers are subject to the retail sales tax until the contrary is established by the proper records required by Article 5 of Chapter 105 of the North Carolina General Statutes.
2. That tangible personal property sold by a person for delivery in this State is sold for storage, use, or other consumption in this State.
3. That tangible personal property delivered outside this State and brought to this State by the purchaser is for storage, use, or consumption in this State.
4. That certain digital property sold for delivery or access in this State is sold for storage, use, or consumption in this State.
5. That a service purchased for receipt in this State is purchased for storage, use, or consumption in this State.

2-5 EFFECTIVE DATE OF A RATE OR TAX CHANGE

- A.** The effective date of a tax change for items that are taxable at the general State, applicable local, and applicable transit rates of sales and use tax is as follows:
1. For a taxable item that is provided and billed on a monthly or other periodic basis:
 - a. A new tax or a tax rate increase applies to the first billing period that is at least thirty (30) days after enactment and that starts on or after the effective date.
 - b. A tax repeal or a tax rate decrease applies to bills rendered on or after the effective date.
 2. For a taxable item that is not billed on a monthly or other periodic basis, a tax change applies to amounts received for items provided on or after the effective date, except amounts received for items purchased to fulfill a real property contract for a capital improvement entered into or awarded before the effective date or entered into or awarded pursuant to a bid made before the effective date.
- B.** The effective date of a tax rate change for an item that is taxable at the combined general rate of sales and use tax is as follows:
1. For a taxable item that is not billed on a monthly or other periodic basis, a tax change applies to amounts received for items provided on or after the effective date of a change in the State general rate of tax set in G.S. § 105-164.4.

2-6 BASIS OF REPORTING**A. General Information**

Except as otherwise provided in SUTB 2-6B, persons having both cash and credit sales may elect to report their tax liability on either the cash or accrual basis of accounting provided their records are kept in such a manner that they can determine their tax liability correctly on the basis used. If a taxpayer desires to change from one basis of reporting to another, a person must apply to the Secretary for permission to make such change. Permission granted by the Secretary to report on a selected basis continues in effect until revoked by the Secretary or the person receives permission from the Secretary to change the basis selected.

B. Accrual Basis Required

The following retailers must report gross receipts on an accrual basis of accounting for purposes of reporting and remitting sales tax:

1. A retailer who sells electricity, piped natural gas, or telecommunications service. A sale of electricity, piped natural gas, or telecommunications service is considered to accrue when the retailer bills its customer for the sale.
2. A retailer who derives gross receipts from a prepaid meal plan, notwithstanding that the retailer may report tax on the cash basis for other sales at retail and notwithstanding that the revenue has not been recognized for accounting purposes.
3. A retailer who sells or derives gross receipts from a service contract, as provided in SUTB 79.

2-7 OCCASIONAL AND ISOLATED SALES

The term “business” does not include an occasional and isolated sale or transaction by a person that does not claim to be “engaged in business.” An occasional and isolated sale is not subject to sales and use tax. An occasional or isolated sale occurs when the seller sells an item that the seller is not engaged in the business of selling.

2-8 CREDIT FOR SALES AND USE TAX PAID TO ANOTHER TAXING JURISDICTION

- A. A credit is allowed for the amount of state sales or use tax legally due and paid to another state on purchases of a taxable item against the North Carolina State use tax due on the same item. If the amount of tax paid to the other state is less than the amount of use tax due to this State, the purchaser must pay to the Department an amount equal to the difference between the amount of tax paid to the other State and the amount of State use tax due in North Carolina. Records must be maintained and available for inspection by the Secretary to establish proof of payment of the tax to another taxing jurisdiction.
- B. A credit is allowed for the amount of sales or use tax legally due and paid to another county or local taxing jurisdiction on purchases of a taxable item against the local or transit use tax due in North Carolina on the same item if the purpose of the tax legally due and paid is similar in purpose and intent as the local or transit use tax. If the amount of local or transit sales or use tax paid to another county or taxing jurisdiction is less than the amount of local or transit use tax due to this State, the purchaser must pay to the Department an amount equal to the difference between the amount of tax paid to the other taxing jurisdiction and the amount of local or transit tax due in North Carolina.
- C. Records must be maintained and available for inspection by the Secretary to establish proof of payment of the tax to another taxing jurisdiction. The local or transit use tax is not subject to credit for payment of any State tax levy. No credit shall be allowed for sales and use taxes paid in a taxing jurisdiction outside this State if that taxing jurisdiction does not allow a credit for local sales taxes paid in this State.

Note: For additional information, refer to Disclosed Practice 2 in the North Carolina State's Taxability Matrix available on the Department's website.

2-9 STATUTE OF LIMITATIONS FOR ASSESSMENTS PROPOSED BY THE SECRETARY OF REVENUE

The general statute of limitations when proposing an assessment for an underpayment of tax is the later of the following:

1. Three years after the due date of the return or
2. Three years after the taxpayer filed the return.

If a taxpayer, as a trustee, collects taxes on behalf of North Carolina, but fails to remit all of the taxes held in trust when due, the period for proposing an assessment for underpayment of tax is the later of the following:

1. Ten years after the due date of the return or
2. Ten years after the taxpayer filed the return.

There is no statute of limitations when proposing an assessment for an underpayment of tax when any of the following apply:

1. The taxpayer did not file a return;
2. The taxpayer filed a fraudulent return; or
3. The taxpayer attempted in any manner to fraudulently evade or defeat the tax.

SUTB 3 SALES AND USE TAX - GENERAL**3-1 MEASURE OF SALES AND USE TAX DUE**

- A.** Sales and use tax is due on the retailer's or facilitator's gross sales or gross receipts after deducting exempt sales and other nontaxable receipts. The retailer or facilitator shall pay to the State the amount of sales and use tax due, as provided by statute, at the applicable rate(s) on net taxable sales and gross receipts, as applicable, whether or not the tax thereon has been collected, and shall also pay any amount of tax collected in excess of the amount which should have been collected on taxable sales. If tax is collected in excess of the total amount that should have been collected on a taxable sale or is collected on an exempt or nontaxable sale, the total amount of tax collected must be paid to the Secretary, and no refund shall be made to a retailer or facilitator by the Secretary unless the purchaser has received credit for or has been refunded the amount of tax erroneously collected.
- B.** The retailer must pay tax on the sales price of all taxable items sold during the period covered by the return, whether or not such sales are cash, credit, installment, or conditional sales and whether or not the retailer retains the installment and conditional sales contracts or sells or assigns them to others and without regard to any finance reserve withheld on finance paper sold or assigned to others. Finance charges, service charges, or interest from credit extended under conditional sales contracts providing for deferred payment of the purchase price are not subject to tax if such charges are separately stated on the invoice or similar billing document given to the purchaser at the time of the sale and maintained in the retailer's records.

If, on conditional, installment, or other deferred payment sales, the person sells or assigns the finance paper, he is deemed to have received the full balance of the consideration for the sale of the item and is liable for remitting tax on the total sales price of such item at the close of the period during which the paper was assigned or sold including any finance reserve withheld on the finance paper. If such person sells their accounts receivable, the person is liable for payment of tax on the outstanding taxable balance of such accounts at the time they are sold notwithstanding that the accounts may be sold at a discount to the purchaser.

- C.** When a customer purchases more than one item in a transaction, the applicable rate of sales and use tax can be applied to each item purchased or to the total charge for all items purchased. Those businesses having cash registers at each counter or in each department shall collect a tax equal to the sales and use tax due on the total sales price of the items sold to a customer.

D. Rounding

The tax computation must be computed to the third decimal place and must be rounded up to the next cent whenever the third decimal place is greater than four.

E. Trade-Ins or Barter

Sales and use tax must be computed and paid on the gross sales price of items sold at retail without any deduction for any trade-in credit or allowance or barter.

F. Installation Charges

Installation charges made by a retailer as part of a retail sale of an item are part of the sales price subject to sales and use tax. Charges by a retailer solely to install tangible personal property owned by a customer are also subject to sales and use tax.

Note: For information regarding installation charges related to real property contracts, refer to SUTB 72.

3-2 RETURNS AND PAYMENT OF TAXES

- A.** A sales tax return must state the taxpayer's gross receipts sourced to the State for the reporting period, the amount and type of sales made in the period that are exempt from tax or are elsewhere excluded from tax, the amount of tax due, and any other information required by the Secretary. A use tax return must state the purchase price of taxable items that were purchased or received during the reporting period, the amount of tax due, and any other information required by the Secretary. Returns that do not contain the required information will not be accepted. When an unacceptable return is submitted, the Secretary will require a corrected return to be filed.

Sales and use taxes are payable when a return is due. A return must be filed with the Secretary on a form prescribed by the Secretary and in the manner required by the Secretary. A return must be signed by the taxpayer or the taxpayer's agent.

B. Filing Frequency**1. Quarterly**

Taxpayers whose total monthly tax liability is consistently less than \$100 per month shall file a return quarterly and pay taxes due on or before the last day of the month following the end of the calendar quarter (e.g. April 30th, for the preceding calendar quarter of January, February, and March).

2. Monthly

Taxpayers whose total monthly tax liability is consistently \$100 or more, but less than \$20,000 per month shall file a return monthly and pay taxes due on or before the 20th day of each month for all taxes due for the preceding calendar month.

3. Monthly with Prepayment

Taxpayers whose total monthly tax liability is consistently \$20,000 or more, must make a monthly prepayment of the next month's tax liability. The prepayment is due on the date a monthly return is due. Taxpayers that have a monthly with prepayment filing frequency must file a return and pay the taxes due electronically on or before the 20th day of the following month using the Department's online filing and payment system. The prepayment must equal at least 65% of any of the following:

- a.** The amount of tax due for the current month.
- b.** The amount of tax due for the same month in the preceding year.
- c.** The average monthly amount of tax due in the preceding calendar year.

A taxpayer will not be subject to interest or penalties on any underpayment of a prepayment if the correct amount of tax due is paid by the due date and one of the above three calculation methods is used. In addition, a taxpayer is not required to utilize the same method for calculating the amount of the prepayment each month.

Note: For more detailed information on making electronic payments, refer to the Department's website, www.ncdor.gov.

4. Due Date Falls on a Saturday, Sunday, or Legal Holiday

Any document with a due date on a Saturday, Sunday, or legal holiday is timely filed if delivered in person or mailed or electronically submitted to the Department on or before the next business day after the Saturday, Sunday, or legal holiday. If the Federal Reserve

Bank is closed on a due date that prohibits a person from making a payment by ACH debit or credit, the payment is timely if made on the next day the Federal Reserve Bank is open.

C. Schedule of County Sales and Use Taxes

Form E-536, Schedule of County Sales and Use Taxes, is required to be filed in conjunction with **Form E-500, Sales and Use Tax Return**, if:

1. A person reports sales and use tax for more than one county.
2. A person is required to collect and remit county tax for any county where the person's business is not located.

A person should enter the total amount of local and any applicable transit tax due for each county under the appropriate column on Form E-536. The 2% food tax rate (on qualifying food that is exempt from the State tax) for all counties should be entered on the 2.00% Food Tax line at the bottom of Form E-536 as a cumulative amount.

D. No Sales or Purchases by Business

A person registered to collect and/or remit sales or use tax that does not make any sales or purchases during a reporting period must file a return for that period and indicate \$0.00 on the Total Due line.

E. Seasonal Business

A retailer engaged in business for six or fewer consecutive months during a year may register as a seasonal filer and indicate the months in which the retailer is engaged in business. A retailer that is registered as a seasonal filer is not required to file a return for an off-season reporting period in which the retailer did not engage in business.

F. Wholesale Merchant

A person that engages exclusively in the business of making wholesale sales is not required to file a return but is required to register to obtain a Certificate of Registration. A wholesale merchant that makes taxable sales to users, consumers, or nonregistered merchants or makes purchases subject to consumer use tax is not engaged exclusively in the business of making wholesale sales and must begin filing sales and use tax returns and pay the tax due.

G. Consumer Use Tax on Purchases for Non-Business Use

An individual who purchases taxable items sourced to this State for a non-business purpose is required to accrue and remit any consumer use tax due on the purchase price of the items. Individuals must pay consumer use tax to the Department when retailers or facilitators do not collect sales or use tax on taxable transactions. For information on use tax, refer to SUTB 2-4.

H. Grossly Incorrect, False, or Fraudulent Returns; Estimate of Tax Due

If a retailer, a wholesale merchant, a facilitator, or a consumer fails to file a return and pay the tax due under Article 5 of Chapter 105 of the North Carolina General Statutes or files a grossly incorrect or false or fraudulent return, the Secretary must estimate the tax due and assess the retailer, the wholesale merchant, the facilitator, or the consumer based on the estimate.

3-3 RECORDS REQUIRED TO BE KEPT

A. General Information

Every retailer, wholesale merchant, facilitator, real property contractor, and consumer must keep records that establish their sales and use tax liability. The Secretary or a person designated by the Secretary may inspect these records at any reasonable time during the day. Exemptions and exclusions may not be allowed unless the required records are kept. It is the duty of the Secretary or his authorized agents to assess a tax upon gross sales at the rate levied upon retail sales. If records are not kept disclosing gross sales, it is the duty of the Secretary to estimate and assess tax due based upon the best information available.

Generally, the records required to establish a person's sales and use tax liability include, but are not limited to the following:

1. All cash and credit sales, including sales under any type of financing or installment plan.
2. The amount of all items purchased and copies of all bills of lading, invoices, and purchase orders.
3. Copies of all sales invoices furnished by wholesale merchants, that must show the name and address of the purchaser, the date of purchase, the item or items purchased, and the purchase price of the item.
4. All deductions and exemptions allowed by law and claimed in filing sales and use tax returns, including **Form E-595E, Streamlined Sales and Use Tax Certificate of Exemption**, or the required data elements, as applicable, for each transaction.
5. All items used or consumed in the conduct of business.
6. A true and complete inventory of the value of the stock on hand.

B. Retailers and Facilitators

A retailer's or facilitator's records must include records of gross income, gross sales, net taxable sales, all items purchased for resale, and any reports or records related to transactions with a facilitator or retailer with whom it has a contract as provided in Article 5 of Chapter 105 of the North Carolina General Statutes. Failure of a retailer or facilitator to keep records that establish that a sale is exempt from sales and use tax subjects the retailer or facilitator to liability for tax on the sale.

C. Wholesale Merchants

A wholesale merchant's records must include a bill of sale for each customer that contains the name and address of the purchaser, the date of the purchase, the item purchased, and the sales price of the item. A wholesale merchant must also keep records that establish a sale is exempt from tax and any reports or records related to transactions with a facilitator with whom it has a contract as provided in Article 5 of Chapter 105 of the North Carolina General Statutes. Failure of a wholesale merchant to keep records that establish a sale is exempt from sales and use tax subjects the wholesale merchant to liability for tax at the rate that applies to the retail sale of the item.

D. Real Property Contractors

A real property contractor's records must include substantiation that a transaction is a real property contract or a mixed transaction contract pursuant to G.S. § 105-164.4H(a1). Failure of a real property contractor to keep records that establish a transaction is a real property contract under Article 5 of Chapter 105 of the North Carolina General Statutes subjects the real property contractor to liability for tax on the sale. For additional information, refer to SUTB 72-5.

E. Consumers

A consumer's records must include an invoice or other statement of the purchase price of an item the consumer purchased from inside or outside the State and any sales and use tax paid thereon. Failure of the consumer to keep these records subjects the consumer to liability for tax on the purchase price of the item, as determined by the Secretary.

SUTB 4 SOURCING

The determination of the taxing jurisdiction for which a retailer is liable for collecting sales or use tax is referred to as sourcing. The tax is sourced to the jurisdiction where the purchaser or its delivery agent takes delivery of items purchased or the location where the purchaser can make first use of a service pursuant to the sourcing principles in G.S. § 105-164.4B.

4-1 GENERAL SOURCING PRINCIPLES

A. The following principles apply in determining where to source the sale of an item for the seller's purpose and do not alter the application of the consumer use tax imposed under G.S. § 105-164.6. For purposes of sourcing, the terms "receive" and "receipt" mean taking possession of tangible personal property; making first use of services; or taking possession or making first use of certain digital property, whichever comes first. The terms "receive" and "receipt" do not include possession by a shipping company on behalf of the purchaser. Except as otherwise provided in this SUTB, a service is sourced where the purchaser can potentially first make use of the service. These principles apply regardless of the nature of the item, except as otherwise noted in this SUTB.

1. When a purchaser receives an item at a business location of the seller, the sale is sourced to that business location.
2. When a purchaser or purchaser's donee receives an item at a location specified by the purchaser and the location is not a business location of the seller, the sale is sourced to the location where the purchaser or the purchaser's donee receives the item.
3. When (1) and (2) above do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith.
4. When (1), (2), and (3) above do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith.
5. When (1), (2), (3), and (4) above do not apply, including the circumstance in which the seller is without sufficient information to apply the rules, the location will be determined based on the following:
 - a. Address from which tangible personal property was shipped.
 - b. Address from which the digital good or the computer software delivered electronically was first available for transmission by the seller.
 - c. Address from which the service was provided.

Note: Supplemental sourcing information regarding specific topics may be found in the SUTB regarding the topic.

B. Exceptions

The sourcing principles as provided in this SUTB do not apply to the following:

1. Telecommunications services. Refer to SUTB 80 for sourcing information.

2. Direct mail. Refer to SUTB 68-5 for sourcing information.
3. A florist wire sale. A florist wire sale is sourced to the business location of the florist that takes an order for the sale. A florist wire sale is a sale in which a retail florist takes a customer's order and transmits the order to another retail florist to be filled and delivered.

4-2 PERIODIC RENTAL PAYMENTS – SOURCING

A. Transportation Equipment Defined

For purposes of this section the following definition applies:

“Transportation equipment” – Any of the following used to carry persons or property in interstate commerce: a locomotive, a railway car, a “commercial motor vehicle” as defined in G.S. § 20-4.01, or an aircraft. The term includes a container designed for use on the equipment and a component part of the equipment.

- B. When a lease or rental agreement requires recurring periodic payments, the payments are sourced as follows:
1. For leased or rented property, the first payment is sourced in accordance with the principles set out in SUTB 4-1 and each subsequent payment is sourced to the primary location of the leased or rented property for the period covered by the payment. This subsection applies to all property except a motor vehicle, aircraft, transportation equipment, and utility company railway car.
 2. For leased or rented property that is a motor vehicle or an aircraft but is not transportation equipment, all payments are sourced to the primary location of the leased or rented property for the period covered by the payment.
 3. For leased or rented property that is transportation equipment, all payments are sourced in accordance with the principles set out in SUTB 4-1.
 4. For a railway car that is leased or rented by a utility company and would be transportation equipment if it were used in interstate commerce, all payments are sourced in accordance with the principles set out in SUTB 4-1.

4-3 ACCOMMODATIONS – SOURCING

The rental of an accommodation is sourced to the location of the accommodation.

4-4 CERTAIN DIGITAL PROPERTY – SOURCING

A purchaser receives certain digital property when the purchaser takes possession of the property or makes first use of the property, whichever comes first.

4-5 PREPAID MEAL PLAN – SOURCING

The gross receipts derived from a prepaid meal plan are sourced to the location where the food or prepared food is available to be consumed by the person.

4-6 ADMISSIONS – SOURCING

The gross receipts derived from an admission charge to an entertainment activity are sourced to the location where admission to the entertainment activity may be gained by the person. When the

location where admission may be gained is not known at the time of the receipt of the gross receipts for an admission charge, the sourcing principles in SUTB 4-1 apply.

4-7 COMPUTER SOFTWARE RENEWAL – SOURCING

The gross receipts derived from the renewal of a service contract for prewritten software is generally sourced pursuant to SUTB 4-1. However, sourcing the renewal to an address where the purchaser received the underlying prewritten software does not constitute bad faith provided the seller has not received information from the purchaser that indicates a change in the location of the underlying software.

SUTB 5 EXEMPTION ADMINISTRATION**5-1 PURCHASES EXEMPT FROM SALES AND USE TAX****A. Certificate of Exemption – Form E-595E**

Unless otherwise provided in this SUTB, **Form E-595E, Streamlined Sales and Use Tax Certificate of Exemption** (“Certificate of Exemption”), should be issued by a purchaser when purchasing an item exempt from sales and use tax. The purchaser must provide a properly completed Certificate of Exemption or the same data elements required on a certificate in order to claim an exemption. If any of the data elements are not provided, the Certificate of Exemption is incomplete and invalid. A retailer is not required to verify the validity of a purchaser’s certificate of registration number or other North Carolina issued exemption number provided by the purchaser on a Certificate of Exemption. Refer to the instructions on Form E-595E for additional detailed information.

Except as provided in SUTB 5-1B, a retailer is not liable for the applicable sales and use tax if the Secretary determines that a purchaser improperly claimed an exemption, or if the seller within 90 days of the sale meets the following requirements:

1. For a sale made in person, the retailer obtains a Certificate of Exemption or a blanket Certificate of Exemption from a purchaser with whom the retailer has a recurring business relationship. A recurring business relationship exists when a period of no more than 12 months elapses between sales transactions. If the purchaser provides a paper certificate, the certificate must be signed by the purchaser and provide the required data elements that include the purchaser's name, address, sales and use tax identification number or other North Carolina issued exemption number, type of business, and reason for exemption. For purposes of this subsection, a certificate received by fax is a paper certificate. If the purchaser does not provide a paper certificate, the seller must obtain and maintain the same required data elements had a certificate been provided by the purchaser.
2. For a sale made over the Internet or by other remote means, the retailer obtains the required data elements that include a purchaser's name, address, sales and use tax identification number or other North Carolina issued exemption number, type of business, and reason for exemption. The retailer must maintain this information in a retrievable format in its records. If a Certificate of Exemption is provided electronically for a remote sale, the requirements of SUTB 5-1A.1. apply except the electronic Certificate of Exemption is not required to be signed by the purchaser.
3. In the case of drop shipment sales, a third-party vendor obtains a Certificate of Exemption provided by its customer or any other acceptable information evidencing qualification for a resale exemption, regardless of whether the customer is registered to collect and remit sales and use tax in North Carolina.

Foreign diplomats and consular personnel must enter the individual tax identification number shown on the sales tax exemption card issued by the U.S. Department of State’s Office of Foreign Missions.

A purchaser may make purchases for the purchaser’s own use pursuant to the Certificate of Exemption and assume liability for payment of the applicable tax to the Department when the character of the business of the purchaser is such that it would impose undue hardship upon the retailer and purchaser to determine the transactions upon which the retailer would ordinarily be required to collect and remit the tax.

A person that issues a Certificate of Exemption to a retailer in order to obtain property and avoid payment of tax when due may be guilty of a Class H Felony and is subject to assessment of the penalties set out in G.S. § 105-236 that includes a two hundred fifty dollar (\$250) penalty for misuse of a Certificate of Exemption. The penalty for misuse of a Certificate of Exemption is applicable only to a purchaser. Misuse of an exemption certificate occurs when a purchaser issues an exemption certificate for a taxable item and no sales or use tax is charged by the retailer due to reliance on the certificate furnished by the purchaser but the item is used in a manner that renders it taxable. This penalty is subject to the discretionary authority of the Secretary pursuant to G.S. § 105-237.

The foregoing provisions with regard to Certificates of Exemption are applicable to sales to nonresident retail or wholesale merchants. The term “nonresident retail or wholesale merchant” is defined as a person who does not have a place of business in this State, is registered for sales and use tax purposes in a taxing jurisdiction outside this State, and is engaged in the business of acquiring, by purchase, consignment, or otherwise, tangible personal property or certain digital property and selling the property outside this State or in the business of providing services.

Note: For additional information on nonresident retail or wholesale merchants, refer to SUTB 51-3.

B. Exemption Substantiation when Requested by the Department

If the Secretary determines that a retailer obtains an incomplete Certificate of Exemption, or incomplete data elements provided electronically, at the time of the sale or within 90 days subsequent to the date of sale, the Secretary may request substantiation from the retailer. The retailer may, within 120 days subsequent to a request for substantiation by the Department, either:

1. Obtain a fully completed Certificate of Exemption from the purchaser provided in good faith. The certificate is provided in good faith if it claims an exemption that meets all of the following conditions:
 - a. It was statutorily available in this State on the date of the transaction.
 - b. It could be applicable to the item being purchased.
 - c. It is reasonable for the purchaser’s type of business.
2. Obtain other information establishing that the transaction was not subject to tax.

A seller is not required to verify that a certificate of registration number provided by the purchaser is correct.

C. Direct Pay Permits

The Secretary is authorized to issue a direct pay permit upon proper application by a business. Direct pay permits issued by the Department authorize a business to make certain purchases without payment of sales and use tax to retailers. A business who issues a direct pay permit assumes responsibility for payment of the applicable taxes directly to the Department on items purchased without tax under a direct pay permit.

A business that has a direct pay permit is allowed to provide a retailer a copy of the direct pay permit as the retailer’s authority to not collect sales and use tax on the sale to the permit holder. A business may also provide a properly completed Certificate of Exemption to the retailer at the time of sale which includes the direct pay permit number in the Reason for Exemption section, as the retailer’s authority to not collect sales and use tax on the sale.

Note: For information regarding direct pay permits, refer to SUTB 24.

D. United States Government or North Carolina State Agencies

The United States Government and North Carolina State Agencies are not required to furnish a Certificate of Exemption to a retailer for a purchase that is exempt from sales and use tax. Purchase requisitions, affidavits signed by purchasing officers, and applicable credit cards issued by the United States Government are acceptable documentation for exempting purchases by the United States Government. Purchase orders or other documentation on file with the retailer bearing the assigned State agency exemption number are acceptable documentation for exempting purchases by North Carolina State Agencies. The United States Government or a North Carolina State Agency may complete and provide a Certificate of Exemption to a retailer as the retailer's authority to exempt the sale from sales and use tax.

Note: For information regarding the United States Government or North Carolina State Agencies, refer to SUTBs 36 and 37, respectively.

5-2 LIABILITY - EXEMPTIONS**A. Purchaser Liable for Tax on Items Purchased Exempt from Tax**

A purchaser who does not resell an item purchased under a Certificate of Exemption is liable for any tax and any applicable interest and penalties subsequently determined to be due on the purchase of the item. This includes any item purchased for resale as well as any item purchased under a blanket Certificate of Exemption, provided SUTB 5-2B does not apply.

B. No Relief from Liability

The relief from liability provided to a retailer in SUTB 5-1 does not apply to a retailer that does any of the following:

1. Fraudulently fails to collect tax.
2. Solicits purchasers to participate in the unlawful claim of an exemption.
3. Accepts a Certificate of Exemption when the purchaser claims an entity-based exemption when the subject of the transaction sought to be covered by the Certificate of Exemption is received by the purchaser at a location operated by the retailer, and the claimed exemption is not available in this State. The term "entity-based exemption" means an exemption based on who purchases the product or who sells the product. An exemption that is available to all individuals is not an entity-based exemption.
4. Had knowledge or had reason to know at the time information was provided relating to the exemption claimed that the information was materially false.
5. Knowingly participated in activity intended to purposefully evade tax properly due on the transaction.

TOPICS

G.S. § 105-164.3 provides the following terms and definitions:

1. **“Accommodation”** – A hotel room, a motel room, a residence, a cottage, or a similar lodging facility for occupancy by an individual.
2. **“Accommodation facilitator”** – A person that contracts, either directly or indirectly, with a provider of an accommodation to perform, either directly or indirectly, one or more of the activities listed in this subdivision. The term includes a real estate broker as defined in G.S. § 93A-2. The activities are:
 - a. Market the accommodation and accept payment or collect credit card or other payment information for the rental of the accommodation.
 - b. List the accommodation for rental on a forum, platform, or other application for a fee or other consideration.

6-2 IMPOSITION AND RESPONSIBILITY FOR COLLECTING AND REMITTING TAX**A. Tax Imposed**

The gross receipts derived from the rental of an accommodation are subject to the general State, applicable local, and applicable transit rates of sales and use tax. Gross receipts derived from the rental of an accommodation include the sales price of the rental of the accommodation. The sales price of the rental of an accommodation is determined as if the rental were a rental of tangible personal property. The sales price of the rental of an accommodation made by an accommodation facilitator includes any charges or fees, by whatever named called, charged by the accommodation facilitator to the purchaser of the accommodation that are necessary to complete the rental. The tax is due and payable by the retailer in accordance with G.S. § 105-164.16.

B. Responsibility for Collecting and Remitting Tax

Except as otherwise provided in SUTB 6-2C, the retailer of the rental of an accommodation is one or more of the persons listed below that collects the payment, or a portion of the payment, for the rental of the accommodation. In the event the person who collects the payment cannot be determined or is a third party that is not listed in this subsection, and SUTB 6-2C does not apply, the provider of the accommodation shall be considered the retailer of the transaction. The retailer is liable for reporting and remitting the tax due on the portion of the gross receipts derived from the rental of the accommodation that the retailer collects. The retailer may be one or more of the following:

1. The provider of the accommodation.
2. An accommodation facilitator.

C. Certain Accommodation Facilitator Transactions

This subsection applies only to an accommodation facilitator that is operated by or on behalf of a hotel or a hotel corporation, that facilitates the rental of hotel accommodations solely for the hotel or the hotel corporation's owned or managed hotels and franchisees, and that collects payment, or a portion of the payment, for the rental of an accommodation. An accommodation facilitator subject to this subsection is not considered the retailer of the rental of the accommodation. The accommodation facilitator must send the retailer the sales tax due on the sales price or the portion of the sales price, the accommodation facilitator collected no later than ten (10) days after the end of each calendar month. An accommodation facilitator that does not send the retailer the sales tax

due on the sales price, or the portion of the sales price the accommodation facilitator collected, is liable for the amount of sales tax the accommodation facilitator fails to send. An accommodation facilitator is not liable for sales tax sent to a retailer but not remitted by the retailer to the Secretary. Sales tax payments received by a retailer from an accommodation facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a sales tax payment from an accommodation facilitator must remit the amount received to the Secretary. A retailer is not liable for sales tax due but not received from an accommodation facilitator.

D. Accommodation Facilitator Report

An accommodation facilitator must file with the Secretary an annual report by March 31 of each year for the prior calendar year for accommodation rentals it makes. The annual report must be provided in electronic format and include the property owner's name, the property owner's mailing address, the physical location of the accommodation, and gross receipts information for the rentals. The report may only be used by the Secretary, and any person receiving the report, pursuant to G.S. § 105-259, for tax compliance purposes.

E. Local Occupancy Tax Imposed by Certain Counties and Cities

The gross receipts derived from the rental of an accommodation may be subject to a local occupancy tax imposed, administered, and collected by certain counties and cities. A retailer of accommodations should inquire with the applicable counties and cities regarding the local occupancy tax.

6-3 FEES OR CHARGES ASSOCIATED WITH THE RENTAL OF AN ACCOMMODATION

A. Charges Subject to Sales and Use Tax as Part of Gross Receipts from the Rental of an Accommodation

Charges for certain items or amenities furnished by a retailer or accommodation facilitator of an accommodation are considered part of the gross receipts derived from the rental of an accommodation and are subject to the general State, applicable local, and applicable transit rates of sales and use tax. Such charges are either not subject to sales and use tax or exempt from sales and use tax provided the charges are separately stated on the invoice or similar billing document given to the lessee of the accommodation. Examples include, but are not limited to:

1. Banquet room rental only (no food included).
2. Cancellation fees.
3. Internet services.
4. Returned check charges.

6-4 EXEMPTIONS FOR THE RENTAL OF AN ACCOMMODATION**A. Rental of an Accommodation For 90 Continuous Days**

Sales tax collected from the person for the rental of the accommodation prior to the accumulation of the 90 continuous days of occupancy shall be refunded by the retailer collecting the tax. A retailer making a refund of such sales tax that has been paid to the Department is entitled to claim a credit on a subsequent return filed with the Department for the sales tax refunded by the retailer.

B. Rental of a Private Residence, Cottage, or Similar Accommodation for Less than 15 Days

Gross receipts derived from the rental of a private residence, cottage, or similar accommodation by the owner for fewer than 15 days in a calendar year are exempt from sales and use tax. The exemption provided in this section does not apply to rentals of a private residence, cottage, or similar accommodation by an accommodation facilitator.

C. Rental of an Accommodation by a School, Camp, or Similar Entity

Gross receipts derived from the rental of an accommodation arranged or provided to a person by a school, camp, or similar entity where tuition or a fee is charged to the person for enrollment in the school, camp, or similar entity is exempt from sales and use tax.

The rental of an accommodation is sourced to the location of the accommodation.

6-6 PURCHASES OF SUPPLIES, EQUIPMENT, OR FIXTURES

Retail sales to a provider of an accommodation of any supplies, equipment, or fixtures including, but not limited to, linens, bathroom supplies, cleaning supplies, and furniture are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

6-7 COMPLIMENTARY MEALS BY PROVIDERS OF ACCOMMODATIONS

- A.** If a provider of accommodations provides a complimentary meal or snack without charge and does not sell food or drink to the general public (e.g. operating a restaurant or similar place in which it sells prepared food), the qualifying and non-qualifying food purchased by the accommodations provider is subject to the applicable rates of sales and use tax at the time of purchase. The food is used by the accommodations provider rather than resold and is an operating expense similar to other expenses subject to sales and use tax.
- B.** If, in addition to providing a complimentary meal or snack, a provider of accommodations sells food or drink to the general public (e.g. operating a restaurant or similar place in which it sells prepared food), the qualifying and non-qualifying food used in providing the complimentary meal or snack is considered sold along with the prepared food or drink and is not subject to sales or use tax. The accommodations provider should purchase all food for resale as provided in SUTB 5. The accommodations provider is liable for collecting and remitting the applicable sales and use tax on the retail sales price of the food or drink when sold.

6-8 ADDITIONAL MEALS FOR BED AND BREAKFAST GUESTS

A bed and breakfast home and a bed and breakfast inn are defined in G.S. § 130A-247. The gross receipts derived from the rental of an accommodation from a bed and breakfast home or bed and breakfast inn, which includes the price of breakfast in the room rate, are subject to the general State, applicable local, and applicable transit rates of sales and use tax. The price of additional meals served shall be listed as a separate charge on the overnight guest's bill at the conclusion of the overnight guest's stay. Any charge by a bed and breakfast home or by a bed and breakfast inn for meals served in addition to breakfast that are separately stated on the invoice or similar billing document given to the overnight guest at the time of sale is subject to the general State, applicable local, and applicable transit rates of sales tax as the sale of prepared food.

A bed and breakfast home or bed and breakfast inn should pay sales and use tax on the purchase of any qualifying and non-qualifying food for use in serving breakfast or any additional meals, even if the additional meals are separately stated on the invoice or similar billing document given to the overnight guest. Food served for breakfast, the price of which is included in the room rate, or food served as a complimentary meal or snack without charge is used by the business rather than resold and is an operating expense similar to other expenses such as purchases of linens, toiletries, and cleaning supplies. A bed and breakfast home or bed and breakfast inn that serves meals in addition to breakfast that are separately stated on the invoice or similar billing document given to the overnight guest at the time of sale may recover the sales or use tax originally paid on the food purchased for use in serving the additional meals as provided in SUTB 73-3. Sales and use tax originally paid on food purchased for use in serving breakfast may not be recovered.

A bed and breakfast home and a bed and breakfast inn, by definition, are not engaged in business of selling prepared food or drink to the general public for immediate or on-premises consumption and the provisions in G.S. § 105-164.12C do not apply.

6-9 GUARANTEED NO-SHOW FEES

- A. Guaranteed no-show fees or charges made at the customary or agreed-upon room rate constitute taxable gross receipts subject to the general State, applicable local, and applicable transit rates of sales and use tax provided the customer is entitled to the use of the room for the rental period and the room cannot be rented to another party. A rental has occurred notwithstanding that the customer may choose not to occupy the room. If, under the same circumstances, the amount of the fee is less than the customary room rental rate, the amount charged would constitute a penalty and would not be subject to sales and use tax.
- B. If the party who reserved the room fails to cancel the reservation and the room is subsequently rented to another guest, any fee charged to the party who originally reserved the room is considered a penalty and is not subject to sales and use tax notwithstanding that the fee may be the customary room rental fee. A rental to the party who originally reserved the room did not occur since the room was made available for rental to another party.

6-10 SPECIFIC TRANSACTION

A. Pay-Per-View Movies

Pay-per-view movies are considered video programming and are subject to the combined general rate of sales and use tax. The video programming service provider is liable for collecting the tax, but, depending on the terms of the contract, a retailer of accommodation rentals may act as agent for the service provider and collect the tax from the purchaser of an accommodation rental.

Note: For information regarding video programming, refer to SUTB 85.

6-11 TIME SHARE OR INTERVAL OWNERSHIP PROPERTY

Sales of time share or interval ownership property that can be transferred by estate, gift, or devise pursuant to deeds or documents under which the owners have a fixed and continuing right to occupy such units during a specified period of time in the same manner as a person who owns or is buying a private residence or cottage are considered to be sales of real property not subject to sales or use tax. When owners of interval ownership and time share property do not occupy the property but rent the accommodation or contract with a retailer of accommodation rentals, for rental on their behalf, such retailers are engaged in business and the gross receipts derived from the rental of the accommodation are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

SUTB 7 ADMISSION CHARGES TO AN ENTERTAINMENT ACTIVITY**7-1 DEFINITIONS**

G.S. § 105-164.3 provides the following terms and definitions:

1. **“Admission charge”** – Gross receipts derived for the right to attend an entertainment activity. The term includes a charge for a single ticket, a multi-occasion ticket, a seasonal pass, and an annual pass; a membership fee that provides for admission; a cover charge; a surcharge; a convenience fee, a processing fee, a facility charge, a facilitation fee, or similar charge; or any other charges included in gross receipts derived from admission.
2. **“Admission facilitator”** – A person who accepts payment of an admission charge to an entertainment activity and who is not the operator of the venue where the entertainment activity occurs.
3. **“Amenity”** – A feature that increases the value or attractiveness of an entertainment activity that allows a person access to items that are not subject to tax under Article 5 of Chapter 105 of the North Carolina General Statutes and that are not available with the purchase of admission to the same event without the feature. The term includes parking privileges, special entrances, access to areas other than general admission, mascot visits, and merchandise discounts. The term does not include any charge for food, prepared food, and alcoholic beverages subject to tax.
4. **“Entertainment activity”** – An activity listed below:
 - a. A live performance or other live event of any kind, the purpose of which is for entertainment.
 - b. A movie, motion picture, or film.
 - c. A museum, a cultural site, a garden, an exhibit, a show, or a similar attraction.
 - d. A guided tour at a museum, a cultural site, a garden, an exhibit, a show, or a similar attraction.

7-2 IMPOSITION OF AND LIABILITY FOR COLLECTING AND REMITTING TAX**A. Tax Imposed**

The gross receipts derived from an admission charge to an entertainment activity are subject to the general State, applicable local, and applicable transit rates of sales and use tax. For the purposes of this SUTB, the term “gross receipts” has the same meaning as the term “sales price.” The gross receipts derived from an admission charge to the following entertainment activities are subject to sales and use tax:

1. A live performance or other live event of any kind, the purpose of which is for entertainment.
2. A movie, motion picture, or film.
3. A museum, a cultural site, a garden, an exhibit, a show, or a similar attraction.
4. A guided tour at a museum, a cultural site, a garden, an exhibit, a show, or a similar attraction.

The sales and use tax is due at the time the admission charges are received notwithstanding that the admission charges may be for the right to attend an entertainment activity for a future date. Where season tickets are billed in advance of the season and payment is rendered at such time, the sales and use tax is due in the reporting period in which the payment is rendered.

B. Liability for Collecting and Remitting Tax**1. Retailer**

For purposes of collecting and remitting the sales and use tax imposed on the gross receipts derived from an admission charge to an entertainment activity, the retailer is the applicable person listed below:

- a. The operator of the venue where the entertainment activity occurs, unless the retailer and the admission facilitator have a contract between them allowing for dual remittance.
- b. The person that provides the entertainment and that receives admission charges directly from a purchaser.
- c. A person other than a person listed in SUTB 7-2B.1.a or SUTB 7-2B.1.b that receives gross receipts derived from an admission charge sold at retail.

For purposes of sales and use tax due on the gross receipts derived from admission charges, if a retailer displays a statement that admission charges include sales and use tax or a similar statement on its website, at the box office, printed on the tangible ticket, or otherwise available to a purchaser, the sales and use tax will be considered to be included in the amount of admission charges. Where a retailer does not display a statement indicating that admission charges include sales and use tax or a similar statement, the retailer is liable for sales and use tax on admission charges without any allowance for sales and use tax included in the charges.

2. Admission facilitator

An admission facilitator must report to the retailer with whom it has a contract the admission charge a consumer pays to the admission facilitator for an entertainment activity. The admission facilitator must send the retailer the portion of the gross receipts the admission facilitator owes the retailer and the sales and use tax due on such gross receipts no later than 10 days after the end of each calendar month. An admission facilitator that does not send the retailer the sales and use tax due on the gross receipts derived from an admission charge is liable for the amount of sales and use tax the admission facilitator fails to send to the retailer. An admission facilitator is not liable for sales and use tax sent to a retailer but not remitted by the retailer to the Department. Sales and use tax payments received by a retailer from an admission facilitator are held in trust by the retailer for remittance to the Department. A retailer that receives a sales and use tax payment from an admission facilitator must remit the amount received to the Department. A retailer is not liable for sales and use tax due but not received from an admission facilitator. The requirements imposed on a retailer and an admission facilitator are considered terms of the contract between the retailer and the admission facilitator.

3. Dual Remittance Option

The sales and use tax due on the gross receipts derived from an admission charge may be partially reported and remitted to the operator of the venue for remittance to the Department and partially reported and remitted by the admission facilitator directly to the Department. The portion of the sales and use tax not reported and remitted to the operator of the venue must be reported and remitted directly by the admission facilitator to the Department. An admission facilitator that elects to remit sales and use tax under the dual remittance option is required to obtain a Certificate of Registration in accordance with G.S.

§ 105-164.29. An admission facilitator is subject to the provisions of Article 9 of Chapter 105 of the North Carolina General Statutes.

7-3 EXCEPTIONS RELATED TO AN ADMISSION CHARGE

The following do not constitute gross receipts derived from an admission charge sold at retail:

1. An amount paid solely for the right to participate, other than to be a spectator, in sporting activities. (*Examples of these types of charges include bowling fees for the use of the bowling alley, skating rink fees for the use of a skating rink, golf green fees, charges by golf driving ranges for the use of the range, and gym memberships.*)
2. Tuition, registration fees, or charges to attend instructional seminars, conferences, or workshops for educational purposes, notwithstanding that entertainment activity may be offered as an ancillary purpose of an event listed in this section.
3. A political contribution.
4. A charge for lifetime seat rights, lease, or rental of a suite or box for an entertainment activity, provided the charge is separately stated on an invoice or similar billing document given to the purchaser at the time of sale.
5. An amount paid solely for transportation.
6. An amount paid for the right to participate, other than be a spectator, in the following activities:
 - a. Rock climbing, skating, skiing, snowboarding, sledding, zip lining, or other similar activities.
 - b. Instruction classes related to the activities included in SUTB 7-3 6.a.
 - c. Riding on a carriage, boat, train, plane, horse, chairlift, or other similar rides.
 - d. Amusement rides, including a waterslide.

If the items listed above are included in a bundled transaction, sales and use tax applies to the sales price of the bundled transaction in accordance with SUTB 16.

7-4 EXEMPTIONS RELATED TO AN ADMISSION CHARGE

The following are exempt from sales and use tax:

1. The portion of a membership charge that is deductible as a charitable contribution under section 170 of the Internal Revenue Code or that is described in section 170(f)(2) of the Internal Revenue Code.
2. A donation that is deductible as a charitable contribution under section 170 of the Internal Revenue Code or that is described in section 170(f)(2) of the Internal Revenue Code.
3. Charges for an amenity. If the charges for amenities are separately stated on a billing document given to the purchaser at the time of the sale, then the tax does not apply to the separately stated charges for amenities.

If charges for amenities are not separately stated on the billing document given to the purchaser at the time of the sale, then the transaction is a bundled transaction and taxed in accordance with SUTB 16, except that SUTB 16-1C.3 does not apply. If charges for amenities are not separately stated on the face of an admission ticket, a retailer may use a reasonable allocation based on the retailer's business records to determine the allocated price of the taxable portion of the admission charge included in a bundled transaction. A retailer may determine such an allocated price is equal to the admission charge for a ticket to the same event that does not include amenities and is for a seat located directly in front of or closest to a seat that includes amenities.

4. An event that is sponsored by an elementary or secondary school. For purposes of this exemption, the term "school" is an entity regulated under Chapter 115C of the North Carolina General Statutes.

 - c. The entity does not compensate any person for participating in the event, performing in the event, placing in the event, or producing the event. For purposes of this exemption, the term "compensate" means any remuneration included in a person's "gross income" as defined in Section 61 of the Internal Revenue Code.
6. An event sponsored by a farmer that takes place on farmland and is related to farming activities, such as a corn maze or a tutorial on raising crops or animals. For purposes of this exemption, a farmer is a person who holds a qualifying farmer sales tax exemption certificate and farmland is land that is enrolled in the present-use value program under G.S. § 105-277.3.

7-5 SOURCING

An admission charge to an entertainment activity is sourced to the location where admission to the entertainment activity may be gained by a person. When the location where admission may be gained is not known at the time of receipt of the gross receipts for an admission charge, the general sourcing principles provided in SUTB 4-1 apply.

Examples:

1. *A retailer sells an admission ticket to a movie to a purchaser at the retailer's box office located in Guilford County. The admission charge is sourced to Guilford County, the business location of the retailer and the location where the purchaser gains admission to the movie. The retailer should collect and remit the general State and the Guilford County rates of sales and use tax on the admission charge.*
2. *A purchaser receives an admission charge via an online transaction for an NHL Hockey game to be held in Wake County. The purchaser resides in Durham County and requests that the admission ticket be mailed to the purchaser's residence in Durham County. The admission charge is sourced to Wake County, the location where the event is to be held and where the purchaser may gain admission to the event. The retailer should collect and*

remit the general State and the Wake County local and transit rates of sales and use tax on the admission charge.

3. *An entertainment venue located in North Carolina receives payment for an admission charge via an online transaction for a concert that will be held in Mecklenburg County, North Carolina. The purchaser resides in South Carolina and requests that the admission ticket be left at the will call window in Mecklenburg County, North Carolina. The operator of the entertainment venue, as retailer, is liable for the general State and the Mecklenburg County local and transit rates of sales and use tax on the admission charge.*

7-6 TICKETS PURCHASED FOR RESALE

The general State, applicable local, and applicable transit rates of sales and use tax are due on the gross receipts derived from an admission charge to an entertainment activity sold at retail by a ticket reseller. A ticket reseller should purchase tickets for resale exempt from sales and use tax as provided in SUTB 5.

SUTB 8 ADVERTISING AGENCIES AND ARTISTS**8-1 PROFESSIONAL ADVERTISING SERVICES**

- A. Advertising agencies are engaged in the business of rendering professional services when they produce advertising, such as radio and television spots or newspaper, magazine, or billboard advertising, and contract on their own behalf with radio and television stations, newspaper or magazine publishers, outdoor advertising companies, or other media for time or space to televise, broadcast, publish, or otherwise display their advertising. Receipts derived by advertising agencies from furnishing such professional services are not subject to sales and use tax if the receipts are separately stated on the invoice or similar billing document given to the purchaser at the time of sale.

Advertising agencies rendering professional services rely on expertise in advertising strategy, media buying, and in graphic arts production in their specialized fields to secure and retain clients. Usually agreements to provide professional advertising services also have the following characteristics:

1. The agency selects or advises the client on the different kinds of advertising to be used.
2. The agency is primarily responsible for developing the concept or design of the advertising.
3. The agency produces or arranges for the production of the advertising.
4. The agency places or arranges for the placement of the advertising on radio or television stations or in newspapers, magazines, or other media and the agency purchases time or space in the media to display the advertising instead of delivering it to the client for placement or distribution.

- B. Advertising agencies are also engaged in the business of rendering services when they contract to do market research, consulting, statistical analysis, or other services that result only in a report of their findings to the client. Receipts derived by advertising agencies from furnishing such services are not subject to sales and use tax if the receipts are separately stated on the invoice or similar billing document given to the purchaser at the time of sale.

8-2 RETAIL SALES BY ADVERTISING AGENCIES AND ARTISTS

Advertising agencies, artists, and other persons are retailers when they produce, cause to be produced, fabricate, purchase, or otherwise acquire catalogs, magazines, handbills, brochures, programs, pamphlets or similar printed matter, or any other tangible personal property, such as signs, paintings, portraits, negatives, photographs, vinyl wraps, or certain digital property that they sell at retail and deliver to their clients or to others on behalf of their clients for delivery or distribution as advertising material or for any use or purpose other than for resale.

Advertising agencies, artists, and other persons making retail sales of tangible personal property and certain digital property must collect and remit the applicable rates of sales and use tax on the sales price of such property unless the property is specifically exempt by statute, whether it is prepared by the agency, artist, other person or acquired from outside sources.

The sales price to which the tax applies is the total amount for which the tangible personal property or certain digital property is sold including all charges for services rendered in the production, fabrication, manufacture, or delivery of the property, such as charges for creative time, commissions, supervision, research, transportation, installation, postage, telephone and electronic messages, copy, models' fees, stage props, printing, printing plates, film, positives, negatives, transparencies, and color separations, even though the agency or artist may separately state the charges on the invoice or similar billing document given to the purchaser at the time of sale.

Note: For information on direct mail, refer to SUTB 68-5.

8-3 PURCHASES BY ADVERTISING AGENCIES AND ARTISTS

A. Purchases For Use

Purchases by advertising agencies and artists of items used in rendering professional services are subject to the applicable rate of sales and use tax regardless of whether the item is acquired in the name or account of the advertising agencies or their clients. Advertising agencies making such purchases for use are consumers of the item and must pay the sales and use tax directly to the retailers on the purchase price without regard to the disposition that may be made of the item by the advertising agency.

Advertising agencies and artists that purchase taxable items sourced to this State from suppliers who do not charge and remit the applicable sales and use tax must remit the use tax due directly to the Department on the purchase price of the item without any deduction on account of the cost of the materials used, labor or service costs, transportation charges, or any expenses whatsoever.

B. Purchases for Resale

Purchases by advertising agencies or artists of tangible personal property or certain digital property that become a part of tangible personal property or certain digital property resold by advertising agencies may be purchased for resale as provided in SUTB 5. Purchases that become a part of tangible personal property or certain digital property include only those items that are incorporated into and become a part of property sold and do not include items that are used or consumed in production.

8-4 ADVERTISING AGENCY ACTING AS AN AGENT

A. An agent is one who represents another, called the principal, with third parties. Purchases by an advertising agency of items sourced to this State are regarded as purchases by the agency on its own behalf for resale or for use unless the agency clearly establishes with respect to any acquisition that it is acting as agent for its principal pursuant to a prior express contract.

B. Establishing a Purchase is Made by an Agent

For sales and use tax purposes, to establish that a particular acquisition is made by an agency as agent for its client and not on the agency's own behalf, all of the following must apply:

1. The agency must clearly disclose to the supplier the name of the principal for whom the agency is acting as agent and establish that it has the authority to bind the principal with respect to the purchase.
2. The agency must be able to document that its status as agent existed prior to the acquisition.
3. The price billed by the agency to the principal for the property, exclusive of any agency fee, must be the same as the amount paid to the supplier, and the principal must be entitled to any profits realized by the agent from rebates, bonuses, commissions, or divisions of profits received by the agent.
4. The agency may make no use of the property for its own account.

An advertising agency purchasing items sourced to this State as an agent on behalf of its client for the client's use in North Carolina must pay the applicable sales or use tax due as agent for its principal.

An advertising agency acting as an agent must remit the sales and use tax due on its purchases. An advertising agency that purchases taxable items sourced to this State on behalf of a principal from a seller who did not charge and remit the applicable tax must remit the use tax due, as agent for its principal, directly to the Department on the purchase price of the item without any deduction on account of the cost of the materials used, labor or service costs, transportation charges, or any expenses whatsoever.

8-5 RETAINER AND CONSULTATION FEES**A. Retainer Fees**

Retainer fees that are directly related to the purchase, acquisition, fabrication, or production and sale of taxable items are subject to the applicable rates of sales and use tax.

Retainer fees are generally paid in advance to cover future services. If there is not a taxable sale of an item involved, the fees are not subject to sales or use tax.

B. Consultation Fees

Consultation fees directly involved in transactions that require the purchase, acquisition, fabrication, or production and retail sale of tangible personal property, such as pamphlets and brochures, and certain digital property are a part of the sales price and are subject to the applicable rates of sales and use tax even though the fees may be separately stated on the invoice or similar billing document given to the purchaser at the time of sale. The same applies for consultation fees directly involved in transactions that require the purchase, acquisition, and sale of a taxable service.

Charges for consultation fees charged to clients in connection with the performance of market research, analyzing statistics, or developing an advertising concept, where a report is presented orally or in writing to the client, and the consultation fees are not in connection with the sale of tangible personal property or certain digital property, are not subject to sales or use tax.

8-6 SIGN FABRICATION AND SIGN PAINTING**A. Sign Fabrication**

1. The sales price of electrical, neon, or other made-to-order signs sold at retail is subject to the general State, applicable local, and applicable transit rates of sales and use tax. Any charges by a retailer to install a sign are part of the sales price subject to tax.

Sales of brushes and other tangible personal property to retailers for use or consumption are subject to the general State, applicable local, and applicable transit rates of sales and use tax.
2. Persons engaged in the business of painting signs on billboards, on the side of buildings, or on other real property are performing real property contracts and are the consumers of any items that they purchase, install, or apply for others to fulfill such contracts and are liable for the sales and use tax on the purchase price of the items.

Note: For information regarding real property contracts, refer to SUTB 72.

A person or artist that provides painting services and performs those services on tangible personal property, whether it is the client's or otherwise, is liable for collecting and remitting the general State, applicable local, and applicable transit rates of sales and use tax on the sales price of the tangible personal property or services.

A person or artist that contracts to provide painting services and performs those services on the client's real property is making a capital improvement with respect to real property and is not liable for collecting and remitting sales and use tax on the capital improvement.

The purchase of a boat outside of North Carolina for storage, use, or consumption in this State is subject to the 3% State rate of North Carolina use tax with a maximum tax of one thousand five hundred (\$1,500) dollars. The sales price of a boat includes all accessories attached to the boat when it is delivered to the purchaser and any delivery charges imposed by the retailer. A purchaser that purchases a boat outside this state, takes title or possession outside this state, and is required to pay sales tax or a similar tax to another state, is allowed credit for the other state's tax paid against the amount of North Carolina use tax due. A purchaser of a boat who is liable for use tax who is not otherwise required to register in the State for sales and use tax purposes must file **Form E-555, Boat and Aircraft Use Tax Return**, and pay the amount of tax due by the 20th day of the month following the month in which the purchase was made. A return filed after the due date is subject to penalty and interest.
- B. The purchase of a boat from a person outside of the State that does not meet the definition of "engaged in business," such as an individual selling a boat personally owned, is exempt from sales and use tax as an occasional and isolated sale.

15-6 DIRECT PAY PERMIT - CERTAIN BOAT CHARGES AND SERVICES

For information on the direct pay permit for certain boat charges and services and the election to have the seller collect and remit the sales and use tax due on behalf of the purchaser, refer to SUTB 24-8.

SUTB 16 BUNDLED TRANSACTIONS**16-1 GENERAL PROVISIONS****A. Bundled Transaction Defined**

A retail sale of two or more distinct and identifiable items, at least one of which is taxable and one of which is nontaxable, for one nonitemized price. The term does not apply to real property or services to real property. Items are not sold for one nonitemized price if an invoice or another sales document made available to the purchaser separately identifies the price of each item. A bundled transaction does not include the retail sale of any of the following:

1. An item and any packaging that accompanies the item and is exempt from sales and use tax under G.S. § 105-164.13(23).
2. A sale of two or more items whose combined price varies, or is negotiable, depending on the items the purchaser selects.
3. A sale of an item accompanied by a transfer of another item with no additional consideration.
4. An item and the delivery or installation of the item.
5. An item and any service necessary to complete the sale.

B. In General

A bundled transaction occurs when a person has no option except to purchase two or more items packaged together and pay one nonitemized price. Examples of bundled transactions are gift baskets containing food and non-food items and medical kits containing drugs required by federal law to be dispensed only on prescription and taxable medical supplies.

Note: A mixed transaction contract is a contract that includes both a real property contract for a capital improvement and repair, maintenance, and installation services for real property that are not related to the capital improvement. For information on a mixed transaction contract, refer to SUTB 72-6. A mixed service contract is a contract for real property that includes two or more services, one of which is subject to sales and use tax and one of which is not. For information on mixed service contracts, refer to SUTB 79-9.

C. Application of Tax

Tax applies to the sales price of a bundled transaction unless one of the following applies:

1. Fifty Percent Test

The bundle consists of only tangible personal property, the bundle includes one or more of the exempt tangible personal property listed in this subsection, and the price of the taxable tangible personal property in the bundle does not exceed 50% of the price of the bundle:

- a. Food exempt from State sales and use tax under G.S. § 105-164.13B. For a bundled transaction that consists of more than 50% food exempt from State sales and use tax, the sales price of the bundled transaction is subject to the 2% food rate of sales and use tax.
- b. A drug exempt from sales and use tax under G.S. § 105-164.13(13). If the price of drugs required by federal law to be dispensed only on prescription, over-the-counter drugs sold on prescription, or insulin, including packaging materials and any instructions or information about the drugs included in the package with them, exceeds 50% of the price of the bundle, the sales price of the bundled transaction is exempt from sales and use tax.

- c. Medical devices, equipment, or supplies exempt from sales and use tax under G.S. § 105-164.13(12). For a bundled transaction that consists of more than 50% prosthetic devices for human use, mobility enhancing equipment sold on a prescription, durable medical equipment sold on prescription, or durable medical supplies sold on prescription, the sales price of the bundled transaction is exempt from sales and use tax.

Determining Threshold: In determining if a transaction meets the 50% test, a retailer of a bundled transaction may use either the purchase price or the sales price of the tangible personal property in the bundle. A retailer may not use a combination of purchase price and sales price to make this determination.

2. Allocation

The bundle includes a service, and the retailer determines an allocated price for each item in the bundle based on a reasonable allocation of revenue that is supported by the retailer's business records kept in the ordinary course of business. In this circumstance, tax applies to the allocated price of each taxable item in the bundle.

3. Ten Percent Test

The price of the taxable items in the bundle does not exceed 10% of the price of the bundle, and no other subsection in this section applies. The sales price for the bundled transaction is not subject to sales and use tax, and sales and use tax is not due on the purchase price of the taxable items included in the bundle.

Determining Threshold: In determining if a transaction meets the 10% test, a retailer of a bundled transaction may use either the purchase price or the sales price of the tangible personal property in the bundle. A retailer may not use a combination of purchase price and sales price to make this determination. If a bundled transaction includes a service contract, the retailer must use the full term of the contract in determining whether the transaction meets the threshold.

4. Prepaid Meal Plan

The bundle includes a prepaid meal plan and a dollar value that declines with use. In this circumstance, sales and use tax applies to the allocated price of the prepaid meal plan. The sales and use tax applies to items purchased with the dollar value that declines with use as the dollar value is presented for payment.

5. Tuition, Room, and Meals

The bundle includes tuition, room, and meals offered by an institution of higher education. In this circumstance, tax applies to the allocated price of the meals. The institution determines the allocated price for meals based on a reasonable allocation of revenue that is supported by the institution's business records kept in the ordinary course of business.

6. True Object Exclusion

The true object of a bundled transaction is fact-based and should be considered on a case-by-case basis. A transaction that otherwise meets the definition of a "bundled transaction" is not a bundled transaction if it is one of the following:

- a. The retail sale of tangible personal property and a service where the tangible personal property is essential to the use of the service, and is provided exclusively in connection with the service, and the true object of the transaction is the service.
- b. The retail sale of services where one service is provided that is essential to the use or receipt of a second service and the first service is provided exclusively in connection with the second service and the true object of the transaction is the second service.

Transactions that qualify under the true object exclusion are not affected by special bundled transaction taxability rules.

D. Distinct and Identifiable Items

Distinct and identifiable items do not include:

1. Packaging such as wrapping paper, labels, wrapping twine, paper, cloth, plastic bags, cartons, packages and containers, cores, cones or spools, wooden boxes, baskets, coops and barrels, including paper cups, napkins and drinking straws and like articles when such articles constitute a part of the sale of tangible personal property and are delivered with it to the customer.
2. An item provided free of charge. An item is provided free of charge in a retail sale when in order to obtain the item, the purchaser is required to make a purchase of one or more other items and the price of the purchased items does not change based on the seller providing an item free of charge. Items provided free of charge with the necessary purchase of another item are considered promotional items.
3. Charges included in the definition of the terms "sales price" and "purchase price," including but not limited to, delivery charges, installation charges, charges by the retailer for any service necessary to complete the sale, the seller's cost of materials used, labor or service costs, interest, losses, all costs of transportation to the seller, all taxes imposed on the seller, and any other expense of the seller.

E. One Nonitemized Price of a Bundled Transaction

One nonitemized price of a bundled transaction does not include:

1. A sales price that varies, whether by negotiation or otherwise, with the selection of distinct and identifiable items by the purchaser. A purchaser having the option of declining to purchase any of the items where the sales price will vary as a result of the selection of items or a different price is negotiated as a result of the selection of items made by the purchaser is evidence that the retail sale is not made for one nonitemized price.
2. A price that is separately identified by item on binding sales or other supporting sales-related documentation made available to the customer in paper or electronic form including, but not limited to, an invoice, bill of sale, receipt, contract, service agreement, lease agreement, periodic notice of rates and services, rate card, or price list. The sales-related documents made available to a purchaser must provide enough information to a purchaser so that the purchaser is able to determine the prices of taxable and nontaxable items.

16-2 BUNDLED TRANSACTIONS AND SERVICES

For a bundled transaction that includes services, a retailer is authorized to allocate a price to each item included in the bundle and collect tax on the price allocated to the taxable items. A retailer's

business records kept in the ordinary course of business must be maintained to support the allocation made.

Example: A person provides taxable telecommunications services, taxable video programming services, and exempt Internet access services and offers all the services in a bundled transaction. The person can allocate the portion of its services attributable to the taxable items and collect and remit tax on the amount of revenues allocated to the taxable services.

Note: A bundled transaction does not include services to real property.

17-3 REAL PROPERTY CONTRACTS WITH FEDERALLY RECOGNIZED INDIAN TRIBES**A. Items Sourced Outside the Reservation**

A real property contractor is the consumer of an item sourced to this State that the real property contractor purchases, installs, or applies for others to fulfill a real property contract. A real property contractor purchasing such item sourced to a North Carolina location other than a federally recognized Indian tribe's Reservation, is liable for remitting the sales and use tax due, regardless of whether the real property contractor will use it to fulfill a real property contract on the Reservation.

Note: For information regarding real property contracts, refer to SUTB 72.

B. Items Sourced to the Reservation

Purchases by a real property contractor of an item sourced to a federally recognized Indian tribe's Reservation to be used to fulfill a real property contract with a federally recognized tribe or an enrolled member of the federally recognized Indian tribe residing on the Reservation is exempt from sales and use tax.

C. Other Taxable Items

Purchases by a real property contractor of an item sourced to federally recognized Indian tribe's Reservation that is not used to fulfill a real property contract with the federally recognized tribe is subject to the applicable rate(s) of sales and use tax unless subject to the exemption in SUTB 17-1 or other exemption.

18-2 EXEMPTION FOR CERTAIN COINS, METAL BULLION, AND NON-COIN CURRENCY

Sales of investment coins, investment metal bullion, and non-coin currency are exempt from sales and use tax. For purposes of this exemption, the following terms and definitions apply:

1. **“Investment coins”** – Numismatic coins or other forms of money and legal tender manufactured of metal under the laws of the United States or any foreign nation with a fair market value greater than any statutory or nominal value of such coins.
2. **“Investment metal bullion”** – Any elementary precious metal that has been put through a process of smelting or refining and that is in such state or condition that its value depends upon its content and not upon its form. The term does not include fabricated precious metal that has been processed or manufactured for one or more specific and customary industrial, professional, or artistic uses.
3. **“Non-coin currency”** – Forms of money and legal tender manufactured of a material other than metal under the laws of the United States or any foreign nation with a fair market value greater than any statutory or nominal value of such currency.

SUTB 19 COMPUTERS (HARDWARE, SOFTWARE, SERVICES, AND MAINTENANCE)**19-1 DEFINITIONS**

G.S. § 105-164.3 provides the following terms and definitions:

1. **“Computer”** – An electronic device that accepts information in digital or similar form and manipulates it for a result based on a sequence of instructions.
2. **“Computer software”** – A set of coded instructions designed to cause a computer or automatic data processing equipment to perform a task.
3. **“Custom computer software”** – Computer software that is not prewritten computer software. The term includes a user manual or other documentation that accompanies the sale of the software.
4. **“Datacenter”** – A facility that provides infrastructure for hosting or data processing services and that has power and cooling systems that are created and maintained to be concurrently maintainable and to include redundant capacity components and multiple distribution paths serving the computer equipment at the facility. Although the facility must have multiple distribution paths serving the computer equipment, a single distribution path may serve the computer equipment at any one time. The following definitions apply to this definition:
 - a. **“Concurrently maintainable”** – Capable of having any capacity component or distribution element serviced or repaired on a planned basis without interrupting or impeding the performance of the computer equipment.
 - b. **“Multiple distribution paths”** – A series of distribution paths configured to ensure that failure on one distribution path does not interrupt or impede other distribution paths.
 - c. **“Redundant capacity components”** – Components beyond those required to support the computer equipment.
5. **“Electronic”** – Relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.
6. **“Information service”** – A service that generates, acquires, stores, processes, or retrieves data and information and delivers it electronically to or allows electronic access by a consumer whose primary purpose for using the service is to obtain the processed data or information.
7. **“Prewritten computer software”** – Computer software, including prewritten upgrades that is not designed and developed by the author or another creator to the specifications of a specific purchaser. 19-2 COMPUTER HARDWARE AND BASIC OPERATIONAL PROGRAMS**A. Computer Hardware**

The retail sale, lease, or rental of computer hardware is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

B. Basic Operational Programs

The basic operational program or control program that controls the basic operations of a computer causing it to execute instructions contained in the program is an integral part of the computer hardware. A basic operational program is that part of an operating system, including supervisors, monitors, executives, and control or master programs, that consists of the control program elements of that system. A control or master program, as opposed to a processing program, controls the operation of a computer by managing the allocation of all system resources, including the central processing unit, main storage unit, input/output devices, and processing programs. Retail sales of such basic operational programs or control programs are considered part of the computer hardware sold and are subject to the general State, applicable local, and applicable transit rates of sales and use tax, notwithstanding that the retailer does or does not charge separately for such programs or that such programs are prepared to the specifications of the customer.

19-3 COMPUTER SOFTWARE

A. Retail Sales of Computer Software

The retail sale of computer software is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

B. Exemptions

The following exemptions from sales and use tax apply to retail sales and purchases of computer software and related items. This is not an all-inclusive list.

1. Custom computer software and the portion of prewritten computer software that is modified or enhanced if the modification or enhancement is designed and developed to the specifications of a specific purchaser and the charges for the modification or enhancement are separately stated on the invoice or similar billing document given to the purchaser at the time of the sale.
2. Computer software that meets any of the following descriptions:
 - a. It is purchased to run on an enterprise server operating system. The exemption includes a purchase or license of computer software for high-volume, simultaneous use on multiple computers that is housed or maintained on an enterprise server or end users' computers. The exemption includes software designed to run a computer system, an operating program, or application software.
 - b. It is sold to a person who operates a datacenter and is used within the datacenter.
 - c. It is sold to a person who provides cable service, telecommunications service, or video programming and is used to provide ancillary service, cable service, Internet access service, telecommunications service, or video programming.
3. Computer software or certain digital property that becomes a component part of other computer software or certain digital property that is offered for sale or of a service that is offered for sale.

C. Software as a Service ("SaaS")

Generally, software as a service is a computer software distribution model that involves a service provider's use of computer hardware infrastructure and computer software to allow a consumer electronic access to the service provider's computer software. The computer software is not

downloaded to the consumer's computer, but is instead accessed electronically over a computer network, usually the Internet. North Carolina does not impose sales or use tax on software as a service.

D. Enhancements

The portion of computer software that is modified or enhanced, if the modification or enhancement is designed and developed to the specifications of a specific purchaser and the charges for the modification or enhancement are separately stated on an invoice or similar billing document given to the purchaser at the time of sale, is exempt from sales and use tax. Sales of software designed and developed by the author or another creator to the specifications of a specific purchaser do not qualify for the exemption when it is sold to a person other than the specific purchaser. Computer software sold to a person other than the specific purchaser for whom the software was designed and developed are sales of prewritten computer software and subject to the general State, applicable local, and applicable transit rates of sales or use tax.

E. Sourcing – Prewritten Computer Software

Prewritten computer software is sourced in accordance with the general sourcing provisions provided in SUTB 4-1.

1. When prewritten computer software is received by the purchaser at a business location of the seller, the retail sale is sourced to that business location.
2. When prewritten computer software is not received by the purchaser at a business location of the seller, the retail sale is sourced to the location(s) where receipt by the purchaser first occurs. Receipt may occur at multiple locations if the seller delivers the software to multiple locations. The transaction is sourced to those locations if the seller receives delivery information from the purchaser by the time of the invoice.
3. When SUTB 19-3E.1 and SUTB 19-3E.2 do not apply, the retail sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of business when use of this address does not constitute bad faith.
4. When SUTB 19-3E.1, SUTB 19-3E.2, and SUTB 19-3E.3 do not apply, the retail sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the retail sale, including the address of a purchaser's payment instrument if no other address is available, when this address does not constitute bad faith.
5. When SUTB 19-3E.1, SUTB 19-3E.2, SUTB 19-3E.3, or SUTB 19-3E.4 do not apply, including circumstances in which the seller is without sufficient information to apply SUTB 19-3E.1, SUTB 19-3E.2, SUTB 19-3E.3, or SUTB 19-3E.4, the retail sale is sourced to the jurisdiction for the address of the location from which the prewritten computer software was shipped or, if delivered electronically, was first available for transmission by the seller. "First available for transmission" means the location from which the software originated, irrespective of where it is routed, including intermediary servers.

19-4 COMPUTER SERVICES

A. Systems and Programming Services

A person performing repair, maintenance, and installation services on computer hardware and software is liable for collecting and remitting the general State, applicable local, and applicable

transit rates of sales and use tax on the sales price of or gross receipts derived from the services, unless specifically exempt by statute.

Note: For information on repair, maintenance, and installation services, refer to SUTB 75.

B. Time Sharing

Charges made to customers for the use of a computer that the customer has access to through a remote terminal device are not subject to sales and use tax.

C. Information Services

An information service is not subject to sales and use tax.

Note: For information on information services, refer to SUTB 48.

D. Consulting and Training Services

Charges by a person to solely furnish consulting and training services for how to use computer software are not subject to sales and use tax.

E. Sourcing – Computer Related Services

A retail sale of a computer-related service is sourced where the purchaser receives the service. For purposes of this subsection and in accordance with Rule 311.1 of the Streamlined Sales Tax Governing Board, the term “receives” means making first use of services. The purchaser may make first use of a service in more than one location.

1. If the purchaser receives the service at a business location of the seller, the retail sale is sourced to that business location of the seller.
2. When the service is not received by the purchaser at a business location of the seller, the retail sale is sourced to the location(s) where receipt by the purchaser occurs.

If the service is received by the purchaser exclusively at one or more locations of the purchaser and the amount of the service received by the purchaser at each location is known by the seller, the retail sale is sourced to those locations.

If receipt occurs in multiple locations and the purchaser and seller agree to allocate the retail sale to multiple locations based on a reasonable and consistent method, the seller shall source the retail sale to those locations using such method. The locations and allocation must be provided by the purchaser by the time of the invoice.

If the seller does not receive information as to the location(s) where the service will be received by the purchaser or the purchaser and seller do not agree how to allocate the sale to multiple locations, the seller shall source the retail sale to a single location of the purchaser.

3. When SUTB 19-4E.1 and SUTB 19-4E.2 do not apply, the retail sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of business when use of this address does not constitute bad faith.
4. When SUTB 19-4E.1, SUTB 19-4E.2, and SUTB 19-4E.3 do not apply, the retail sale is sourced to the location indicated by an address for the purchaser obtained during the

consummation of the retail sale, including the address of a purchaser's payment instrument, if no other address is available, when this address does not constitute bad faith.

5. When SUTB 19-4E.1, SUTB 19-4E.2, SUTB 19-4E.3, and SUTB 19-4E.4 do not apply, including circumstances in which the seller is without sufficient information to apply SUTB 19-4E.1, SUTB 19-4E.2, SUTB 19-4E.3, or SUTB 19-4E.4, then the location is determined by the address from which the service was provided.

19-5 SERVICE CONTRACTS FOR COMPUTER HARDWARE AND COMPUTER SOFTWARE

The sales price of or the gross receipts derived from the sale or the renewal of a service contract for computer hardware or computer software sold at retail is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Service contracts for computer hardware or software that provide support services that meet the definition of "repair, maintenance, and installation services" are taxable unless exempt by statute or the sale meets the definition of a "bundled transaction." Service contracts for computer hardware or software that provide support services that do not meet the definition of "repair, maintenance, and installation services" are not subject to sales and use tax.

Note: For information on service contracts refer to SUTB 79.

SUTB 20 CONTAINERS USED IN WRAPPING, PACKING, AND SHIPPING MATERIALS**20-1 CONTAINERS: WRAPPING, PACKING, AND SHIPPING MATERIALS**

Sales to manufacturers, producers, wholesalers, and retailers of wrapping paper, labels, wrapping twine, paper, cloth, plastic bags, cartons, packages and containers, cores, cones or spools, wooden boxes, baskets, coops and barrels, including paper cups, napkins and drinking straws and like articles are exempt from sales and use tax when such materials are used for packaging, shipping, or delivering tangible personal property sold at wholesale or retail and when such materials constitute a part of the sale of the property and are delivered with the property to the customer. Except for the items described in SUTB 20-4A, this exemption does not apply to items that are used solely for delivery purposes and do not become a part of the sale of tangible personal property.

20-2 DRUMS FOR PACKAGING PRODUCTS

Sales of drums to manufacturers, producers, wholesalers, and retailers are exempt from sales and use tax when the drums are used for packaging, shipment, or delivery of tangible personal property that is sold at wholesale or retail and when the drums constitute a part of the sale of such tangible personal property and are delivered with it to the customer. Sales of paint to manufacturers, producers, wholesalers, and retailers for use in painting the drums are also exempt from sales and use tax.

20-3 EGG CARTONS

Sales of egg cartons to persons engaged in the business of selling eggs are exempt from sales and use tax when such cartons become a part of the sale of the eggs to the customer.

20-4 RETURNABLE CONTAINERS

- A. Sales of containers, such as barrels and drums, that are used as packaging to enclose tangible personal property for delivery to the customer that are required to be returned to the owner for reuse are exempt from sales and use tax.

The North Carolina Court of Appeals in *Parkdale Am., LLC v. Hinton*, 200 N.C. App. 275 (2009) held that a yarn pak was a container that enclosed tangible personal property and qualified for the sales and use tax exemption in G.S. § 105-164.13(23).

- B. When a retailer or wholesale merchant sells tangible personal property in returnable containers and no charge is made for the use of the containers for a specified time but, at the expiration of the specified time, the containers enter a demurrage period and a penalty is charged to encourage the return of the containers, the charge is not subject to sales and use tax.

20-5 DEPOSITS FOR CONTAINERS

- A. Deposits charged by a retailer or a wholesale merchant for reusable containers, other than returnable beverage containers and core deposits as described in SUTB 20-5B, are subject to the general State, applicable local, and applicable transit rates of sales and use tax when the purchasers of the property contained therein can, during the period the containers are in their possession, exercise such control over the containers as is ordinarily associated with ownership. Such amounts are a part of the sales price even though designated as deposits for the containers.
- B. An amount charged as a deposit on a beverage container that is returnable to the retailer or wholesale merchant for reuse when the amount is refundable or creditable to the purchaser, whether or not the deposit is separately stated on the invoice or similar billing document is not subject to sales and use tax.

- C. When the retailer or wholesale merchant retains title to such containers and the right to control the use which the customer makes of the containers, the containers are not considered to be a part of the sale of the property. In such cases, amounts charged to the customers as security for the return of the containers are not subject to sales or use tax if such charges are shown separately from the sales price of the property on the invoice or similar billing document given to the purchaser at the time of sale. If such amounts are not separately stated on the invoice or similar billing document given to the purchaser at the time of sale, the total charge is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

SUTB 21 COUPONS AND VOUCHERS**21-1 COUPONS****A. Sales of Coupons and Coupon Booklets**

Sales of coupons and coupon booklets to advertising agencies, promoters, and other users or consumers for use in advertising programs aimed at the promotion of sales by retailers are subject to the general State, applicable local, and applicable transit rates of sales and use tax. Such coupons are considered to be for the purpose of advertising discounts or special sales prices, such as the sale of two items for the price of one item, and are not considered to be a part of the sale price upon which sales tax is due.

B. Retailer's Coupons

When a retailer issues coupons or coupon codes relating to products the retailer sells and later receives the coupons or coupon codes from customers in connection with sales of the products, the retailer must charge and remit sales and use tax on the net amount charged for the products after deduction of any credit allowed for the coupons or coupon codes. Coupons or coupon codes issued by retailers are considered to be for the purpose of advertising discounts or reductions in the sales price of products and are not part of the sales price upon which sales tax is due.

C. Manufacturer's Coupons

When manufacturers issue coupons or coupon codes relating to their products and the coupons or coupon codes are subsequently accepted by retailers from their customers in connection with sales of the manufacturers' products, the retailers must charge and remit sales and use tax on the sales price of the products before deduction of any credit or issuance of any refund allowed for any coupon or coupon code. A manufacturer's coupon or coupon code accepted by retailers from their customers constitutes payment, or partial payment, of the sales price of the product upon which sales and use tax is due. Any amount paid by the manufacturer to the retailer for the value of the coupons or coupon codes is not subject to sales and use tax.

21-2 VOUCHERS

For purposes of this SUTB the following guidance from the Streamlined Agreement applies. Refer to Disclosed Practice 1 - Tax Administration Practices on Vouchers in the North Carolina State Taxability Matrix available on the Department's website for additional information.

A. Vouchers

A voucher is an instrument that is:

1. Issued to a purchaser for an amount less than the face value of the voucher, and both the face value and the amount paid by the purchaser are noted on the voucher.
2. Redeemable for personal property or services in a single visit only at the seller's business.
3. Redeemable either for a specific product or for a certain dollar amount towards the purchase price of any product sold by the seller.
4. Issued, marketed, or distributed by a third party pursuant to a specific agreement with the seller, and the seller determines the price at which the voucher is to be issued and allows redemption of the specific voucher for personal property or services ('third party agreement').

5. Not a “digital code” as defined by the Streamlined Agreement or the Streamlined Governing Board Rules.
6. Not a ticket for admission to a performance or event on a specific date and time.
7. Not a gift card nor a gift certificate; nor is it convertible, in whole or in part, to a gift card, a gift certificate, or cash.
8. Not usable in combination with other promotions or coupons offered by the seller.
9. Not a prepaid calling service or a prepaid wireless calling service.

A voucher may be provided to a purchaser in the form of an electronic instrument that is scanned by the seller from the purchaser’s electronic device.

B. Application of a Voucher to a Sale

1. The difference between the value of a voucher allowed by the seller and the amount the purchaser paid for the voucher is administered as a discount that is not included in the sales price of an item (i.e. same treatment as a retailer’s in-store coupon) provided the seller is not reimbursed by a third party in money, or otherwise, for some or all of that difference.
2. When the discount on a voucher will be fully reimbursed by a third party, the seller is to use the face value of the voucher (i.e. same as the treatment of a manufacturer’s coupon) and not the price paid by the purchaser as the sales price that is subject to sales and use tax.
3. Costs and expenses of the seller are not deductible from the sales price and are included in the sales price that is subject to sales and use tax. Further, reductions in the amount of consideration received by the seller from the third party that issued, marketed, or distributed the vouchers, such as advertising or marketing expenses, are costs or expenses of the seller included in the sales price sales and use tax.

C. Allocation of Charges

The sale at retail or the use, storage, or consumption in this State of a digital code is treated the same as the sale at retail or the use, storage, or consumption in this State of certain digital property for which the digital code relates.

An educational service and an information service, as the terms are defined in SUTB 23-1A, are excluded from the tax imposed on certain digital property.

Braces R Us will not be able to save or copy the presentation; it will only have access to the video electronically. Patients of Braces R Us will view the presentation at the Braces R Us office. Smiley Orthodontists, Inc.’s sales of the video presentation come within the definition of a “digital audiovisual work” and are subject to sales and use tax as certain digital property.*
3. *Rembrandt’s Photography Company is a photography business. It takes pictures of clients for various occasions. Rembrandt’s Photography Company gives its client access to the digital images on the internet. Once received, a retailer is relieved of the liability from collecting and remitting sales and use tax on its sales to the direct pay permit holder. A retailer must maintain documentation in its records in support of the exemption from tax. Proper documentation includes a copy of the direct pay permit, a Certificate of Exemption, or the required data elements, as applicable.

The information must include the following: direct pay permit number, name and address of the direct pay permit holder, and date the direct pay permit was issued.

C. Entity Entitled to Use Direct Pay Permit

A taxpayer's annual purchases of certain items must be at least five million dollars (\$5,000,000) to qualify for a general direct pay permit. 24-8 DIRECT PAY PERMIT - CERTAIN BOAT, AIRCRAFT, AND QUALIFIED JET ENGINE CHARGES AND SERVICES

A. Eligibility and Election to Remit Tax

In lieu of purchasing tangible personal property, certain digital property, or repair, maintenance, and installation services for a boat, an aircraft, or a qualified jet engine under a direct pay permit, filing a return, and remitting the use tax due to the Secretary, a purchaser may elect to have the seller collect and remit the sales and use tax due on behalf of the purchaser. Where the purchaser elects for the seller to collect and remit the tax, an invoice given to the purchaser bearing the proper amount of tax on a retail transaction extinguishes the purchaser's liability for the tax on the transaction. Where a seller cannot or does not separately state installation charges that are a part of the sales price of tangible personal property or certain digital property for a boat, an aircraft, or a qualified jet engine on the invoice or other documentation given to the purchaser at the time of the sale, tax is due on the total purchase price.

Alternatively, a direct pay permit may be issued by the Department to a person that purchases tangible personal property, certain digital property, or repair, maintenance, and installation services for a boat, an aircraft, or a qualified jet engine without paying tax to the seller and authorizes the seller to not collect tax on the purchased items from the permit holder.

A permit holder is allowed a use tax exemption on one or more of the following: (i) the installation charges that are a part of the sales price of tangible personal property or certain digital property purchased by the permit holder for a boat, an aircraft, or a qualified jet engine, provided the installation charges are separately stated and identified as such on the invoice or other documentation given to the permit holder at the time of the sale and (ii) the sales price of or gross receipts derived from repair, maintenance, and installation services provided for a boat or an aircraft. The amount of the use tax exemption is the amount of the installation charges and the sales price of or gross receipts derived from the repair, maintenance, and installation services that exceed twenty-five thousand dollars (\$25,000).

B. Application

A person, who expects to or will incur qualifying expenses in excess of twenty-five thousand dollars (\$25,000) must complete and submit **Form E-595RMI, Application for Direct Pay Permit for Certain Boat, Aircraft, and Qualified Jet Engine Charges and Services**, to the Sales and Use Tax Division if the person desires to take advantage of the use tax exemption as discussed in this section.

C. Prohibited Uses

A direct pay permit cannot be used by a subsidiary or an affiliate of an entity; only the entity to which the permit is issued by the Department is entitled to submit the permit to retailers. If a permit holder undergoes reorganization and forms a new business entity, the new entity must apply for a permit of its own.

The amount of an allowance to the purchaser for an item taken in trade as a credit or partial payment on the sale of a new article is not a reduction in the sales price of the new article. Employee incentive program credit, whether measured in a dollar or point value, is not an employee discount but rather constitutes payment or partial payment of the sales price for which an item is sold, leased, or rented. The amount actually charged to customers for electricity consumed during the billing period is the amount on which the sales tax is due notwithstanding that the customers may be under equal pay agreements. Sales and use tax is computed on the gross receipts after any allowance for conservation discounts and load control discounts on metered electric service for residential customers.

C. Reporting the Tax

Gross receipts derived from the retail sale of electricity must be reported on an accrual basis of accounting. A sale of electricity is considered to accrue when the customer is billed for the sale. D. Lessor of a Single-Family Dwelling, Residential Building, or Multiunit Apartment Complex

A lessor of a single family dwelling, residential building, or multiunit apartment complex that has individually metered units for electricity service in the lessor's name and that charges the actual costs of providing electric service to each lessee pursuant to Chapter 62 of the North Carolina General Statutes is not considered a retailer for sales and use tax purposes. A lessor who charges for electric service under this subsection is the consumer of the electricity and is liable for payment of the sales and use tax to the electric power supplier providing service to the leased premises. Refer to G.S. § 62-110(h) for the additional information.

26-2 GROSS RECEIPTS SUBJECT TO SALES AND USE TAX

The gross receipts derived from the retail sale of electricity is the total amount for which electricity is sold. The following specific charges are a part of the gross receipts derived from the sale of electricity subject to sales and use tax:

9. Charges for transformers that constitute charges for additional equipment furnished as a part of the electric service.
10. Charges for area lighting service that is available to customers for the purpose of lighting private streets, private driveways, and other outdoor areas.

13. Interconnection charges.

Gross receipts derived from the sale of electricity to a qualifying or conditional farmer where the electricity is measured through a single meter and used for both qualifying farming purposes and for preparing food, heating dwellings, or other household purposes are subject to the combined general rate of sales and use tax.

6. The purchase of electricity by a manufacturer provided the electricity is for use in connection with the operation of the manufacturing facility. A person that no longer qualifies for a qualifying farmer exemption certificate number or a person that has ceased farming operations, must give notice to each seller that may rely on the qualifying farmer exemption certificate or exemption certificate number, on or before the next purchase. Additionally, such person must notify the Department within thirty (30) days to cancel the qualifying farmer exemption certificate number.

27-3 CONDITIONAL FARMERS

A. General Information

A person that does not meet the definition of “qualifying farmer” may apply to the Department for a conditional farmer exemption certificate number. A person issued a conditional farmer exemption certificate number by the Department may purchase qualifying items exempt from sales and use tax to the same extent as a qualifying farmer. To receive a conditional farmer exemption certificate number, a person must certify that the person intends to engage in “farming operations” as defined in SUTB 27-1 and that the person will timely file State and federal income tax returns that reflect income and expenses incurred from farming operations during the taxable years to which the conditional farmer exemption certificate number applies.

A conditional farmer exemption certificate number is valid for the taxable year in which the certificate is issued and the following two taxable years, provided the person to whom the exemption certificate number is issued does not cease engaging in farming operations prior to the expiration of the conditional farmer exemption certificate number and the holder of the conditional farmer exemption certificate number provides the required information to the Department, as detailed below.

The Department may not issue a conditional farmer exemption certificate number to a person who has had a conditional farmer exemption certificate number issued during the prior 15 taxable years.

B. Application for Exemption Certificate Number

Where a person obtains an extension to file its income tax return, such person must provide copies of the extension, proof of payment of any taxes due, and must provide copies of the income tax return filed on or before the extended due date.

2. A person that purchases items with a conditional farmer exemption certificate must maintain documentation of the items purchased and copies of State and federal income tax returns that reflect activities from farming operations for the period of time covered by the conditional farmer exemption certificate for three years following the expiration of the conditional farmer exemption certificate. The Secretary may require a person that has a conditional farmer exemption certificate to provide any other information requested by the Secretary to verify the person met the mandatory conditions. A person that fails to provide the information required in a timely manner or that fails to meet the requirements described herein becomes liable for the sales and use tax for which an exemption was claimed by the person. The sales and use tax becomes due and payable at the expiration of the conditional farmer exemption certificate. Interest accrues on the sales and use tax due from the date the tax was originally due until the date the tax is paid. Additionally, where the person does not timely provide the information requested by the Department, the two hundred fifty dollar (\$250) misuse of exemption certificate penalty, per G.S. § 105-

236(a)(5a), applies to each seller identified by the Department from which the person made a purchase.

To request an extension, a conditional farmer must complete and submit to the Department **Form E-595CFEX, Application for One-Year Extension for Conditional Farmer Exemption Certificate Number**.

E. Expiration of Exemption Certificate Number or Ceasing Farming Operations

A person that no longer qualifies for a conditional farmer exemption certificate number at any time or a person that was issued a conditional farmer exemption certificate that is no longer valid, must give notice to each seller that may rely on the conditional farmer exemption certificate or conditional farmer exemption certificate number, on or before the next purchase. Additionally, a person that no longer qualifies for a conditional farmer exemption certificate must notify the Department within 30 days to cancel the conditional farmer exemption certificate number.

F. Conditional Farmer Transitioning to Qualifying Farmer

A person issued a conditional farmer exemption certificate does not have to wait until the conditional farmer exemption certificate expires to apply for a qualifying farmer exemption certificate. A person who has been issued a conditional farmer exemption certificate number who meets the ten thousand dollar (\$10,000) gross income threshold for a prior income tax year and meets the eligibility requirements for a qualifying farmer during the period of time covered by the conditional farmer exemption certificate, can apply for a qualifying farmer exemption certificate number prior to the expiration of the conditional farmer exemption certificate. For purposes of the registration list, the exemptions in G.S. § 66-256 do not apply.

B. Certificate of Registrations Displayed

The specialty market operator must require each retailer to exhibit a valid Certificate of Registration for visual inspection at the time of registration and must require each retailer to keep the Certificate of Registration conspicuously and prominently displayed so as to be visible for inspection by patrons of the retailer at the places or locations at which the goods are offered for sale.

30-4 EXEMPTIONS RELATED TO SPECIALTY MARKETS

The following are exempt from sales and use tax. This is not an all-inclusive list.

2. Sales of products of a farm sold in their original state by the producer of the products if the producer is not primarily a retailer.
3. Sales of products of waters in their original or unmanufactured state when such sales are made by the producer in the capacity of producer. Fish and seafood are likewise exempt when sold by the fisherman in that capacity.

30-5 SALES OF HOUSEHOLD PERSONAL PROPERTY

SUTB 31 FLORISTS**31-1 SALES BY FLORISTS**

Retail sales of flowers, potted plants, wreaths, bouquets, and other tangible personal property are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

All charges imposed by a retailer for preparation and delivery of tangible personal property to a location designated by a purchaser in connection with a taxable sale of tangible personal property are subject to sales and use tax. Therefore, all delivery and service charges associated with taxable sales of flowers or other tangible personal property in North Carolina, whether delivered to the purchaser or to a person other than the purchaser, are considered to be a part of the sales price and are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

31-2 FLORISTS' DELIVERY ASSOCIATIONS

- A. A "florist wire sale" is a sale in which a retail florist takes a customer's order and transmits the order to another retail florist to be filled and delivered. A florist wire sale is sourced to the business location of the florist that takes an order for the sale.

Orders initially accepted by a florist within North Carolina and relayed to another florist inside or outside of North Carolina, for delivery inside or outside of North Carolina, are subject to the general State, applicable local, and applicable transit rates of sales and use tax. The florist initially accepting the order must collect and remit to the Department the sales and use tax on the total sales price. Service or relay charges to purchasers for orders accepted in North Carolina and forwarded to other florists through a florist delivery association constitute a part of the sales price and are subject to sales and use tax regardless of whether the charges are separately stated on the invoice or other similar billing document given to the purchaser at the time of sale.

- B. A North Carolina florist receiving orders from other florists inside or outside of North Carolina for delivery inside or outside of North Carolina is not liable for any sales and use tax on the gross receipts that the florist derives from such transactions.

32-2 TAX IMPOSED ON FOOD**A. Tax Imposed at 2% Rate for Qualifying Food**

Retail sales and purchases of qualifying food not included in SUTB 32-2B and SUTB 32-2C are subject to the 2% food rate of sales and use tax and exempt from the general State rate of sales and use tax. The local and transit taxes imposed by Articles 43 and 46, respectively, do not apply to qualifying food that is exempt from the State sales and use tax.

B. Tax Imposed on Non-Qualifying Food

The following non-qualifying food is subject to the general State, applicable local, and applicable transit rates of sales and use tax:

1. Dietary supplements.
2. Food sold through a vending machine.
3. Prepared food, other than bakery items sold without eating utensils by an artisan bakery.
4. Soft drinks.
5. Candy.

C. Tax Imposed on a Prepaid Meal Plan

The general State, applicable local, and applicable transit rates of sales and use tax apply to the sales price of or gross receipts derived from a prepaid meal plan.

Note: For information on a prepaid meal plan, refer to SUTB 32-10.

32-3 PREPARED FOOD

A. Prepared Food Definition

Prepared food is food that meets at least one of the following conditions but does not include food the retailer sliced, repackaged, or pasteurized but did not heat, mix, or sell with eating utensils.

1. It is sold in a heated state or it is heated by the retailer.
2. It consists of two or more foods mixed or combined by the retailer for sale as a single item but does not include foods containing raw eggs, fish, meat, or poultry that require cooking by the consumer as recommended by the Food and Drug Administration in chapter 3, part 401.11 of its Food Code so as to prevent food borne illnesses.

(Example: If a retailer purchases food items and combines two or more of the food items in a package or gift box for sale as a single item, the gift box containing food items does not constitute prepared food.)

3. It is sold with eating utensils provided by the retailer, such as plates, knives, forks, spoons, glasses, cups, napkins, and straws. A plate does not include a container or packaging used to transport the food.

B. Eating Utensils Provided by the Retailer

For purposes of this SUTB, the following interpretations apply regarding the meaning of the phrase "provided by the retailer" with respect to eating utensils. The purpose of the 75% test is to determine whether or not the food being sold is taxed at the 2% food rate or whether it meets the definition of "prepared food" subject to the general State, applicable local, and applicable transit rates of sales and use tax.

1. **Prepared Food Sales Percentage Calculation**

The 75% threshold test for retailers is calculated so that like businesses (single purpose coffee shop versus coffee shop in a book store) are treated the same.

The numerator includes both sales of:

- a. Prepared food if under SUTB 32-3A.1 and SUTB 32-3A.2. Prepared food does not include food the retailer sliced, repackaged, or pasteurized but did not heat, mix, or sell with eating utensils.
- b. Food where plates, bowls, glasses, or cups are necessary to receive the food (*Example: dispensed milk, salad bar*).

The denominator includes sales of all food and food ingredients, including prepared food, candy, dietary supplements, and soft drinks. Alcoholic beverages are not included in the numerator or denominator.

The prepared food sales percentage is determined annually for all of the retailer's establishments in the State. The percentage is calculated by the retailer for each tax year or business fiscal year, based on the retailer's data from the prior tax year or business fiscal year, as soon as possible after records are available, but not later than ninety (90) days after the beginning of the tax or business fiscal year. A new business should make a good faith estimate for its first year and adjust the estimate after the first three months of operation if actual prepared food sales percentages materially affect the 75% threshold test.

2. Prepared Food Sales Percentage Application

a. Sales Percentage of 75% or Less

For retailers with a sales percentage of 75% or less, utensils are provided by the retailer if the retailer's practice for the item (as represented by the retailer) is to physically give or hand the utensils to the purchaser, except that plates, bowls, glasses, or cups necessary for the purchaser to receive the food (*Example: dispensed milk, salad bar*) need only be made available.

b. Sales Percentage Greater than 75%

For retailers with a sales percentage greater than 75%, utensils are provided by the retailer if they are made available to purchasers.

For retailers with a sales percentage greater than 75% who sell items that contain four (4) or more servings packaged as one item for a single price, an item does not become prepared food due to the retailer having utensils available. However, if the retailer provides utensils for the item as in SUTB 32-3B.2.a, then the item is considered prepared food. Serving sizes are determined based on the label on the item. If no label is available, the retailer will reasonably determine the number of servings in an item.

3. Manufacturer Utensils

If a retailer sells food items that have a utensil placed in a package by a person other than the retailer, and that person's North American Industry Classification System (NAICS) classification code is that of a manufacturer, the retailer is not considered to have provided the utensil except as provided in SUTB 32-3B.2. (*Example: ready-to-eat lunches or snacks containing utensils that were placed in the package by the manufacturer*). For any other

packager with any other NAICS classification code, the retailer is considered to have provided the utensil.

C. Artisan Bakeries

1. Definitions

a. **“Artisan bakery”** – A bakery that meets both of the following requirements:

- 1) It derives over 80% of its gross receipts from bakery items. A bakery item includes bread, rolls, buns, biscuits, bagels, croissants, pastries, donuts, danishes, cakes, tortes, pies, tarts, muffins, bars, cookies, and tortillas.
- 2) Its annual gross receipts, combined with the gross receipts of all related persons do not exceed one million eight hundred thousand dollars (\$1,800,000). For purposes of this definition the term “related person” means a person described in one of the relationships set forth in Sections 267(b) or 707(b) of the Internal Revenue Code.

b. **“Bakery item”** – Bread, rolls, buns, biscuits, bagels, croissants, pastries, donuts, danishes, cakes, tortes, pies, tarts, muffins, bars, cookies, and tortillas.

2. Bakery Items Sold Without Eating Utensils by an Artisan Bakery

Bakery items sold without eating utensils by an artisan bakery are subject to the 2% food rate of sales and use tax for qualifying food. For purposes of the exception from prepared food for bakery items sold without eating utensils by an artisan bakery, eating utensils only need to be made available to purchasers in order for a sale of a bakery item to be considered sold with eating utensils and, therefore, subject to the general State, applicable local, and applicable transit rates of sales and use tax. *(Examples of utensils being made available to purchasers include plates, knives, forks, spoons, glasses, cups, napkins, and straws being placed on individual tables, on a common counter area, or in another area where the utensils are accessible to the purchaser without assistance.)*

D. Take and Bake Pizzas

The following specific set of facts pertains to this subsection:

1. The retailer of take and bake pizzas makes the pizzas on-site. They are not pre-made by someone other than the retailer.
2. Pizzas are not heated by the retailer or sold in a heated state.
3. No food is sold on the premises in a heated state.
4. The retailer creates the pizzas by adding sauces, cheeses, and toppings to a selected crust.
5. Only the pizza dough is made on site. The meats, cheese, and sauce are food products prepared and packaged by another business. The meats come pre-sliced and the cheese is shredded in the store.
6. All meats used by the retailer are pre-cooked by someone other than the retailer.

7. The crust used by the retailer does not contain egg or raw animal foods requiring cooking by the consumer as recommended by the Food and Drug Administration.
8. It is not the retailer's practice to provide utensils with the pizza. Utensils are not made available.
9. No customer seating is available.
10. Take and bake pizzas are not ready for immediate consumption as they require additional preparation as instructed by the retailer.
11. The pizzas are sold by size and not sold by weight or volume.
12. The smallest pizza contains 8 servings.
13. For food safety, it is recommended the pizzas be heated to over 140 degrees.
14. The retailer's NAICS classification is not manufacturing in sector 311.
15. Payments under the federal Supplemental Nutrition Assistance Program (SNAP - previously known as food stamps) can be used to purchase the unbaked pizzas.

Take and bake pizzas, as specifically described in this subsection, meet the definition of "prepared food" subject to the general State, applicable local, and applicable transit rates of sales and use tax. The take and bake pizzas are two or more ingredients mixed or combined by the seller for sale as a single item and there is no exclusion in the definition of "prepared food" that would remove these take and bake pizzas from that definition. However, a take and bake pizza that contains raw eggs, fish, meat, or poultry that require cooking by the purchaser as recommended by the Food and Drug Administration to prevent food borne illness would not be considered prepared food according to the statutory definition and such sales would be subject to the 2% food rate of sales and use tax.

32-4 CANDY

Candy is a non-qualifying food subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Rule 327.8 issued by the Streamlined Sales Tax Governing Board advises that the definition of "candy" is not intended to be applied to every type of food sold, as many products, such as meat products, breakfast cereals, potato chips, and canned fruits and vegetables, are not commonly thought of as candy. The information contained in this section is intended to be used when a person is trying to determine if a product that is commonly thought of as candy is in fact candy.

A. Definition

G.S. § 105-164.3 provides the following term and definition:

"Candy" – A preparation of sugar, honey, or other natural or artificial sweeteners in combination with chocolate, fruits, nuts, or other ingredients or flavorings in the form of bars, drops, or pieces that do not require refrigeration. The term does not include any preparation that contains flour.

B. Preparation

Candy must be a preparation that contains certain ingredients, other than flour. A preparation is a product that is made by means of heating, coloring, molding, or otherwise processing any of the

ingredients listed in the candy definition. (For example, reducing maple syrup into pieces and adding coloring to make maple candy is a form of preparation.)

C. Bars, Drops, or Pieces

Candy must be sold in the form of bars, drops, or pieces.

1. A bar is a product that is sold in the form of a square, oblong, or similar form.

Example: A retailer sells one pound square blocks of chocolate. The blocks of chocolate are bars.

2. A drop is a product that is sold in a round, oval, pear-shaped, or similar form.

Example: A retailer sells chocolate chips in a bag. Each individual chocolate chip contains all of the ingredients indicated on the label. The chocolate chips are drops.

3. A piece is a portion that has the same make-up as the product as a whole. Individual ingredients and loose mixtures of items that make-up the product as a whole are not pieces. Exception: If a loose mixture of different items that make up the product as a whole are all individually considered candy and are sold as one product, that product is also candy.

Examples:

- a. *A retailer sells jellybeans in a bag. Each jellybean is made up of the ingredients indicated on the label. Each jellybean is a piece or drop.*
- b. *A retailer sells trail mix in a bag. The product being sold (e.g., trail mix) is made up of a mixture of carob chips, peanuts, raisins, and sunflower seeds. The individual items that make-up the trail mix are not pieces, but instead are the ingredients, which when combined, make up the trail mix. Therefore, the trail mix is not sold in the form of bars, drops, or pieces.*
- c. *A retailer sells a product called candy lover's mix. Candy lovers mix is a product that is made up of a loose mixture of jellybeans, toffee, and caramels. Individually, the jellybeans, toffee, and caramels are all candy. The sale of the mixture is the sale of candy since all of the individual items that make up the product are individually considered to be candy.*

D. Flour

Flour must be specifically listed on the product label as an ingredient in order for the product to be excluded from the definition of "candy."

Many products commonly thought of as candy contain flour. There is no requirement that the flour be grain based and it does not matter from what the flour is made. Ingredient labels must be examined to determine which products contain flour and which products do not contain flour. (For example, a Twix® bar that contains flour is excluded from the definition of "candy.")

Examples:

1. *The ingredient list for a breakfast bar lists flour as one of the ingredients. This breakfast bar is not candy since it contains flour.*
2. *The ingredient list for a breakfast bar lists peanut flour as one of the ingredients. This breakfast bar is not candy because it contains flour.*

3. *The ingredient list for a breakfast bar that otherwise meets the definition of “candy” lists whole grain as one of the ingredients, but does not specifically list flour as one of the ingredients. This breakfast bar is candy because the word flour is not included in the ingredient list.*
4. *A retailer sells a box of chocolates that are not individually wrapped. The ingredient list on the label for the box of chocolates identifies flour as one of the ingredients. The box of chocolates is not candy since flour is identified as one of the ingredients on the label.*
5. *A retailer sells a box of chocolates that are not individually wrapped. The ingredient list on the label for the box of chocolates, that otherwise meets the definition of “candy,” does not identify flour as one of the ingredients. The box of chocolates is candy.*

E. Other Ingredients or Flavorings

Other ingredients or flavorings as used in the definition of “candy” means other ingredients or flavorings that are similar to chocolate, fruits, or nuts. This phrase includes candy coatings such as carob, vanilla, and yogurt; flavorings or extracts such as vanilla, maple, mint, and almond; seeds; and other products similar to the classes of ingredients or flavorings. This phrase does not include meats, spices, seasonings such as barbeque or cheddar flavor, or herbs that are not similar to the classes of ingredients or flavorings associated with chocolate, fruits, or nuts, unless the product otherwise meets the definition of “candy.”

Examples:

1. *A retailer sells barbeque flavored peanuts. The ingredient label for the barbeque flavored peanuts indicates that the product contains peanuts, sugar, and various other ingredients, including barbeque flavoring. Since the barbecue flavored peanuts contain a combination of sweeteners and nuts, flour is not listed on the label, and the nuts do not require refrigeration, the barbeque flavored peanuts are candy.*
2. *A retailer sells barbeque potato chips. Potato chips are potatoes, a vegetable, and are not commonly thought of as candy. The barbeque potato chips are food and food ingredients and are not candy. The fact that the ingredient label for the barbeque potato chips indicates that the product contains barbeque seasoning, which contains a sweetener, does not change the fact that the barbeque potato chips are not commonly thought of as candy.*

F. Sweeteners

The term “natural or artificial sweeteners” means an ingredient of a food product that adds a sugary sweetness to the taste of the food product and includes, but is not limited to, corn syrup, dextrose, invert sugar, sucrose, fructose, sucralose, saccharin, aspartame, stevia, fruit juice concentrates, molasses, evaporated cane juice, rice syrup, barley malt, honey, maltitol, agave, and artificial sweeteners.

G. Refrigeration

A product that otherwise meets the definition of “candy” is not candy if it requires refrigeration. A product requires refrigeration if it must be refrigerated at the time of sale or after being opened. In order for a product to be treated as requiring refrigeration, the product label must indicate that refrigeration is required. If the label on a product that contains multiple servings indicates that it requires refrigeration, smaller size packages of the same product are also considered to require refrigeration. A product that otherwise meets the definition of “candy” is candy if the product is not required to be refrigerated, but is sold refrigerated for the convenience or preference of the customer, retailer, or manufacturer.

Examples:

1. *A retailer sells sweetened fruit snacks in a bag that contain multiple servings. The label on the bag indicates that after opening, the sweetened fruit snacks must be refrigerated. The sweetened fruit snacks require refrigeration.*
2. *A retailer sells sweetened fruit snacks in single serving containers. Other than for packaging, the sweetened fruit snacks are identical to the sweetened fruit snacks in Example 1 above. However, since this container of sweetened fruit snacks only contains one serving, it is presumed that it will be used immediately, and the label does not indicate the product must be refrigerated after the container is opened. Even though the label does not contain the statement that after opening the sweetened fruit snacks must be refrigerated, these sweetened fruit snacks are considered to require refrigeration since the multiple serving bag of the same sweetened fruit snacks require refrigeration.*
3. *A retailer sells chocolate truffles. The label on the truffles indicates to keep the product cool and dry, but does not indicate that the product must be refrigerated. Since the chocolate truffles are not required to be refrigerated, even though the label indicates to keep them cool, the chocolate truffles do not require refrigeration.*

14. Tangible personal property, including food and prepared food, purchased for resale.
15. Tangible personal property purchased with a client assistance debit card issued for disaster assistance relief by a State agency or a federal agency or qualifying instrumentalities.
16. Food and prepared food to be provided to a person entitled to the food and prepared food under a taxable prepaid meal plan. This exemption applies to packaging including wrapping paper, labels, plastic bags, cartons, packages and containers, paper cups, napkins and drinking straws, and like articles that meet all of the following requirements:
 - a. Use for packaging, shipment, or delivery of the food and prepared food.
 - b. Constitute a part of the sale of the food and prepared food.
 - c. Delivered with the food and prepared food.

B. Use of Certificate of Exemption by Schools, Institutions, and Organizations Making Exempt Sales

Schools, institutions, and organizations making exempt sales in accordance with SUTBs 32-7A.5 and 32-7A.6 above are not required to register with the Department and unless otherwise required to register by reason of making other sales or purchases subject to sales or use tax, cannot furnish **Form E-595E, Streamlined Sales and Use Tax Certificate of Exemption**, to their suppliers. When making purchases of food to be sold, such nonregistered schools, institutions, and organizations are required to furnish their suppliers with written documentation stating the food purchased is to be sold within the school building, and the suppliers are required to enter such information in their records and on the sales invoices. Otherwise, such transactions may be subject to sales and use tax. Schools, institutions, and organizations that are registered with the Department are required to furnish properly executed Certificates of Exemption, or the required data elements, to their suppliers where applicable.

32-8 BUNDLED TRANSACTIONS - FOOD

- A. A "bundled transaction" is defined as a retail sale of two or more distinct and identifiable items, at least one of which is taxable and one of which is nontaxable, for one nonitemized price. Items are not sold for one nonitemized price if an invoice or another sales document made available to the purchaser separately identifies the price of each item. A bundled transaction does not include the retail sale of any of the following:
 1. An item and any packaging that accompanies the item and is exempt from sales and use tax under G.S. § 105-164.13(23).
 2. A sale of two or more items whose combined price varies, or is negotiable, depending on the items the purchaser selects.
 3. A sale of an item accompanied by a transfer of another item with no additional consideration.
 4. An item and the delivery or installation of the item.
 5. An item and any service necessary to complete the sale.
- B. The applicable rate of sales and use tax imposed on a bundled transaction that only includes tangible personal property and contains food that is exempt from State sales and use tax depends

on the percentage of food included in the bundle. For a bundled transaction that only includes tangible personal property and consists of 50% or more of food that is exempt from State sales and use tax, the total charge for the bundle is subject to the 2% food rate of sales and use tax. For a bundled transaction that only includes tangible personal property and consists of less than 50% food that is exempt from State sales and use tax, the total charge for the bundle is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

In determining the percentage of items included in a bundle, a retailer may use either the purchase price of the items included in the bundle or the sales price of the items when sold separately. A retailer cannot use a combination of the purchase price and sales price of the items to make this determination.

Tax applies to the sales price of a bundled transaction including food as provided in this section, unless otherwise provided in this SUTB.

Examples:

1. *A gift basket containing meats, cheeses, and a carving board sells for \$50. The sales price of the meats and cheeses is \$45 when sold separately and the sales price of the carving board is \$15 when sold separately. Since the sales price of the food (meats and cheeses) that is exempt from State sales and use tax when sold separately is more than 50% of the sales price of the bundle, the total sales price of the bundle is subject to the 2% food rate of sales and use tax.*
2. *A retailer sells a package that contains 100 total pieces of food. There are 10 different types of food in the package. Eight of the types of food included in the package meet the definition of "candy," while two types of food included do not meet the definition of "candy." It is a reasonable presumption that 20 (2/10 times 100) of the pieces are not candy and 80 (8/10 times 100) of the pieces are candy. Therefore, since 80% of the package is candy, the retailer shall tax the entire package as a bundled transaction containing primarily candy subject to the general State, applicable local, and applicable transit rates of sales and use tax.*
3. *A retailer sells bulk food by the pound. Each type of food is in a separate bin or container. Some of the food is candy and some of it is not candy because it contains flour. However, regardless of the type of food chosen, the retailer charges the customer \$3.49/lb. A customer selects some types of food that are candy and some that are not candy and puts them in a bag. Since some of the food in the bag is candy, the retailer shall treat the entire package as a bundled transaction containing primarily candy subject to the general State, applicable local, and applicable transit rates of sales and use tax, unless the retailer determines that 50% or less of the food in the bag is candy. In such case, the total sales price for the bundle is subject to the 2% food rate of sales and use tax.*

C. Tuition, Room, and Meals - Bundled Transaction

Where a retailer includes the gross receipts from meals in a bundled transaction, the retailer may display a statement indicating the gross receipts include the sales and use tax on the allocated price of the meals. The retailer is encouraged to include such statement in its marketing material and on any invoice or billing issued.

For a bundled transaction that includes tuition, room, and meals offered by an institution of higher education, tax applies to the allocated price of the meals. The institution must determine the allocated price for meals based on a reasonable allocation of revenue that is supported by the institution's business records kept in the ordinary course of business.

D. Prepaid Meal Plan – Bundled Transaction

For information on a bundled transaction that includes a prepaid meal plan and a dollar value that declines with use, refer to SUTB 32-10.

32-9 CATERERS

Catering is the retail sale of food, prepared food, beverages, and other tangible personal property or services at a location designated by the customer or another person. A location may include the caterer's banquet facility, a hotel, a restaurant, the customer's home, or any other location. All charges by a caterer, including personal chefs who provide and prepare meals, that are connected with the furnishing, preparing, or serving of food or drink are part of the sales price subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Services, such as bartending or carving, when such services are connected with the sale of catered food or drink, are part of the sales price subject to sales and use tax even if the charges for the services are separately stated on the invoice or similar billing document. Separately stated bartending charges when the only beverages being served by the bartenders are owned or provided by the customer are nontaxable and not part of the sales price of a taxable sale, regardless if the services are provided concurrently with the taxable sale of catered food.

Charges for a venue by a caterer, when such venue is necessary for the customer to receive the catered food or drink, are charges that are connected with the furnishing, preparing, and serving of food or drink and are part of the sales price subject to sales and use tax even if the charges are separately stated on the invoice or similar billing document.

If a caterer performs other nontaxable services that are not part of the sales price of catered food or drink and are not connected with the furnishing, preparing, or serving of the food or drink, the charges for those services rendered are not subject to sales and use tax, provided such charges are separately stated on the invoice or similar billing document given to the customer at the time of the sale and in the vendor's records. If the nontaxable services are not separately stated on the invoice or similar billing document given to the purchaser at the time of sale the total sales price is subject to sales and use tax.

32-10 PREPAID MEAL PLAN

A. Definition

G.S. § 105-164.3 provides the following term and definition:

“Prepaid meal plan” – A plan offered by an institution of higher education that meets all of the following requirements:

1. Entitles a person to food or prepared food.
2. Must be billed or paid for in advance.
3. Provides for predetermined units or unlimited access to food or prepared food but does not include a dollar value that declines with use.

B. Basis of Reporting

A retailer who derives gross receipts from a prepaid meal plan is required to report gross receipts on an accrual basis of accounting for purposes of reporting and remitting sales and use tax, notwithstanding that the retailer may report tax on the cash basis for other sales at retail and notwithstanding that the revenue has not been recognized for accounting purposes.

C. Reporting Options

A retailer whose gross receipts are derived from a prepaid meal plan is offered the following reporting options for remitting sales and use tax to the Department:

When the retailer enters into an agreement with a food service contractor by which the food service contractor agrees to provide food or prepared food under a prepaid meal plan, and the food service contractor with whom the retailer contracts is also a retailer for sales and use tax purposes, the retailer may include in the agreement that the food service contractor is liable for collecting and remitting the sales and use tax due on the gross receipts derived from the prepaid meal plan on behalf of the retailer.

Where such agreement executed between the retailer and the food service contractor indicates the food service contractor is liable for the sales and use tax on prepaid meal plans, the food service contractor is liable for any underpayment of sales and use tax, provided the retailer has not misrepresented the sales price of the prepaid meal plan to the food service contractor. The agreement must provide that sales and use tax applies to the allocated sales price of the prepaid meal plan paid by or on behalf of the person entitled to the food or prepaid food under the plan and not the amount charged by the food service contractor to the retailer under the agreement for the food and prepared food for the person.

A retailer who elects this option must report to the food service contractor, with whom it has an agreement, the gross receipts a person pays to the retailer for a prepaid meal plan. The retailer must report the gross receipts on an accrual basis of accounting. The retailer must send the food service contractor the sales and use tax due on the gross receipts derived from a prepaid meal plan. Sales and use tax payments received by a food service contractor from a retailer are held in trust by the food service contractor for remittance to the Department. A food service contractor that receives a sales and use tax payment from a retailer must remit the amount received to the Department. A food service contractor is not liable for sales and use tax due but not received from a retailer. A retailer that does not send the food service contractor the sales and use tax due on the gross receipts derived from a prepaid meal plan is liable for the amount of sales and use tax the retailer fails to send to the food service contractor.

Where the agreement between the retailer and food service contractor provides that the food service contractor is liable for collecting and remitting the sales and use tax due on the gross receipts from prepaid meal plans, such sales and use tax is to be reported by the food service contractor along with any other sales and use tax liability of the food service contractor. In such instance, the food service contractor should maintain records that clearly document any sales and use tax remitted on the gross receipts from prepaid meal plans on behalf of the retailer.

D. Sourcing – Prepaid Meal Plan

The gross receipts derived from a prepaid meal plan are sourced to the location where the food or prepared food is available to be consumed by the person.

E. Bundled Transactions – Prepaid Meal Plans

Where a retailer includes the gross receipts derived from prepaid meal plans in a bundled transaction, the retailer may display a statement indicating the gross receipts include the sales and use tax on the allocated price of the meals. The retailer is encouraged to include such statement in its marketing material and on any invoice or similar billing document issued for the gross receipts derived from a prepaid meal plan.

For a bundled transaction that includes a prepaid meal plan and a dollar value that declines with use, sales and use tax applies to the following:

1. The allocated price of the prepaid meal plan.

2. Items purchased with the dollar value that declines with use as the dollar value is presented for payment.

F. Exemption Related to a Prepaid Meal Plan

Food and prepared food provided to a person entitled to the food and prepared food under a taxable prepaid meal plan are exempt from sales and use tax. This exemption applies to packaging including wrapping paper, labels, plastic bags, cartons, packages and containers, paper cups, napkins and drinking straws, and like articles that meet all of the following requirements:

1. Used for packaging, shipment, or delivery of the food and prepared food.
2. Constitute a part of the sale of the food and prepared food.
3. Delivered with the food and prepared food.

32-11 FOOD AT SUMMER CAMPS

A. Cafeterias, Restaurants, or Snack Stands

Camps that operate cafeterias, restaurants, snack stands, or other similar places where they make sales of food, prepared food, and other tangible personal property to students or other users or consumers shall register with the Department and collect and remit the applicable rates of sales and use tax on the sale of such property.

B. Food Provided as Part of the Operation of the Camp

Camps that make a weekly or monthly charge to persons who are enrolled in the courses or activities offered by camps are not liable for collecting sales and use tax on such charges even if the charges include food and prepared food provided to persons during time spent at the camp.

Sales to such camps of food and prepared food for use in providing meals to campers as part of the operation of the camp and its programs are subject to the applicable rates of sales and use tax at the time of purchase by the camps.

32-15 ADDITIONAL MEALS FOR BED AND BREAKFAST GUESTS

32-16 ITEMS GIVEN AWAY BY RETAILERS

When a retailer, engaged in the business of selling prepared food or drink for immediate or on-premises consumption, also gives prepared food or drink to its patrons or employees free of charge (e.g. employee meals), the food or drink given away is considered sold along with the food or drink sold. The retailer is not liable for use tax on the purchase price of the prepared food or drink given away free of charge.

If a retailer gives an item of inventory to a customer free of charge on the condition that the customer purchase a similar or related item, the item given away is considered sold along with the item sold. The retailer is not liable for use tax on the purchase price of the item given away free of charge.

In all other cases, items given away or used by any retailer or wholesale merchant are not considered sold, whether or not the retailer or wholesale merchant recovers its cost of the items from sales of other items. The retailer or wholesale merchant is liable for use tax on the purchase price of the items given away or used.

32-17 FOOD SERVICE SUPPLIES

A. Taxable Purchases

Purchases of plastic or cloth place mats; cork, plastic or china coasters; china; silverware; cloth napkins; tablecloths; or other reusable items by restaurants, cafes, cafeterias, and other similar places of business for use in serving meals are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Purchases of brooms, mops, soaps, and other supplies and equipment by such businesses are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Purchases of patty paper and paper containers by such businesses for use in storing food are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

B. Exempt Purchases

Paper doilies, paper place mats, paper coasters, paper cups, paper napkins, drinking straws, and similar disposable items, that become a part of the sale or service of food and are used by customers in consuming their meals, are exempt from sales and use tax when sold to restaurants, cafes, cafeterias, school lunchrooms, and other similar places of business selling and serving prepared food and meals. Items included in this subsection are purchases for resale provided the items become a part of the sale or service of food and are used by customers in consuming their meals.

32-18 SERVICE CHARGE OR GRATUITY IMPOSED ON FOOD, BEVERAGES, OR PREPARED FOOD

A. When a service charge is imposed on food, beverages, or prepared food, so much of the service charge that does not exceed 20% of the sales price is considered a tip and is exempt from sales and use tax if it meets both of the following conditions:

1. It is separately stated in the price list, menu, or written proposal and also on the invoice or similar billing document.
2. It is turned over to the personnel directly involved in the service of the food, beverages, or prepared food, in accordance with G.S. § 95-25.6.

B. The exemption does not apply to service charges when any portion thereof is distributed to chefs, bartenders, bus boys, hosts, maître d's, valets, coat checkers, managers, and supervisors notwithstanding such groups may occasionally serve food, prepared food, or drinks directly to customers. If any part of the 20% gratuity is shared with personnel not directly involved in the

service of food, beverages, or prepared food, the entire 20% gratuity is a part of the sales price on which sales and use tax is to be computed.

- C.** Where a service charge or gratuity is in excess of 20% of the sales price and 20% of such a charge is given to the personnel directly involved in the service of the food, beverages, or prepared food, the 20% given to food service personnel is exempt from sales and use tax when the other conditions of the statutory exemption are met and the amount of the service charge or gratuity in excess of 20% is taxable as part of the sales price. If persons other than those directly involved in the service of food share in the 20% service charge or gratuity, the total service charge or gratuity is taxable as part of the sales price.

SUTB 36 GOVERNMENT - FEDERAL**36-1 SALES BY AND SALES TO THE UNITED STATES GOVERNMENT, OR ANY QUALIFYING AGENCIES OR INSTRUMENTALITIES THEREOF****A. Exemptions**

Sales which a state would be without power to tax under the limitations of the Constitution or laws of the United States or under the Constitution of this State are exempt from sales and use tax. Sales by and directly to the United States Government, or any qualifying agency or instrumentality thereof, are exempt from sales and use tax. Generally, in order for the sale to be exempt from sales and use tax, the United States Government, or qualifying agency or instrumentality thereof must purchase the items directly from a retailer and make payment directly to the retailer with its own funds.

Sales made to Army, Navy, and Air Force Activities Funds, post exchanges, officers' mess funds, noncommissioned officers funds and other voluntary unincorporated organizations of Army, Navy, Marine Corps, Air Force, or Coast Guard personnel authorized by regulations issued by the Departments of Defense, Army, Navy, or Air Force are likewise exempt from sales and use tax.

The United States Government, or a qualifying agency or instrumentality thereof must furnish retailers with (1) a properly completed **Form E-595E, Streamlined Sales and Use Tax Certificate of Exemption**, (2) purchase requisitions or affidavits signed by a purchasing officer stating that such sales are being made directly to the United States Government or an agency or instrumentality thereof, or (3) applicable credit cards issued by the United States Government to make a purchase exempt from sales and use tax.

A retailer that makes sales directly to the United States Government, or a qualifying agency or instrumentality thereof must retain copies of any Certificates of Exemption, purchase requisitions or affidavits, or other information provided to substantiate the exemption from sales and use tax. Copies of the documentation must be available for inspection by the Secretary or the Secretary's agents, upon request.

B. United States Government Agencies and Qualifying Instrumentalities

Qualifying United States Government agencies and instrumentalities include the Departments of Defense, Army, Navy, Air Force, United States hospitals, American Red Cross, Federal Reserve Banks, federal land banks, federal housing projects, federal housing authorities, United States Postal Service, and other federal instrumentalities that are immune from sales and use tax under federal law.

C. United States Government Credit Card Program

The United States Government implemented a credit card program called "GSA SmartPay." All cards issued under the program have unique prefixes and account numbers, government-designed artwork, and wording that denote the card is for use by the United States of America. Under the program, credit cards may be individually billed or centrally billed. The 6th digit of the account numbering structure will denote how it is billed. Individually billed charges are billed to and paid by the federal employee who is then reimbursed by the Federal Government. These charges are subject to the applicable rate(s) of sales and use tax. Centrally billed charges are billed directly to and paid directly by the Federal Government and are exempt from sales and use tax.

Refer to "BUSINESS & VENDORS" at <https://smartpay.gsa.gov/> for more detailed information regarding the GSA SmartPay Program.

36-2 BUSINESSES IN FEDERAL AREAS

The fact that a business is located in a federal area does not exempt the business from liability for collecting and remitting sales tax. Title 4 of the U.S. Code, Section 105, provides that a state that levies sales and use taxes shall have full jurisdiction and the power to levy and collect sales and use taxes in any federal area within such state to the same extent and with the same effect as though such area was not a federal area with certain exemptions provided in Title 4, U.S. Code, Section 107, for sales by the United States Government or its qualifying instrumentalities.

36-3 CONTRACTORS FOR THE FEDERAL GOVERNMENT

A. Contracts without FAR provisions

Generally, sales of items to contractors for use in performing contracts with the United States Government or its agencies or instrumentalities are subject to the general State, applicable local, and applicable transit rates of sales and use tax. The Federal Government is entitled to an annual refund of the general State, applicable local, and applicable transit rates of sales and use tax paid by its contractors on purchases of building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure that is owned or leased by the governmental entity and is being erected, altered or repaired for use by the governmental entity. A request for refund must be submitted on **Form E-585, Nonprofit and Governmental Entity Claim for Refund State, County, and Transit Sales and Use Taxes.**

Note: For information on refunds to the Federal Government, refer to SUTB 74-4.

B. Contracts with FAR provisions

In *General Dynamics Armament and Technical Products, Inc. v. N.C. Department of Revenue*, 09 Rev 05695, (2011), the Final Agency Decision held that there is an exception to the general rule that sales of tangible personal property to contractors for use in performing contracts with the United States Government or its agencies or instrumentalities are subject to the applicable State, applicable local, and applicable transit rates of sales and use tax. All contracts between the contractor and the Federal Government contained title-passage provisions of the Federal Acquisition Regulations ("FAR") which provided that title to the tangible personal property purchased by the contractor was transferred to the Federal Government upon the terms specified in the provisions. At the time it purchased tangible personal property subject to the FAR title-transfer provisions, the contractor was contractually obligated to resell the tangible personal property to the Federal Government. Title to direct-charge property was transferred when it was charged to a particular contract, while title to indirect-charge property was transferred when overhead costs were allocated by the contractor to its various contracts. The purchase of tangible personal property by the contractor and the transfer of title to the Federal Government on a regular, recurring, and routine basis pursuant to a contract containing the title passage provisions of FAR was a sale for resale in the regular course of business which rebutted the presumption that use tax was due on the items used in performing the contract.

36-4 DIPLOMATIC TAX EXEMPTION PROGRAM

- A. The Diplomatic Tax Exemption Program is administered by the Office of Foreign Missions (OFM). This program provides sales and use tax exemptions to certain official personnel from foreign countries who are stationed in the United States while working as diplomats, consular officers, or staff members at foreign embassies and consulates, and other organizations such as the United Nations. Not all foreign missions and their personnel are entitled to tax exemption, because this privilege is based on the principle of reciprocity and not all foreign countries grant such tax exemption to American Embassies and personnel.
- B. A foreign official who is entitled to tax exemption is issued a tax exemption card by OFM. For identification purposes, the individual's name, photograph, mission employed by, expiration date,

and protocol identification number are provided on the card. Tax exemption cards are labeled one of two ways: Personal Tax Exemption and Mission Tax Exemption – Official Purchases Only. Each type of card will have one of two different levels of sales and use tax exemption. The level and type of exemption are designed to match the levels of exemption encountered by American Embassies in foreign countries. An exemption card can generally be used to obtain an exemption if eligible, in person and at the point-of-sale from sales tax imposed on purchases.

An exemption card cannot be used to obtain exemption from taxes imposed on purchases of motor vehicles, gasoline/diesel fuel, utility services, airline tickets, or cruises.

- C. OFM currently issues exemption cards that use animal images to visually convey to retailers the level of exemption a cardholder is authorized to receive. The images are: an owl, a buffalo, an eagle, and a deer. The animal images provide the following information:
- a. **Owl:** mission card with unrestricted tax exemption.
 - b. **Buffalo:** mission card with restricted tax exemption.
 - c. **Eagle:** personal card with unrestricted tax exemption.
 - d. **Deer:** personal card with restricted tax exemption.

An image of a bird (owl or eagle) on an exemption card means the exemption is unrestricted. An image of a land animal (buffalo or deer) on an exemption card means the exemption is restricted in some manner and the text of the exemption card must be read to determine the restrictions placed on the exemption card.

In addition to text and animal images providing exemption information, an exemption card has the following security features:

- a. Laser engraved personalized data.
 - b. Optically variable device (holographic kinegram).
 - c. Tactile micro-text (small raised text).
1. The exemption card labeled Personal Tax Exemption is for use by eligible foreign mission members and their dependents, who are not U.S. nationals or permanently resident in the United States for purposes of the Vienna Convention on Diplomatic Relations (VCDR) and Vienna Convention on Consular Relations (VCCR), to obtain exemption from sales and use tax on personal purchases. The personal tax exemption card must be presented in person to the retailer at the time of the purchase. A telephone or internet sale is not allowed since such transaction does not allow for the presentation of the personal tax exemption card to the retailer. The personal tax exemption card is for use solely by the person identified and pictured on the card, is not transferrable, and cannot be loaned to any other person, even if that person is also eligible for tax exemption. Any form of payment is allowed for a purchase made with a personal tax exemption card.
 2. The card labeled Mission Tax Exemption – Official Purchases Only is used for official purchases of a foreign consulate or embassy. The mission card bears the photograph and identification of a consulate, embassy, or international organization employee who has been allowed official purchasing privileges for that office. A mission exemption card is for use by a foreign mission to obtain exemption from sales and use tax on purchases that are necessary for the mission's operations and functions. For example, the purchasing agent might use the card to buy office supplies or to book twenty hotel rooms for a visiting official delegation from that foreign country, provided the reservation is in the name of the mission and the bill is paid for by a mission check or credit card.

OFM will only issue a mission tax exemption card to an individual who:

- a. Is a principal member or employee of the mission.

- b. Holds an A or G series visa (and in the case of a G series visa, is a diplomatic agent.)
- c. Is not considered to be permanently resident in the United States for purposes of the VCDR and the VCCR.

This cardholder's photo will appear on the mission tax exemption card and is the mission's point of contact. This person need not be present when purchases are made in the name of the mission. However, the mission tax exemption card must be presented to the retailer at the time of purchase. Since purchases made by telephone, internet, mobile phone application, or another similar method do not allow the purchaser to present the exemption card to the retailer, the exemption card cannot be honored in such transactions. Additionally, payment for purchases by the foreign mission must be made with a mission check, a mission credit card, or a wire transfer transaction in the name of the mission in order to purchase items for the mission without payment of sales or use tax. Mission purchases cannot be paid with cash, personal checks, or personal credit cards. The mission tax exemption card is not transferable, and is not to be used for personal purchases. (There are instances where a mission tax exemption cardholder would not have access to a personal tax exemption card.)

Note: For additional information regarding OFM's diplomatic tax exemption program, refer to www.state.gov/ofm/tax.

- D. The cardholder should be allowed an exemption from tax to the extent noted on the card. A retailer that accepts a purchaser's exemption card must retain a copy of the front and back of the exemption card and a copy of the receipt for the tax-exempt transaction as documentation to support the exemption. If unable to make a copy of the exemption card, the retailer should retain in the retailer's records the name of the mission or office, the name of the individual pictured on the exemption card, whether the card is to be used for official purchases or personal purchases, any restrictions listed on the exemption card, the date of sale, exemption card number, and the expiration date of the exemption card.

A seller should not accept an exemption card if:

1. The amount of the purchase is less than any minimum amount required by the card.
2. The card has expired.
3. The individual identified on a personal tax exemption card is not the purchaser.
4. The foreign mission purchase is being made with payment other than a mission check, a mission credit card, or a wire transfer in the name of the mission.

OFM has instituted a system to provide on-line verification of the validity of OFM issued exemption cards at <https://ofmapps.state.gov/tecv/>.

51-2 FOREIGN COMMERCE SALES AND USE TAX EXEMPTION

Tangible personal property purchased solely for the purpose of export to a foreign country for exclusive use or consumption in that foreign country and which purpose is consummated is exempt from sales and use tax if the transaction is supported by a **Form E-599C, Purchaser's Affidavit of Export**, and such property is exported within 90 days of purchase. This exemption from sales and use tax applies only when the tangible personal property is purchased for export to a foreign country for exclusive use or consumption in that or some other foreign country, either in the direct performance or rendition of professional or commercial services, or in the direct conduct or operation of a trade or business, all of which purchases are actually consummated, or purchased by the government of a foreign county for export which purpose is actually consummated. Sales of tangible personal property or certain digital property that are not a sale in interstate commerce to registered nonresident retail or wholesale merchants for resale are exempt from sales and use tax, if all of the following conditions are met:

1. The wholesale merchant that sells tangible personal property or certain digital property for resale delivers to the nonresident retail or wholesale merchant a bill of sale for each sale of merchandise whether sold for cash or on credit, itemizing the various articles of tangible personal property or certain digital property included in the sale, and makes and retains a duplicate of each bill of sale, and keeps a file of all duplicate bills of sale.
2. The character of the tangible personal property or certain digital property is similar to items the nonresident retail or wholesale merchant ordinarily and customarily purchases as a part of its stock for resale.

3. The nonresident retail or wholesale merchant is registered for sales and use tax purposes in a taxing jurisdiction outside this State and furnishes to the wholesale merchant a properly completed Certificate of Exemption, certifying that they are a nonresident retail or wholesale merchant, and further certifying that the tangible personal property or certain digital property is purchased for the purpose of resale in accordance and compliance with the laws of the jurisdiction in which the nonresident retail or wholesale merchant resides or does business. The Certificate of Exemption containing the nonresident retail or wholesale merchant's identification number assigned by the jurisdiction in which the nonresident retail or wholesale merchant resides or does business is deemed sufficient evidence that the nonresident retail or wholesale merchant is duly registered in a taxing jurisdiction outside this State. If the sale is made over the Internet or by other remote means, the wholesale merchant may obtain the required data elements as provided in SUTB 5 in lieu of a Certificate of Exemption.

This exemption shall apply only to sales of tangible personal property or certain digital property to nonresident retail or wholesale merchants for resale who comply strictly with these terms and conditions, and do not apply to any sales of tangible personal property or certain digital property to users or consumers not for resale irrespective of the price, quantity, or any other circumstances or conditions pertaining to such sale. Failure to comply with the provisions of this requirement subjects the nonresident retail or wholesale merchant to liability for the applicable rates of sales and use tax upon all taxable sales that do not conform to this section.

Interstate carriers must report and pay use tax directly to the Department on purchases from retailers who did not charge the applicable North Carolina sales and use tax due. The fact that interstate carriers may be eligible for a refund of sales and use tax paid does not relieve them of liability for remitting sales or use tax on taxable purchases of railway cars and locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or aircraft the carrier operates.

If, however, the original lease does not contain provisions for extension at the option of the lessee, whether by action or inaction, but a new lease agreement is subsequently entered into granting an extension or a new lease, there would be a second lease that would be subject to the maximum tax without consideration for taxes paid under the original lease.

If the lessor maintains the lessee's books for the lessee and makes collections on account of the lessee's sales, the lessor may, as agent for the lessee, file the required separate returns for each lessee and pay to the Department the sales and use taxes due. However, the lessee shall not be relieved of his tax liability if the lessor fails to file the proper returns with the Department or fails to remit to the Department all sales and use taxes due by the lessee.

54-15 CONDITIONAL SALES CONTRACT

Lease agreements with option to purchase may contain some provisions that make the instrument a conditional sales contract even though denominated a lease with option to purchase. Such instruments may contain any one of the following provisions:

1. The risk of the property during the term of the lease is that of the lessee.
2. The lessee is to maintain, restore, or replace the property if damaged or destroyed during the term of the lease.

When a lease or rental agreement requires recurring periodic payments, the payments are sourced as follows:

1. For leased or rented tangible personal property, the first payment is sourced in accordance with the general sourcing principles set out in SUTB 4 and each subsequent payment is sourced to the primary location of the leased or rented property for the period covered by the payment. The term "primary location" means an address for the property that is provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. This principle applies to all property except a motor vehicle, an aircraft, transportation equipment, and a utility company railway car.
2. For leased or rented property that is a motor vehicle or an aircraft but is not transportation equipment, all payments are sourced to the primary location of the leased or rented property for the period covered by the payment.

A person engaged in the commercial logging business that is already registered to remit sales and use tax should use the previously assigned sales and use tax account identification number to make purchases exempt from sales and use tax. Refer to SUTB 5 for information regarding purchasing items exempt from sales and use tax.

SUTB 56 MANUFACTURED HOMES AND MODULAR HOMES**56-1 MANUFACTURED HOMES****A. Definition**

G.S. § 105-164.3 provides the following term and definition:

“Manufactured home” – A structure that is designed to be used as a dwelling and is manufactured in accordance with the specifications for manufactured homes issued by the United States Department of Housing and Urban Development.

B. Tax Imposed

1. Fifty percent of the sales price of each manufactured home sold at retail is subject to the general 4.75% State rate of sales and use tax, including all accessories attached to the manufactured home when it is delivered to the purchaser. A manufactured home sold at retail is not subject to any local or transit rates of sales and use tax.

The retail sale of a manufactured home occurs on the date title or possession of the manufactured home passes to the purchaser, typically the delivery date. The date a retail sales invoice, bill of sale, or similar document is signed for the sale or purchase of a manufactured home does not determine the rate of State sales or use tax applicable to the sale or purchase where such date is different from the date of transfer of title or possession.

2. A person that withdraws a manufactured home from inventory held for sale to fulfill a real property contract is a consumer and is liable for paying the applicable rates of sales and use tax, and any other applicable tax, on the purchase price of the items used to fulfill such real property contract, regardless of whether the land is purchased or rented.

Note: For information on real property contracts, refer to SUTB 72

C. Items Included in the Sales Price of a Manufactured Home

1. Any furniture, appliances, or accessories placed in or attached to a manufactured home by the manufacturer or the retailer are part of the sales price of the manufactured home when the manufactured home is delivered to a purchaser.
2. Charges by the retailer for anchor bolts, tie-downs, skirting, prefabricated steps, and central or window air-conditioning units that are to be attached to a manufactured home at the time of transfer of title or possession to a customer or at the time of installation of a manufactured home, are part of the sales price of the manufactured home regardless of whether the charges are separately stated on the invoice or similar billing document given to the purchaser at the time of sale.
3. Permit charges imposed on the retailer to deliver a manufactured home are part of the sales price of the manufactured home, regardless of whether the charges are separately stated on the invoice or similar billing document given to the purchaser at the time of sale.
4. Any charge made by a retailer to a customer for running gear upon which a manufactured home is delivered is part of the sales price of the manufactured home, regardless of whether the charge is separately stated on the invoice or similar billing document given to the purchaser at the time of sale. The return of running gear to a dealer for credit or refund of such charge does not alter the rate of sales and use tax applicable to the sale and the purchaser is not entitled to a credit or refund of the sales and use tax paid on the charge for the running gear returned to the dealer.

5. Other charges by a retailer necessary to complete the retail sale of a manufactured home are part of the sales price of the manufactured home.

D. Items Sold Separate from Manufactured Homes

The sales price of furniture, appliances, or other items sold at retail to a purchaser after the sale of a manufactured home has been consummated is subject to the applicable rates of sales and use tax.

E. Purchases by Dealers and Consumers of Tangible Personal Property Used in the Installation of Manufactured Homes

Cement blocks that are used to prepare or build the foundation for or to level a manufactured home, the sewer pipe used to connect a manufactured home to the septic or sewer system, and wedges used for leveling a manufactured home do not come within the definition of "accessories attached at the time of delivery," therefore, purchases of these items by dealers or other users or consumers in this State to be used in the installation of a manufactured home are subject to the general State, applicable local, and applicable transit rates of sales or use tax.

Note: For information on real property contracts, refer to SUTB 72.

56-2 MODULAR HOMES

A. Definitions

G.S. § 105-164.3 provides the following terms and definitions:

1. **"Modular home"** – A factory-built structure that is designed to be used as a dwelling, is manufactured in accordance with the specifications for modular homes under the North Carolina State Residential Building Code, and bears a seal or label issued by the Department of Insurance pursuant to G.S. § 143-139.1.
2. **"Modular homebuilder"** – A person who furnishes for consideration a modular home to a purchaser that will occupy the modular home. The purchaser can be a person that will lease or rent the unit as real property.

B. Tax Imposed

1. Fifty percent of the sales price of each modular home sold at retail, including all accessories attached to the modular home when it is delivered to the purchaser, is subject to the general 4.75% State rate of sales and use tax. A modular home sold at retail is not subject to any local or transit rates of sales and use tax.

The retail sale of a modular home occurs when a modular home manufacturer sells a modular home to a modular homebuilder (even though the modular home may be used to fulfill a real property contract) or directly to the end user of the modular home. The date a retail sales invoice, bill of sale, or similar document is signed for the sale or purchase of a modular home does not determine the rate of State sales or use tax applicable to the sale or purchase where such date is different from the date of transfer of title or possession.

2. A person that withdraws a modular home from inventory held for sale to fulfill a real property contract is the consumer and is liable for paying the applicable rates of sales and use tax, and any other applicable tax, on the purchase price of any items used to fulfill the real property contract, regardless of whether the land is purchased or rented.

C. Items Included in Sales Price of a Modular Home

1. The sales price of a modular home includes the total amount or consideration for which the modular home is sold including charges for delivery of the property and all accessories attached to the home at the time of delivery.
2. An invoice, bill of sale, or similar document issued by the modular home manufacturer for a sale at retail to a modular homebuilder or end user often contains carrier deposit fees, freight charges, engineering fees, and labeling fees imposed by the North Carolina Department of Insurance. All such fees and charges constitute a part of the sales price of the modular home sold at retail when title or possession of the modular home is transferred in this State, regardless of whether the fees or charges are separately stated on the invoice or similar billing document given to the purchaser at the time of sale.
3. Charges made by modular home manufacturers for deposits on carriers constitute part of the sales price on which sales or use tax is due. A purchaser is not entitled to a refund or credit of sales and use tax paid on the carrier deposit charge when the carrier is returned and a credit or refund is issued by the seller for all or part of the deposit charge.
4. Other charges by the modular home manufacturer or other seller necessary to complete the retail sale of a modular home, including accessories attached to the modular home when it is delivered to a modular homebuilder or end user, are part of the sales price subject to sales and use tax.

D. Administration

A modular homebuilder is not required to collect sales or use tax on charges to the purchaser of a modular home. A modular homebuilder should not indicate on a sales invoice, bill, or similar document issued to a purchaser that sales and use tax is due on the transaction. If a modular homebuilder presents a purchaser with a list of the costs or expenses associated with the sale of the modular home transaction, the amount of sales and use tax paid by the modular homebuilder can be shown as a cost or expense, but such itemization should in no way indicate that the modular homebuilder is charging and collecting sales and use tax on the transaction with the purchaser.

If a modular homebuilder makes a purchase of a modular home from a seller that does not collect the sales or use tax due, the modular homebuilder is liable for use tax on the purchase of the modular home. The modular homebuilder is required to accrue and remit the 4.75% State rate of use tax on 50% of the purchase price of the modular home, including all accessories attached to the modular home at the time of purchase, directly to the Department.

E. Add-Ons to Modular Homes

For information on real property contracts, refer to SUTB 72. For information on repair, maintenance, and installation services to real property, refer to SUTB 75.

F. Modular Home Manufacturers

A modular home manufacturer that primarily fabricates and makes outright sales of modular homes is a manufacturer for sales and use tax purposes. A modular home manufacturer's purchases of ingredient or component parts and materials used to fabricate modular homes are not subject to sales and use tax. Purchases of mill machinery or mill machinery parts or accessories used in a modular home manufacturer's production process, as the term "production" is defined SUTB 57-1, are exempt from sales and use tax.

G. Credit for Modular Home Manufacturers

A person selling a modular home at retail is allowed a credit against the North Carolina sales and use tax due for sales or use tax due and paid to another state on any items incorporated into the modular home.

SUTB 57 MANUFACTURING INDUSTRIES OR PLANTS**57-1 CLASSIFICATION OF ACTIVITIES**

The following classifications are based on the three principal activities of a manufacturing industry or plant and shall be followed by manufacturers purchasing tangible personal property that is used or consumed during the different phases of the operation of an industrial plant:

1. Production as a phase of industrial or manufacturing operations shall mean all steps performed in processing and refining rooms, and in other quarters and departments of a plant, where conditioning, treating, or other operations are done on ingredient materials as an actual routine on the assembly or processing line turning out a finished product of manufacture for sale. It also includes:
 - a. The movement of raw materials or ingredients from an inventory or a stockpile located on the premises of the manufacturing facility to the assembly or processing line.
 - b. The movement of goods in process along the assembly or processing line.
 - c. The movement of manufactured products from the assembly or processing line into shipping or storage areas and yards located on the premises of the manufacturing facility.
 - d. The work of experimentation and research performed on the manufactured products.

Purchases by a manufacturing industry or plant of machinery or parts or accessories for the machinery for use in "production," as defined above, are classified as mill machinery or mill machinery parts or accessories. Purchases by a manufacturing industry or plant of research and development equipment and supplies for quality control or the improvement of its manufactured products or for development of products which it will manufacture are classified as mill machinery or mill machinery parts or accessories. Items that are not classified as mill machinery or mill machinery parts or accessories when purchased by manufacturing industries and plants for use in their research and development areas include such items as desks, calculators, computers used for administrative purposes, and chairs which are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

Production does not include any activity connected with the movement of raw materials or ingredients into inventory nor does it include "distribution" or "administration" as defined in the subsections below. Sales to manufacturing industries and plants of machinery, parts, or accessories for such machinery, and other tangible personal property used in the movement of raw materials or ingredients into inventory or in "distribution" activities, as defined in the subsection below, or which are used for similar purposes are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

2. Distribution with reference to manufacturing industries and plants shall mean any activity connected with the movement of manufactured products within storage warehouses, shipping rooms, and other such finished product storage areas and the removal of such products therefrom for sale or shipment. Sales of distribution equipment to manufacturing industries and plants are subject to the general State, applicable local, and applicable transit rates of sales and use tax.
3. Administration with reference to manufacturing industries and plants shall mean and include the administrative work of offices, promotion of sales, and collection of accounts.

Sales of administrative equipment and supplies, such as office equipment, paper, pens, pencils, stamps, paper cutters, printer form, file cabinets, scissors, staplers, desk trays, and other miscellaneous tangible personal property generally sold for office use, furniture, and fixtures are subject to the general State, applicable local, and applicable transit rates of sales and use tax.

G.S. § 105-164.3 provides the following terms and definitions:

1. **"Marketplace"** – A physical or electronic place, forum, platform, application, or other method by which a marketplace seller sells or offers to sell items, the delivery of or first use of which is sourced to this State.
2. **"Marketplace-facilitated sale"** – The sale of an item by a marketplace facilitator on behalf of a marketplace seller that occurs through a marketplace.
3. **"Marketplace facilitator"** – A person that, directly or indirectly and whether through one or more affiliates, does both of the following:
 - a. Lists or otherwise makes available for sale a marketplace seller's items through a marketplace owned or operated by the marketplace facilitator.
 - b. Does one or more of the following:
 - (i) Collects the sales price or purchase price of a marketplace seller's items or otherwise processes payment.
 - (ii) Makes payment processing services available to purchasers for the sale of a marketplace seller's items.
4. **"Marketplace seller"** – A person that sells or offers to sell items through a marketplace regardless of any of the following:
 - a. Whether the person has a physical presence in this State.
 - b. Whether the person is registered as a retailer in this State.
 - c. Whether the person would have been required to collect and remit sales and use tax had the sales not been made through a marketplace.
 - d. Whether the person would not have been required to collect and remit sales and use tax had the sales not been made through a marketplace.

Note: For information on accommodation facilitators, admission facilitators, or service contract facilitators refer to SUTBs 6, 7, and 79, respectively

59-2 LIABILITY FOR COLLECTING AND REMITTING TAX

A marketplace facilitator engaged in business in North Carolina is considered the retailer of each marketplace-facilitated sale it makes and is liable for collecting and remitting the sales and use tax on all such sales. A marketplace facilitator is required to comply with the same requirements and procedures as all other retailers. The remote marketplace facilitator threshold only applies to marketplace facilitators who are not otherwise engaged in business in North Carolina. A marketplace facilitator is required to collect and remit sales tax regardless of whether a marketplace seller for whom it makes a marketplace-facilitated sale meets any of the following conditions:

1. Has a physical presence in this State.
2. Is required to be registered to collect and remit sales and use tax in this State.
3. Would have been required to collect and remit sales and use tax in this State had the sale not been made through a marketplace.
4. Would not have been required to collect and remit sales and use tax in this State had the sale not been made through a marketplace.

If a purchaser receives a refund on any portion of the sales price from a marketplace facilitator who collected and remitted the tax on the retail sale, the provisions of G.S. § 105-164.11A(a) apply.

59-3 MARKETPLACE FACILITATOR REPORTS TO MARKETPLACE SELLERS

A marketplace facilitator must provide or make available to each marketplace seller the gross sales and the number of separate transactions with respect to marketplace-facilitated sales sourced to this State and made on behalf of the marketplace seller. The information may be provided in any format and shall be provided or made available no later than 10 days after the end of each calendar month.

59-4 LIABILITY RELIEF FOR MARKETPLACE FACILITATORS

The Department shall not assess a marketplace facilitator for failure to collect the correct amount of tax due if the marketplace facilitator can demonstrate to the Secretary's satisfaction that all of the circumstances listed below apply:

1. The failure to collect the correct amount of tax was due to incorrect information given to the marketplace facilitator by the marketplace seller.
2. The marketplace facilitator did not receive specific written advice from the Secretary for the transaction at issue.

This section does not apply with regard to a marketplace-facilitated sale for which the marketplace facilitator is the marketplace seller or if the marketplace facilitator and the marketplace seller are affiliates. If a marketplace facilitator is not assessed for tax due under this section, the marketplace seller is liable for the tax due under this section provided the marketplace seller is engaged in business in this State.

59-5 CONSIGNMENT SALES

A consignor that is a marketplace facilitator is liable for collecting and remitting the sales and use tax on marketplace-facilitated sales.

59-6 AUCTIONEERS AND AUCTION SALES

A. Auctioneers and Tag Sale Operators as Marketplace Facilitators

An auctioneer or tag sale operator that is a marketplace facilitator is liable for collecting and remitting the sales and use tax on marketplace-facilitated sales. *Example: The person sells items at the owner's home or farm on behalf of the owner of the items, or the owner's estate, whether by auction or through the pricing of items.*

B. Auctioneer Services

An auctioneer that only calls bids and does not conduct other activities at the event is not a marketplace facilitator and is not required to collect and remit sales and use tax for the event. In this case, the auctioneer does not meet the definition of a marketplace facilitator because the auctioneer does not (i) make payment processing services available to purchasers for the sale of a marketplace seller's items, (ii) collect the sales price of a marketplace seller's items, or (iii) otherwise process payments.

C. Auctions for Going out of Business

1. Marketplace Facilitator Conducted Auction

A marketplace facilitator conducting a going out of business or bankruptcy auction for a customer is liable for collecting and remitting the sales and use tax on marketplace-facilitated sales.

2. Auctions Conducted by a Business that is not a Marketplace Facilitator

If a retail or wholesale business that normally does not conduct auction sales conducts an auction sale, for example, when it is going out of business, it must collect and remit sales and use tax on any retail sales of inventory that it held for resale. Sales of a business's fixtures and operating equipment by the business are not subject to sales and use tax because they are occasional and isolated sales by someone not engaged in the business of selling that type of property.

59-7 GRACE PERIOD FOR CERTAIN MARKETPLACE-FACILITATED SALES

The Department shall take no action to assess a person for any tax due for a filing period beginning on or after February 1, 2020, and ending prior to October 1, 2020, with respect to either of the following circumstances:

1. The person sells tangible personal property on behalf of the owner of the tangible personal property, or the owner's estate, whether by auction or through the pricing of items, and the sale was conducted at the owner's home or farm.
2. The person sells fixtures and equipment held for use in operating a retail or wholesale business on behalf of a business, whether by auction or through the pricing of items, and the sale is conducted at the business location.

This grace period does not apply to (i) a person that received specific written advice from the Secretary for the transactions at issue for the laws in effect for the applicable period, (ii) a person that collected tax and failed to remit it to the Department, or (iii) the retail sale of inventory that was held for resale.

SUTB 60 MISCELLANEOUS TOPICS**60-1 SALES TO EMPLOYEES**

Sales of items by any person to its employees or others for use or consumption are subject to the applicable rates of sales and use tax, unless specifically exempt by statute, notwithstanding that such sales are infrequent or comprise only a small fraction of the person's total business. Every person making such sales must register with the Department and collect and remit the applicable rates of sales and use tax due thereon. Any person that makes sales to its employees only is not relieved of this requirement.

60-2 PUBLIC RELATIONS FIRMS**A. Rendering Professional Services**

If a public relations firm is retained to plan and conduct a public relations program that requires it to conduct research, opinion polls and surveys, compile data, analyze all of the foregoing and present a written, oral, or electronic report of its findings to its client, the charges for these services are not subject to sales and use tax. The public relations firm shall pay the applicable rates of sales and use tax on the purchase price of any item sourced to this State purchased for use in performing the aforementioned services. If the client decides to pursue the plan or concept developed by the public relations firm and such action results in the development or acquisition of a taxable item sourced to this State by the public relations firm for its use in carrying out the goals or objectives of the plan or concept, it is liable for paying the applicable rates of sales and use tax on such purchases.

B. Making Retail Sales

If the plan or concept calls for the production, fabrication, purchase, or acquisition of tangible personal property or certain digital property by the public relations firm that it sells and delivers to its client or sells to its client and delivers to others on behalf of its client, the public relations firm is making retail sales that are subject to sales and use tax on the sales price of such property. Sales and use tax will apply to the sales price of the property and will include fees directly associated with the production of the property and those charges specifically associated with the fabrication, manufacture, or delivery of the property, such as charges for commissions, supervision, research, transportation charges, postage, telephone and electronic messages, copy, models' fees, stage props, printing, printing plates, film, positives, negatives, transparencies, and color separations even though the firm may separately state such charges on the invoice or similar billing document given to the client at the time of sale and in the firm's records.

If the public relations firm performs repair, maintenance, and installation services that it sells to its client, the public relations firm is making a retail sale subject to sales and use tax on the sales price of the service.

The net proceeds from the sales are given to the school by the PTA and are exempt from sales and use tax.

Examples:

- 1. A restaurant which is a for profit organization offers to contribute a percentage of its net proceeds from its sales each Tuesday night to the local high school for its literary activities. Although a percentage of the net proceeds is being given to the high school, the conditions for the sales and use tax exemption under N. C. Gen. Stat. § 105-164.13(26b) are not met. Therefore, the restaurant must collect and remit sales and use tax on its Tuesday night sales just as it does on the other sales it makes during the week.*

SUTB 70 PROPERTY TRANSFERRED BETWEEN DIVISIONS**70-1 PROPERTY TRANSFERRED BETWEEN DIVISIONS**

Firms having divisions, both within and without North Carolina, are liable for remitting sales and use tax on any purchases of tangible personal property or certain digital property for use in North Carolina, including any property purchased outside North Carolina and imported into North Carolina for use in this State. An item received by the purchaser or on behalf of the purchaser in this State is subject to sales and use tax no matter that the item is designated for ultimate use outside this State. No tax is due on transfers of property by an out-of-state firm to its North Carolina divisions for their use if the property was originally purchased for use outside this State by the out-of-state firm and was, in fact, used by that firm outside this State for a substantial period of time.

SUTB 71 RAILROADS**71-1 RAILWAY CARS AND LOCOMOTIVES**

The sales price of a railway car or locomotive sold at retail, including all accessories attached to the railway car or locomotive when it is delivered to the purchaser, is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

71-2 DIESEL FUEL EXEMPTION

Sales of diesel fuel to railroad companies for use in rolling stock other than motor vehicles are exempt from sales and use tax. The definitions in G.S. § 105-333 apply in this section.

71-3 INTERSTATE CARRIERS' LIABILITY FOR TAX ON PURCHASES

Interstate carriers are liable for payment of the applicable rates of sales and use tax on all purchases of items for storage, use, or consumption in this State unless specifically exempt by statute. The tax is to be paid to retailers inside or outside North Carolina who are liable for collecting and remitting the tax to the Department. Interstate carriers must report and pay use tax directly to the Department on purchases from retailers who do not charge the North Carolina sales and use tax. The fact that interstate carriers may be eligible for a refund of tax paid under the provisions of G.S. § 105-164.14(a) does not relieve them of liability for remitting sales or use tax on all taxable purchases of railway cars and locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane the carrier operates.

71-4 REFUNDS WITH RESPECT TO RAILROADS

1. Refer to SUTB 74-1 for refunds to interstate carriers.
2. Refer to SUTB 74-8 for refunds for an eligible railroad intermodal facility.
3. Refer to SUTB 74-2 for refunds for utility companies for railway cars, locomotives, etc.

SUTB 72 REAL PROPERTY CONTRACTS**72-1 REAL PROPERTY CONTRACTS WITH RESPECT TO A CAPITAL IMPROVEMENT TO REAL PROPERTY**

A real property contract is a contract between a real property contractor and another person to perform a capital improvement to real property. A transaction must meet the definition of a "capital improvement" to qualify as a real property contract. A person must substantiate that a transaction is a real property contract as provided in SUTB 72-5.

A capital improvement is one or more of the following:

1. New construction, reconstruction, or remodeling.
2. Performance of work that requires the issuance of a permit under the State Building Code, other than repair or replacement of electrical components, gas logs, water heater, and similar individual items that are not part of new construction, reconstruction, or remodeling.
3. Installation of a transmission, distribution, or other network asset on land owned by a service provider or on a right-of-way or easement in favor of a service provider, notwithstanding that any separately stated charges billed to a customer for repair, maintenance, and installation services or a contribution in aid of construction are included in the gross receipts derived from services subject to the combined general rate under G.S. § 105-164.4. For purposes of this subsection, the term "service provider" means a person, including a governmental entity, who provides any of the services listed in this subsection, and the term "governmental entity" means a State agency, the federal government, or a governmental entity listed in G.S. § 105-164.14(c). The services are:
 - a. Telecommunications service or ancillary service.
 - b. Video programming.
 - c. Electricity or piped natural gas.
 - d. Water or sewer service.
4. Installation of equipment or a fixture that is attached to real property and that meets one or more of the following conditions:
 - a. Is capitalized and depreciated under Generally Accepted Accounting Principles or International Financial Reporting Standards.
 - b. Is depreciated under the Internal Revenue Code.
 - c. Is expensed under Section 179 of the Internal Revenue Code.
5. Painting or wallpapering of real property, except where painting or wallpapering is incidental to the repair, maintenance, and installation services.
6. Replacement or installation of a septic tank system, siding, roof, plumbing, electrical, commercial refrigeration, irrigation, sprinkler, or other similar system. The term does not include the repair, replacement, or installation of electrical or plumbing components, water heaters, gutters, and similar individual items that are not part of new construction, reconstruction, or remodeling.
7. Replacement or installation of a heating or air conditioning unit or a heating, ventilation, or air conditioning system. The term does not include the repair, replacement, or installation of gas logs, water heaters, pool heaters, and similar individual items that are not part of new construction, reconstruction, or remodeling.
8. Replacement or installation of roads, driveways, parking lots, patios, decks, and sidewalks.

9. Services performed to resolve an issue that was part of a real property contract if the services are performed within six months of completion of the real property contract or, for new construction, within twelve (12) months of the new structure being occupied for the first time.
10. Landscaping.
11. An addition or alteration to real property that is permanently affixed or installed to real property and is not an activity listed in the definition of “repair, maintenance, and installation services.”

The term includes a transaction where the internal structure or design of one or more rooms or areas within a room or building are substantially changed. The term does not include a single service that is included in repair, maintenance, and installation services. The term does not include a transaction where the true purpose is repair, maintenance, and installation services no matter that another service included in repair, maintenance, and installation services is performed that is incidental to the true purpose of the transaction; examples include repair of sheetrock that includes applying paint, replacement of cabinets that includes installation of caulk or molding, and the installation of hardwood floors that includes installation of shoe molding.
11. **“Renovation”** – Same meaning as the term remodeling.
12. **“Repair, maintenance, and installation services”** – The term includes the activities listed below and applies to tangible personal property, motor vehicles, certain digital property, and real property. The term does not include a service used to fulfill a real property contract taxed in accordance with G.S. § 105-164.4H.

The term includes floor refinishing and the installation of carpet, flooring, floor coverings, windows, doors, cabinets, countertops, and other installations where the item being installed may replace a similar existing item. The replacement of more than one of a like-kind item, such as replacing one or more windows, is repair, maintenance, and installation services. The term does not include an installation defined and substantiated as a capital improvement under G.S. § 105-164.4H(a1).
 - e. To inspect or monitor property or install, apply, or connect tangible personal property or certain digital property on a motor vehicle or adjust a motor vehicle.
13. **“Retailer-contractor”** – A person that acts as a retailer when it makes a sale at retail and as a real property contractor when it performs a real property contract.

72-3 APPLICABILITY OF REAL PROPERTY CONTRACTS

- A. An invoice or other documentation issued to a person by a real property contractor shall not separately state any amount for tax for a real property contract. Any amount for tax separately stated on an invoice or other documentation given to a person by a real property contractor for a real property contract is an erroneous collection and must be remitted to the Secretary.
- B. A real property contractor is the consumer of the tangible personal property or certain digital property that the real property contractor purchases, installs, or applies for others to fulfill a real property contract and that becomes part of real property or used to fulfill the contract. A retailer engaged in business in the State shall collect tax on the sales price of items sold at retail to a real property contractor unless a statutory exemption applies. Where a real property contractor

purchases an item sourced to this State and the tax due is not paid at the time of purchase, the real property contractor must remit the applicable tax directly to the Department unless otherwise provided in this SUTB.

A real property contractor must maintain records in the ordinary course of business to establish the applicable sales and use tax has been paid on items that the real property contractor purchases, installs, or applies for others to fulfill a real property contract.

72-4 CAPITAL IMPROVEMENT DETERMINATION

Information provided in this section may be used to assist with the determination as to whether a transaction for real property, other than those expressly listed in the definition for capital improvement, should be taxed as a real property contract. Services to real property are generally repair, maintenance, and installation services subject to sales and use tax unless a person substantiates otherwise. Refer to SUTB 72-5 for information regarding the issuance and receipt of **Form E-589CI, Affidavit of Capital Improvement**.

A. Remodeling

For sales and use tax purposes, remodeling is a transaction comprised of multiple services performed by one or more persons to restore, improve, alter, or update real property that may otherwise be subject to tax as repair, maintenance, and installation services if separately performed. The term includes a transaction where the internal structure or design of one or more rooms or areas within a room or building are substantially changed.

The term does not include a single service that is included in repair, maintenance, and installation services or a transaction where the true purpose is repair, maintenance, and installation services no matter that another service included in repair, maintenance, and installation services is performed that is incidental to the true purpose of the transaction; examples include repair of sheetrock that includes applying paint, replacement of cabinets that includes installation of caulk or molding, and the installation of hardwood floors that includes installation of shoe molding.

Examples:

1. *A homeowner decides to update the homeowner's kitchen. The activities to be performed include the following: installation of new kitchen cabinets including cabinet boxes, tile flooring, interior walls painted, and a new sink. Upon completion, the appearance of the room will be substantially different. The kitchen update consists of multiple services that would otherwise be subject to tax as repair, maintenance, and installation services if performed separately, therefore, the kitchen update meets the definition of "remodeling."*
2. *A property owner decides to hire another person to relocate the kitchen sink, range, refrigerator, and dishwasher within the same physical room. The service requires that electrical and plumbing systems be altered and, to some degree, relocated to other areas of the room. The internal structure or design of the room are to be substantially changed; therefore, the transaction meets the definition of "remodeling."*

B. Permits

Permits are generally required under the State Building Code when structural changes are made that will affect load-bearing walls including work that will result in a new dwelling unit or will change the use or occupancy of a structure. Refer to the North Carolina State Building Code for the most up-to-date permit requirements.

Even if a permit is required under the State Building Code, the repair or replacement of electrical components, gas logs, a water heater, and similar individual items where the repair or replacement

is not part of new construction, reconstruction, or remodeling is subject to sales and use tax and does not qualify as a real property contract.

C. Addition or Alteration to Real Property That Becomes Permanently Affixed or Installed to Real Property

Generally, tangible personal property becomes a part of real property when it is attached in a fixed or immovable manner, such that the tangible personal property becomes part of real property by being annexed to it. (*Example: a fence is built on land.*)

An activity listed in the definition of the term “repair, maintenance, and installation services” is not a real property contract, regardless of whether there is an addition or alteration to real property that is permanently affixed or installed to real property.

72-5 SUBSTANTIATION OF A REAL PROPERTY CONTRACT

A person may substantiate that a transaction is a real property contract or a mixed transaction in one of the following two ways:

1. By receipt of a **Form E-589CI, Affidavit of Capital Improvement**.
2. By records that establish the transaction is a real property contract.

A. Affidavit of Capital Improvement - Form E-589CI

1. General Information

Form E-589CI, Affidavit of Capital Improvement, is generally required to substantiate that a contract, or a portion of work to be performed to fulfill a contract, is to be taxed for sales and use tax purposes as a real property contract. A transaction may be subject to sales and use tax if a person fails to issue Form E-589CI to substantiate a real property contract.

Form E-589CI is not an affidavit certifying the tax has been paid on building materials or other items purchased or used to fulfill a real property contract.

Form E-589CI is not to be used to purchase building materials or other items exempt from sales and use tax for use to fulfill a real property contract.

2. Use of Form E-589CI

a. Single Use (Section I)

A person must complete Section I - Single Use of Form E-589CI for a one time use to substantiate that a transaction is a real property contract for a single capital improvement to real property and subject to sales and use tax as a real property contract.

b. Blanket Use of Form E-589CI (Section II)

A real property contractor may complete Section II - Blanket Use of Form E-589CI and issue the form to another real property contractor (subcontractor) who is used exclusively to perform part, or all, of real property contracts with respect to capital improvements to real properties, where the parties have a recurring business relationship. A recurring business relationship occurs when a period of no more than twelve (12) months elapse between transactions between the two parties. A blanket use affidavit continues in force so long as the real property contractor (i.e.

general contractor) named in Box C and the real property contractor (i.e. subcontractor) named in Box D, maintain a recurring business relationship or until the affidavit is withdrawn or other notification given by the issuer of the form.

3. Liability Regarding Form E-589CI

The receipt of a Form E-589CI, absent fraud or other egregious activities, establishes that the person receiving the affidavit (i.e. the general contractor's subcontractor) should treat the transaction as a real property contract. *(Example: The subcontractor does not charge sales tax to the person who issued the affidavit. Rather, the subcontractor will pay sales and use tax to the vendor or remit the use tax to the Department on the purchase price of its purchases of taxable items used to fulfill the real property contract.)*

A person that issues Form E-589CI is liable for any additional sales and use tax due on the transaction between the affiant and recipient if it is determined that the transaction is not a capital improvement, but rather the transaction is subject to sales and use tax as a retail sale.

A person that receives Form E-589CI from another person, absent fraud or other egregious activities, is not liable for any additional sales and use tax on the transaction, between the affiant and recipient, if it is determined that the transaction is not a capital improvement but rather the transaction is subject to sales and use tax as a retail sale.

Note: Refer to SUTB 72-8 for information regarding liability for tangible personal property or certain digital property that the real property contractor purchases, installs, or applies for others to fulfill a real property contract and that becomes part of real property.

B. Records that Establish the Transaction is a Real Property Contract

In many cases, the only sufficient documentation to establish a transaction is a real property contract, or is a portion of a real property contract, is to have Form E-589CI on file for the transaction. *(Example: If a subcontractor is performing a single repair, maintenance, and installation service for another contractor that is a part of a larger remodel that qualifies as a capital improvement.)* The Department recommends any person performing a real property contract to document the transaction with Form E-589CI and not rely on other records that may not be clear to the Department of the nature of the transaction. However, there may be specific situations where records maintained by the person establish that a transaction is a real property contract.

A transaction explicitly listed as a capital improvement may be established as a real property contract using unambiguous records. The records must be kept for each transaction and must clearly and unquestionably establish the transaction is a real property contract. *(Example: The installation of an air conditioning system is explicitly listed in the definition as a capital improvement. A person installing a new air conditioning system may use records to establish the transaction is a real property contract. Records that would need to be maintained for this specific example include: the invoice issued to the customer at the time of sale that clearly states a new air conditioning system is being installed, a purchase invoice for the air conditioning system that correlates and corresponds to the air conditioning system being installed for the customer, as well as any permits required for the completion of the real property contract.)*

72-6 MIXED TRANSACTION CONTRACTS

A mixed transaction contract is a contract that includes both a real property contract for a capital improvement and repair, maintenance, and installation services for real property that are not related to the capital improvement.

Repair, maintenance, and installation services that are a portion of a capital improvement and supported by **Form E-589CI, Affidavit of Capital Improvement**, are not taxable repair, maintenance, and installation services and are not included in the numerator for determining whether the taxable repair, maintenance, and installation services exceed the twenty five percent (25%) rule below. A mixed transaction contract is taxable as follows:

1. If the allocated sales price of the taxable repair, maintenance, and installation services included in the contract is less than or equal to twenty five percent (25%) of the contract price, then the repair, maintenance, and installation services portion of the contract, and the items used to perform those services, are taxable as a real property contract. For a mixed transaction contract taxable as a real property contract that includes an allocated sales price of taxable repair, maintenance, and installation services less than or equal to twenty five percent (25%) of the contract price, the substantiation requirements in G.S. § 105-164.4H(a1) apply.
2. If the allocated sales price of the taxable repair, maintenance, and installation services included in the contract is greater than twenty five percent (25%) of the contract price, then sales and use tax applies to the sales price of or the gross receipts derived from the taxable repair, maintenance, and installation services portion of the contract. The person must determine an allocated price for the taxable repair, maintenance, and installation services in the contract based on a reasonable allocation of revenue that is supported by the person's business records kept in the ordinary course of business. Any purchase of tangible personal property or certain digital property used to fulfill the real property contract is taxed as a real property contract where the real property contractor is the consumer of the item that the real property contractor purchases, installs, or applies for others and becomes a part of real property or is used to fulfill the contract.

72-7 RETAILER-CONTRACTORS

A retailer-contractor is a person that acts as a retailer when it makes a sale at retail and as a real property contractor when it performs a real property contract.

A retailer-contractor that purchases taxable items from a seller, part of which will be used in performing real property contracts and part of which will be sold at retail, may purchase those items exempt from sales and use tax as provided in SUTB 5.

When the items are withdrawn from inventory and used by the retailer-contractor, the retailer-contractor is liable for and must accrue and pay use tax on the retailer-contractor's purchase price of the item.

Where the exact purchase price is unknown or cannot be determined by the retailer-contractor, it may determine and report its use tax liability based on GAAP inventory methods. The retailer-contractor must maintain records to substantiate the proper amount of use tax due on the purchase price of any items withdrawn from inventory and used to fulfill a real property contract. All items withdrawn from inventory by a retailer-contractor are subject to the applicable rates of sales and use tax unless the item is exempt from sales and use tax.

72-8 JOINT AND SEVERAL LIABILITY FOR USE TAX

Complementary use tax is payable by the person who purchases, leases, or rents items. A real property contractor, retailer-contractor, subcontractor, lessee, and owner of real property are jointly and severally liable for sales and use tax on an item purchased that becomes a part of real property in the State, except as provided in SUTB 72-5.

The liability of a real property contractor, a retailer-contractor, a subcontractor, a lessee, or an owner who did not purchase the item is satisfied by receipt of an affidavit from the purchaser

certifying that the tax has been paid. **Form E-589CI, Affidavit of Capital Improvement**, is not an affidavit certifying the tax has been paid on items that become a part of real property in this State. A separate affidavit must be received from the purchaser of the item certifying the tax has been paid.

72-9 SOURCING

Tangible personal property (e.g. building materials) used to fulfill a real property contract with respect to a capital improvement is generally sourced to the location where the purchaser takes possession of the property. Certain digital property used to fulfill a real property contract with respect to a capital improvement is sourced to the location where the purchaser takes possession or makes first use of the property. A real property contractor may owe additional use tax for the county where the tangible personal property or certain digital property is used to fulfill a real property contract with respect to a capital improvement if the rate of county tax in that county is a higher rate than in the county where the real property contractor took possession of the property. For information regarding sourcing, refer to SUTB 4.

72-10 REAL PROPERTY CONTRACTS WITH A QUALIFYING OR CONDITIONAL FARMER

Certain qualifying items may be purchased by a contractor without payment of sales or use tax to fulfill a real property contract with a qualifying or conditional farmer. For information on purchases to fulfill a real property contract for qualifying or conditional farmers, refer to SUTB 27.

72-11 CERTAIN INSTALLATION CHARGES EXEMPT FROM SALES AND USE TAX – REAL PROPERTY CONTRACTS

The following charges are exempt from sales and use tax:

1. Installation charges that are part of the sales price of tangible personal property purchased by a real property contractor to fulfill a real property contract for an item that is installed or applied to real property, provided the installation charges are separately stated and identified as such on the invoice or other documentation given to the real property contractor at the time of the sale. The exemption also applies to installation charges by a retailer-contractor when performing installation services for a real property contract. The exemption includes any labor costs provided by the real property contractor, including employees' wages or labor purchased from a third party that would otherwise be included in the definition of "purchase price."
2. Installation charges that are part of the sales price of or gross receipts derived from repair, maintenance, and installation services or installation charges only purchased by a real property contractor to fulfill a real property contract, provided the installation charges are separately stated and identified as such on the invoice or other documentation given to the real property contractor at the time of the sale. The exemption also applies to installation charges by a retailer-contractor when performing a real property contract. The exemption includes any labor costs provided by the real property contractor, including employees' wages or labor purchased from a third party that would otherwise be included in the definition of "purchase price."

With the correct application of the sales and use tax laws, there should be no charge for sales and use tax on the amount charged for a real property contract.

72-12 CONTRACTS AWARDED PRIOR TO THE ENACTMENT OF THE ¼% LOCAL SALES AND USE TAX

Under Article 46, One-Quarter Cent (¼¢) County Sales and Use Tax, of Chapter 105 of the North Carolina General Statutes, counties have authority to levy an additional one-quarter cent (¼¢) local

sales and use tax upon the favorable vote by the residents of a county. The legislation provides that the additional ¼% local sales and use tax does not apply to items purchased for the purpose of fulfilling a real property contract entered into or awarded pursuant to any bid made before the effective date of the tax imposed by a taxing county when such items would otherwise be subject to Article 46, One-Quarter Cent (¼¢) County Sales and Use Tax.

Items purchased for the purpose of fulfilling a real property contract on or after the effective date of the ¼% local sales and use tax levy by a real property contractor, a subcontractor, or retailer-contractor for a change order in conjunction with a real property contract entered into or awarded pursuant to any bid made before the effective date of the levy, or a real property contract entered into or pursuant to any bid made before the effective date of the levy, are not subject to the ¼% local sales and use tax, provided such contractors issue a properly completed **Form E-589D, Affidavit to Exempt Contractors From the ¼% County Sales and Use Tax**, to the retailers of said items. A properly completed Form E-589D may be executed in connection with each purchase and copies thereof must be maintained in the records of the retailer and the purchaser. A contractor must retain the original or a duplicate original of any real property contract in its files.

Refer to SUTB 1-3B.2 for a complete list of counties that have levied the additional ¼% local sales and use tax under Article 46 resulting in the total local sales and use tax amount of 2.25%.

72-13 CONTRACTS AWARDED PRIOR TO THE ENACTMENT OF THE LOCAL GOVERNMENT SALES AND USE TAX FOR PUBLIC TRANSPORTATION

A tax levied under Article 43, Local Government Sales and Use Taxes for Public Transportation, of Chapter 105 of the North Carolina General Statutes by a county or transportation authority does not apply to items purchased for the purpose of fulfilling a real property contract for a capital improvement entered into or awarded pursuant to any bid made before the effective date of the tax imposed by a taxing county when the items would otherwise be subject to the tax.

Items purchased for the purpose of fulfilling a real property contract on or after the effective date of the levy by a real property contractor, a subcontractor, or retailer-contractor for a change order in conjunction with a real property contract entered into or awarded pursuant to any bid made before the effective date of the levy, or a real property contract entered into or pursuant to any bid made before the effective date of the levy, are not subject to the 0.50% local transit tax provided such contractors issue a properly completed **Form E-589F, Affidavit to Exempt Certain Purchases From the Additional 0.50% Transit Sales and Use Tax**, to the sellers of said items. A real property contractor, a subcontractor, a retailer-contractor, or a retailer must retain a copy of each Form E-589F and other documentation to substantiate that the taxable items purchased or sold are not subject to the 0.50% local transit sales and use tax.

Refer to SUTB 1-3C for a complete list of counties that have levied an additional 0.50% local transit sales and use tax.

72-14 PURCHASES OF MILL MACHINERY OR MILL MACHINERY PARTS OR ACCESSORIES BY REAL PROPERTY CONTRACTORS, RETAILER-CONTRACTORS, AND SUBCONTRACTORS

Purchases by real property contractors, retailer-contractors, and subcontractors of qualifying mill machinery or mill machinery parts or accessories for use by them in the performance of a real property contract with a manufacturing industry or plant are exempt from sales and use tax, where applicable. Such mill machinery or mill machinery parts or accessories must be for use by a manufacturing industry or plant in the production process, as the term "production" is defined SUTB 57-1 to qualify. If a real property contractor subcontracts any part of the real property contract, purchases by the subcontractors of qualifying mill machinery or mill machinery parts and accessories are exempt from sales and use tax.

A real property contractor, retailer-contractor, or subcontractor must maintain records from the manufacturer that establishes the purchase of exempt mill machinery or mill machinery parts or accessories qualify for the exemption.

Note: For information on mill machinery or mill machinery parts and accessories, refer to SUTB 57.

72-15 FREESTANDING APPLIANCES

SUTB 73 REFUNDS, CREDITS, AND RECOVERY OF TAX PAID**73-1 PROCEDURE FOR OBTAINING A REFUND - GENERAL****A. Request Initiated by Taxpayer**

A taxpayer may request a refund of an overpayment made by the taxpayer by taking one of the actions shown below within the statute of limitations for obtaining a refund. A taxpayer may not request a refund of an overpayment based on a "contingent event" as defined in G.S. § 105-241.6(b)(5) until the event is finalized and an accurate and definite request for refund of an overpayment may be determined. The actions are:

1. Filing an amended return reflecting an overpayment due the taxpayer.
2. Filing a claim for refund. The claim must identify the taxpayer, the type and amount of tax overpaid, the filing period to which the overpayment applies, and the basis for the claim. The taxpayer's statement of the basis of the claim does not limit the taxpayer from changing the basis.

B. Action on Request

When a taxpayer files an amended return or a claim for refund, the Department must take one of the actions shown below within six months after the date the amended return or claim for refund is filed. If the Department does not take one of these actions within this time limit, the inaction is considered a proposed denial of the requested refund.

1. Send the taxpayer a refund of the amount shown due on the amended return or claim for refund.
2. Adjust the amount of the requested refund by increasing or decreasing the amount shown due on the amended return or claim for refund and send the taxpayer a refund of the adjusted amount. If the adjusted amount is less than the amount shown due on the amended return or claim for refund, the adjusted refund must include a reason for the adjustment. The adjusted refund is considered a notice of proposed denial for the amount of the requested refund that is not included in the adjusted refund.
3. Deny the refund and send the taxpayer a notice of proposed denial.
4. Send the taxpayer a letter requesting additional information concerning the requested refund. If a taxpayer does not respond to a request for information, the Department may deny the refund and send the taxpayer a notice of proposed denial. If a taxpayer provides the requested information, the Department must take one of the actions shown below within the later of the following:
 - a. The remainder of the six-month period.
 - b. 30 days after receiving the information.
 - c. A time period mutually agreed upon by the Department and the taxpayer.

C. Restrictions

The Department may not refund any of the following:

1. Until a taxpayer files a final return for a tax period, an amount paid before the final return is filed.

2. An overpayment setoff under Chapter 105A, the Setoff Debt Collection Act, or under another setoff debt collection program authorized by law.
3. A tax overpayment of less than three dollars (\$3.00), unless the taxpayer files a written claim for the refund.

D. Action on Request Regarding Statute of Limitations

When the taxpayer files an amended return or a claim for refund which the Department determines to be outside the statute of limitations, the Department must deny the refund and send the taxpayer a notice of denial.

E. Effect of Denial or Refund

A proposed denial of a refund and a denial of a refund by the Secretary are presumed to be correct. A refund does not absolve a taxpayer of a tax liability that may in fact exist. The Secretary may propose an assessment for any deficiency as provided in Article 9 of the North Carolina General Statutes.

73-2 EXCESSIVE AND ERRONEOUS COLLECTIONS

A. Refunds for Remittance of Overcollections to Secretary

When tax is collected for any period on a taxable sale in excess of the total amount that should have been collected or is collected on an exempt or nontaxable sale, the total amount collected must be remitted to the Secretary. If the Secretary determines that the seller overcollected the sales tax on a transaction, the Secretary shall take only one of the actions shown below. G.S. § 105-164.11 shall be construed with the provisions of Article 5 of Chapter 105 of the North Carolina General Statutes and given effect so as to result in the payment to the Secretary of the total amount collected as tax if it is in excess of the amount that should have been collected.

1. If the Secretary determines that the seller overcollected tax on a transaction, the Secretary may allow a refund of the tax. The seller must issue a refund or credit to the customer and provide documentation thereof to the Department before receiving a refund or credit from the Department. The Secretary shall not refund the overcollected tax to the seller if the seller has elected to offset a use tax liability on a related transaction with the overcollected sales tax under SUTB 73-2A.2.
2. If the Secretary determines that a seller who overcollected sales tax on a transaction is instead liable for a use tax on a related transaction, the Secretary may allow the seller to offset the use tax liability with the overcollected sales tax. The Secretary shall not allow an offset if the seller has elected to receive a refund of the overcollected tax under SUTB 73-2A.1. The decision by a seller to receive an offset of tax liability rather than a refund of the overcollected tax does not affect the liability of the seller to the purchaser for the overcollected tax.
3. If neither SUTB 73-2A.1 nor SUTB 73-2A.2 applies, the Secretary shall retain the total amount collected on the transaction.

B. Refunds for Remittance of Overcollections to Seller

When taxes are paid to a seller in error, the customer should request a refund or credit from the seller who in turn may request a refund or credit from the Department. Before receiving a refund from the Department, the seller must issue a refund or credit to the customer and provide documentation thereof to the Department. A customer that requests a refund or credit from a seller should retain copies of such requests and make them available for review by the Department.

A cause of action against the seller for overcollected sales and use tax does not accrue until a purchaser has provided written notice to a seller and the seller has had sixty (60) days to respond. Such notice to the seller must contain the information necessary to determine the validity of the request.

In connection with a purchaser's request of a refund from a seller of overcollected sales or use tax, a seller shall be presumed to have a reasonable business practice if in the collection of sales and use taxes the seller uses either a provider or a system, including a proprietary system, that is certified by the State and the seller has remitted to the State all taxes collected less any deductions, credits, or collection allowances.

Where a person recovers tax under SUTB 73-3, a refund or credit under this subsection is not allowed by the Secretary.

C. Form for Submitting Claim

Unless otherwise provided in these SUTBs, a claim for refund of an overpayment of sales and use tax should be submitted on **Form E-588, Business Claim for Refund State, County and Transit Sales and Use Taxes**. The basis of the claim for the requested refund must be stated in the Basis for Claim section of the refund claim form. If applicable, **Form E-536R, Schedule of County Sales and Use Taxes for Claims for Refund**, should also be submitted. After a claim is verified and approved, a refund voucher is issued and forwarded to the taxpayer.

D. Documentation Required

When submitting refund claims for excessive or erroneous collections of tax, supporting data to be submitted includes copies of invoices or schedules reflecting the purchaser's name, invoice numbers, description of the property purchased, amount of tax collected, copies of credit memos, and the front and back of cancelled refund checks issued to the purchaser. If applicable, copies of executed Certificates of Exemption and **Form E-536R, Schedule of County Sales and Use Taxes for Claims for Refund**, should also be submitted.

When submitting refund claims for excessive or erroneous payments of tax on purchases for use, supporting documentation to be submitted includes copies of invoices or schedules reflecting retailer's name, invoice numbers, description of the property purchased, and the amount of tax paid.

E. Taking Credit on Returns

A taxpayer may elect to take credit for an overpayment of sales and use tax paid on **Form E-500, Sales and Use Tax Return**, without submitting a **Form E-588, Business Claim for Refund State, County and Transit Sales and Use Taxes**. The "Less any Credit" line of the sales and use tax return is the designated line on which to enter the amount of credit claimed. Unless otherwise provided in these SUTBs, a taxpayer's receipts or purchases for the current month should not be reduced by the amount of sales or purchases corresponding with the amount of the tax credit. The same documentary evidence required to support a claim for refund must be submitted with the return on which a credit is taken. If the sales and use tax return is filed online, the documentary evidence required to support the credit must be submitted with **Form E-RA, Required Attachments for Sales and Use Tax Electronic Filing**.

Note: For information on credits for sales and use tax paid to another taxing jurisdiction (i.e. another state or another local taxing jurisdiction), refer to SUTB 2-8.

F. Statute of Limitation for Refunds

Refunds are allowed for an overpayment of taxes provided a request for refund is made within three years after the due date of the return set by statute or within two years after payment of the tax, whichever is later. There are no provisions in the revenue laws for refunding overpayments of tax after the statute of limitations except where a waiver of the statute of limitations or a contingent event exist as provided in G.S. § 105-241.6.

73-3 RECOVERY OF TAX PAID

A retailer who pays sales and use tax on an item that is separately stated on an invoice or similar billing document given to the retailer at the time of sale and subsequently resells the item at retail, without the item being used by the retailer, may recover the sales or use tax originally paid to a seller as provided in this section. A retailer entitled to recover tax under this section may reduce taxable receipts by the taxable amount of the purchase price of the item resold for the period in which the retail sale occurs.

A recovery of tax allowed under this section is not an overpayment of tax and, where such recovery is taken, a refund of the tax originally paid may not be requested from the seller pursuant to SUTB 73-2. Any amount for sales and use tax recovered under this section in excess of sales and use tax due for a reporting period is not subject to refund. Any tax recovered under this section may be carried forward to a subsequent reporting period and taken as an adjustment to taxable receipts. The records of the retailer must clearly reflect the sales and use tax originally paid on the item resold and support the adjustment to taxable receipts for the period in which the adjustment is made.

73-4 CREDIT ALLOWED DURING AUDIT FOR TAX ERRONEOUSLY PAID

The Department has authorized the use of **Form E-599M, Request for Sales and Use Tax Credit by Vendee**, when a taxpayer undergoing a sales and use tax audit discovers that overpayments of tax were made to suppliers. The taxpayer should forward Form E-599M to the supplier to be completed and returned to the taxpayer. The auditor will verify the amount of overpayment and this amount will be allowed as a credit against additional tax due in the audit. If the total credit from Form E-599M is greater than the additional tax due, any excess shall be carried forward to future sales and use tax returns and deducted from net tax due until the credit is exhausted. Documentary evidence must be submitted with the returns on which a credit was taken for verification purposes. Form E-599M is only used in connection with an examination of a taxpayer's books and records by the Department.

73-5 REFUND OF TAX PAID ON A RESCINDED SALE OR CANCELLED SERVICE

A retailer is allowed a refund of sales tax remitted on a rescinded sale or cancelled service as provided in SUTB 77-1.

73-6 REFUND OF TAX PAID ON THE CANCELLATION OF A SERVICE CONTRACT

When a service contract is cancelled and the purchaser receives a refund, in whole or in part, of the sales price paid for the service contract, the purchaser may receive a refund of the pro rata amount of the sales and use tax paid based on the taxable amount of the sales price refunded as provided in SUTB 79-8.

73-7 REFUND OF TAX PAID FOR A BAD DEBT

Refer to SUTB 88 for information on deducting amounts charged off and certain refund provisions.

73-8 PENALTY FOR SUBMITTING A FALSE CLAIM

Felony penalties may be imposed for willful attempts to evade or defeat taxes imposed and on persons who willfully aid, assist, procure, counsel, or advise the preparation, presentation, or filing of claims that they know to be false or fraudulent.

73-9 SPECIFIC REFUNDS

Refer to SUTB 74 for information on certain specific refunds authorized and on economic incentive refunds.

SUTB 74 REFUNDS - SPECIFIC**74-1 REFUNDS TO INTERSTATE CARRIERS****A. Refund Authorized by G.S. § 105-164.14(a)****1. General**

An interstate carrier is a person who is engaged in transporting persons or property in interstate commerce for compensation. An interstate carrier is allowed a quarterly refund of a portion of the North Carolina State and local sales and use taxes paid on purchases of railway cars, locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane operated by the interstate carrier. Taxes for which a refund is allowed in this section are not an overpayment of tax and do not accrue interest.

2. Railroad Companies

The repair of railroad cars of a foreign line and operated by an applicant shall be included in total purchases by the applicant for refund regardless of the fact that the operating company may bill the owner for repairs performed on such railroad cars. Repairs to the applicant's railroad cars operating on foreign lines shall be excluded from total purchases since such cars are not being operated by the applicant for refund, regardless of the fact that the foreign company may bill the applicant for repair parts used to maintain the applicant's railroad cars when in operation over foreign lines. The applicant shall also exclude from total purchases fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for which the applicant is billed by the operating company when its railroad cars are traveling over foreign lines because there is no record kept of the miles the applicant's railroad cars may travel over foreign lines. However, the railroad car miles that foreign cars travel over the lines of the applicant and operated by the applicant shall be taken into consideration in establishing the number of miles of operation in this State and the total number of miles of operation within and without this State for the calendar quarter.

Locomotives are not ordinarily interchanged in the same manner as railroad cars; however, if locomotives are operated in the same manner as railroad cars, the provisions of this section will also be applicable to the operation of locomotives.

3. Motor Carriers

The Federal Motor Carrier Safety Administration does not require carriers under its jurisdiction to keep records according to its standard classification of accounting. Instead, carriers may keep records according to generally accepted accounting principles (GAAP). Qualified carriers who keep records under one of the foregoing systems are eligible for a refund of sales and use tax under G.S. § 105-164.14(a). Interstate carriers are classified by the Federal Motor Carrier Safety Administration as common or contract carriers. The operating revenue criteria for the classes of motor carriers are shown below.

Motor carriers refers to trucking companies and bus companies. Common and contract motor carriers of property subject to the Motor Carrier Safety Improvement Act of 1999 are grouped into the following three classes:

- | | |
|-----------|--|
| Class I. | Motor carriers that have annual operating revenues of \$10 million or more. |
| Class II. | Motor carriers that have annual operating revenues of at least \$3 million but less than \$10 million. |

Class III. Motor carriers that have annual operating revenues of less than \$3 million.

Common and contract motor carriers of passengers subject to the Motor Carrier Safety Improvement Act of 1999 are grouped into the following two classes:

Class I. Motor carriers that have average annual gross transportation operating revenues of \$5 million or more from passenger motor carrier operations.

Class II. Motor carriers that have average annual gross transportation operating revenues of less than \$5 million from passenger motor carrier operations.

B. Refund Request Procedures

1. Form E-581, Interstate Carrier Claim for Refund State, County, and Transit Sales and Use Taxes

A claim for refund of sales and use tax paid by an interstate carrier on qualifying purchases is to be filed on Form E-581. Applicants are required to include on line 4 of Form E-581 all qualifying purchases of railway cars, locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane the carrier operates that are taxable in North Carolina. Any sales or use tax paid to state or local taxing authorities must be excluded from total purchases shown on line 4 of the Form E-581.

2. Form E-581A, Interstate Carrier Claim for Refund Combined General Rate Sales and Use Taxes

A claim for refund of sales and use tax paid by an interstate carrier on purchases of aviation gasoline and jet fuel subject to the North Carolina combined general rate of sales and use tax must be filed on Form E-581A. Applicants are required to include on line 4 of Form E-581A the total combined general rate of sales and use tax paid on all purchases of aviation gasoline and jet fuel.

3. Filing Due Dates

An interstate carrier claim for refund shall be filed quarterly. A claim is due within sixty (60) days from the close of each calendar quarter ending in March, June, September, and December of each year covering the purchases or acquisitions during the preceding quarter. An interstate carrier claim for refund must be filed within three years after the due date. A refund claim filed more than three (3) years after the due date is barred.

4. Computation of Refund

The Secretary shall compute the amount to be refunded as follows:

- a. The Secretary shall determine the mileage ratio. The numerator of the mileage ratio is the number of miles the applicant operated all motor vehicles, railroad cars, locomotives, and airplanes in North Carolina during the refund period. The denominator of the mileage ratio is the number of miles the applicant operated all motor vehicles, railroad cars, locomotives, and airplanes both inside and outside North Carolina during the refund period. For purposes of calculating the ratio of miles operated in North Carolina, airplane miles are not considered miles in this State if the airplane flies over North Carolina but does not take off or land in this State.

- b. The applicant shall multiply the mileage ratio by the purchase price of qualifying purchases inside and outside the State excluding any sales or use tax paid and then multiply the resulting product by the tax rate that would have applied to the tangible personal property or services if they had all been purchased in this State. The applicant should only include railway cars, locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane the carrier operates, acquired, and the tax was paid thereon during the quarter covered by the claim. If an applicant includes any railway cars and locomotives, fuel, lubricants, repair parts, accessories, service contracts, or repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane the carrier operates, acquired, or the tax paid thereon during a different quarter than for the claim submitted, the claim will be disallowed.
- c. The secretary shall refund each applicant the excess of the amount of sales and use tax the applicant paid in this State during the refund period on tangible personal property and services over the applicant's proportional liability for the refund period.

5. Amended Refund Claim

Any person qualified to receive an interstate carrier refund, that pays sales tax to a supplier or use tax directly to the Secretary as a result of an assessment made by the Secretary on sales or purchases of railway cars and locomotives, fuel, lubricants, repair parts, accessories, service contracts, or repair, maintenance, and installation services for a motor vehicle, railroad car, locomotive, or airplane the carrier operates that was made during a noncurrent quarter, may apply for a refund of such taxes by filing an amended claim for refund of taxes within the time prescribed for each quarter during which such purchases were made. The amended claim must show the information required by SUTB 74-1C. Records must be maintained in such manner as to enable a representative of the Secretary to accurately verify such claim.

C. Information to be Furnished

An applicant for refund is required to furnish the following information and any documentation required by the Secretary:

1. A list identifying the railway cars, locomotives, fuel, lubricants, repair parts, accessories, service contracts, and repair, maintenance, and installation services purchased by the applicant inside or outside this State during the refund period.
2. The purchase price of the taxable tangible personal property and services listed in SUTB 74-1C.1. For purposes of this subsection, the term "taxable" is based on the imposition of tax on the tangible personal property and services in North Carolina.
3. The sales and use taxes paid in this State on the listed tangible personal property and services.
4. The number of miles the applicant's motor vehicles, railroad cars, locomotives, and airplanes were operated both inside and outside this State during the refund period. Airplane miles are not in this State if the airplane does not depart or land in this State.
5. Any other information required by the Secretary.

D. Nonrefundable Taxes

The refund provisions allowed under G.S. § 105-164.14(a) are not applicable to the following taxes:

1. Sales and use tax incurred by employees on purchases of food, lodging, or other taxable travel expenses paid by employees and reimbursed by the interstate carrier. These expenses are personal to the employee since the contract for food, shelter, and travel is between the employee and the provider and payment of the tax is by the employee individually and personally. The interstate carrier has incurred and paid no sales tax liability; instead, it has chosen to reimburse a personal expense of the employee.
2. Sales and use tax paid on the purchase of electricity, telecommunications and ancillary services, and video programming.
3. Sales or use taxes paid on purchases of "alcoholic beverages" as defined in G.S. § 18B-101.

- a. The Secretary shall determine the ratio of the number of miles the utility operated its railway cars and locomotives in this State during the refund period to the number of miles it operated them both inside and outside this State during the refund period.
- b. The Secretary shall determine the utility's proportional liability for the refund period by multiplying this mileage ratio by the purchase price of the railway cars, locomotives, and accessories purchased during the refund period and then multiplying the resulting product by the tax rate that would have applied to the tangible personal property if it had all been purchased in this State.

Qualifying nonprofit entities identified in SUTB 74-3D are allowed a semiannual refund of certain sales and use tax paid by them in this State on direct purchases of items for use in carrying on their nonprofit work. Sales and use tax liability indirectly incurred by a nonprofit entity through reimbursement to an authorized person of the entity for the purchase of tangible personal property and services for use in carrying on the work of the nonprofit entity is considered a direct purchase by the nonprofit entity. Sales and use tax liability indirectly incurred by a nonprofit entity on building materials, supplies, fixtures, and equipment that become a part of or annexed to any building or structure that is owned or leased by the nonprofit entity and is being erected, altered, or repaired for use by the nonprofit entity for carrying on its nonprofit activities is considered a sales and use tax liability incurred on direct purchases by the nonprofit entity. The provisions of this section apply to out-of-state nonprofit entities to the extent the out-of-state nonprofit entity pays North Carolina sales or use taxes on purchases for use in carrying on their nonprofit activities within or without this State. Taxes for which a refund is allowed under this section are not an overpayment of tax and do not accrue interest.

The real property manager must determine an allocated sales price for the taxable repair, maintenance, and installation services portion of the property management contract based on a reasonable allocation of revenue that is supported by the person's business records kept in the ordinary course of business. Sales and use tax applies to the allocated sales price when the portion of time attributable to repair, maintenance, and installation services not excluded under SUTB 75-6D exceeds twenty-five percent (25%) of the time spent managing the real property for a billing or

invoice period. The charges for the taxable repair, maintenance, and installation services must be separately stated on the invoice or similar billing document given to the customer at the time of the sale.

D. Exclusions

Time spent managing the real property for a billing or invoice period includes all time spent managing the real property. This includes time spent on repair, maintenance, and installation services that are excluded from tax when provided by the real property manager pursuant to a property management contract:

Substantiation of the time spent managing the real property by a real property manager must be based on a reasonable approximation of the real property management services provided and supported by the person's business records kept in the ordinary course of business. The substantiation must be contemporaneously provided for each billing or invoice period and maintained in the business records. Failure of a real property manager to maintain substantiation of the time spent managing the real property may subject all or a portion of the property management contract to sales and use tax.

A. Repair Services

The sales price of or the gross receipts derived from repair charges sold at retail for watch, clock, jewelry, or other items by a watch, clock, or jewelry repair person or other retailer are subject to the general State, applicable local, and applicable transit rates of sales and use tax. 75-11 SOURCING – REPAIR, MAINTENANCE, AND INSTALLATION SERVICES

Repair, maintenance, and installation services are sourced in accordance with the sourcing principles set forth in SUTB 4. Repair, maintenance, and installation services are generally sourced to the location where the customer can potentially make first use of the property on which the seller performed the repair, maintenance, and installation service. In general, this is the location of the real property or where the tangible personal property or certain digital property is delivered to the purchaser. The location where the seller performs the service is not determinative of where the service is sourced, although, it may be that the service is performed at the same location that the customer can potentially make first use of the property.

Examples:

1. *A resident of this State takes a lawnmower to a repair shop in State B to have the engine serviced and the blade sharpened. When the lawnmower is ready, the owner picks it up at the repair shop. The repair service is sourced to the repair shop location in State B since the owner first has possession of the repaired item at that location.*

2. *Same facts as in Example 1 above except that the repair shop delivers the repaired lawnmower to the owner's residence in this State. In this case, the service is sourced to the residence in NC since that is the location where the lawnmower is returned to the owner of the lawnmower.*

SUTB 76 REPOSSESSIONS**76-1 REPOSSESSIONS**

- A. The sale of an article repossessed by a retailer is exempt from tax provided tax was paid on the gross sales price of the article when it was originally sold by the retailer, unless otherwise provided in this SUTB.
- B. Retailers shall not deduct from their gross taxable sales the unpaid amounts on repossessed merchandise.
- C. Listed below is the tax liability in connection with the following three types of operating agreements between retailers and the assignees of sales contracts:

1. No Recourse Endorsement

In the case of a no recourse endorsement by the retailer to the financial institution, the retailer has no liability as a result of debtor default; and if the retailer reacquires the property that is the collateral for the contract, the retailer has actually purchased the property. In such a case it is not property repossessed by the retailer and it would be subject to sales and use tax when sold at retail by the retailer.

2. Limited Recourse Endorsement

In the case of the limited recourse or dealer participation endorsement by the retailer to the financial institution, the retailer has liability to the financial institution as a result of debtor default. Generally, in the event of debtor default under this type of endorsement, the property is taken back by the financial institution and, as stipulated in the contract, is redelivered to the retailer within a specified period of time after the maturity date of the oldest unpaid delivery installment. The retailer is obligated for payment of the next unpaid balance upon delivery of the property to him by the financial institution. In such cases, the property is deemed to be articles repossessed by the retailer and thus is exempt from tax when sold by the retailer at retail provided sales tax was paid on the gross sales price of the initial sale. Otherwise, the sale of any repossessed article is subject to the applicable rates of sales and use tax.

3. Full Recourse Endorsement

In the case of the full recourse endorsement by the retailer to the financial institution, the retailer has liability for any unpaid balance in the event the debtor defaults in payment. In this type of endorsement, the financial institution only needs to make demand of the retailer that he repurchase the contract for the unpaid balance and, if need be, the property is repossessed by the retailer and, therefore, it qualifies as property repossessed by the retailer and is exempt from tax when sold at retail provided sales tax was paid on the gross sales price of the initial sale. Otherwise, the sale of any repossessed article is subject to the applicable rates of sales and use tax.

76-2 FINANCE COMPANIES

If a finance company repossesses tangible personal property and sells the tangible personal property or places the tangible personal property on display for sale as an adjunct to the principal business of the finance company, such finance company must register with the Department and collect and remit the applicable rates of sales and use tax on its retail sales.

SUTB 77 RESCINDED SALE OR CANCELLED SERVICE AND RESTOCKING FEES**77-1 REFUND OF TAX PAID ON A RESCINDED SALE OR CANCELLED SERVICE**

- A.** A retailer is allowed a refund of sales tax remitted on a rescinded sale or cancelled service. A sale is rescinded when the purchaser returns an item to the retailer and receives a refund, in whole or in part, of the sales price paid, including a refund of the pro rata amount of the sales tax based on the taxable amount of the sales price refunded. A service is cancelled when the service is terminated and the purchaser receives a refund, in whole or in part, of the sales price paid, including a refund of the pro rata amount of the sales tax paid based on the taxable amount of the sales price refunded.

A retailer entitled to a refund may reduce taxable receipts by the taxable amount of the refund for the period in which the refund occurs or may request a refund of an overpayment, provided the tax has been refunded to the purchaser.

Note: For information on the refund of tax paid on the cancellation of a service contract, refer to SUTB 79-8.

B. Form for Submitting Claim

Unless otherwise provided in the SUTBs, a claim for refund or a request for a refund of an overpayment of sales and use tax should be submitted on **Form E-588, Business Claim for Refund State, County and Transit Sales and Use Taxes**. The basis of the claim for the requested refund must be stated in the Basis for Claim section of the refund claim form. If applicable **Form E-536R, Schedule of County Sales and Use Taxes for Claims for Refund**, should also be submitted.

C. Information to be Furnished

When submitting refund claims requesting a refund of an overpayment of sales and use tax, supporting data to be submitted includes copies of invoices or schedules reflecting the purchaser's name, invoice numbers, description of the property purchased, amount of tax collected, and copies of credit memos and the front and back of cancelled refund checks issued to the purchaser. If applicable, copies of executed Certificates of Exemption and **Form E-536R, Schedule of County Sales and Use Tax for Claims for Refund**, should also be submitted.

D. Statute of Limitations

A refund is allowed for an overpayment of tax provided a request for refund is made within three years after the due date of the return set by statute or within two years after payment of the tax, whichever is later. There are no provisions in the revenue laws for refunding overpayments of tax after the statute of limitations except as provided in G.S. § 105-241.6.

77-2 RESTOCKING FEE

A restocking fee that is not part of the original sales price of an item is not subject to sales and use tax when charged at the time of the return of the item.

77-3 OTHER REFUND INFORMATION

Refer to SUTB 73 for information on other refunds.

SUTB 78 SALES TAX BASE EXPANSION PROTECTION ACT**78-1 SALES TAX BASE EXPANSION PROTECTION ACT**

The Sales Tax Base Expansion Protection Act, G.S. § 105-244.3, provides for the following:

A. Grace Period

The Department shall take no action to assess any tax due for a filing period beginning on or after March 1, 2016, and ending prior to January 1, 2019, if one or more of the conditions in SUTB 78-1B apply and the retailer did not receive specific written advice from the Secretary for the transactions at issue for the laws in effect for the applicable periods. Except as otherwise provided in this SUTB, the grace period also applies to use tax liability imposed on a purchaser under G.S. § 105-164.6.

B. Conditions

The conditions are as follows:

1. A retailer failed to charge sales tax due on separately stated installation charges that are part of the sales price of tangible personal property or certain digital property sold at retail for a filing period beginning on or after March 1, 2016, and ending before January 1, 2019.
2. A person failed to properly classify themselves as a retailer in retail trade for the filing period beginning on or after March 1, 2016, and ending before January 1, 2017, and did not charge sales tax on all retail transactions but rather treated some transactions as real property contracts in error for sales and use tax purposes. This does not prohibit the Secretary from assessing use tax on purchases used to fulfill a transaction erroneously treated as a real property contract.
3. A person treated a transaction as a real property contract in error and did not collect sales tax on the transaction as a retail sale for a filing period beginning on or after March 1, 2016, and ending before January 1, 2019. This does not prohibit the Secretary from assessing use tax on purchases used to fulfill a transaction erroneously treated as a real property contract.
4. A person failed to collect sales tax on the sales price of a service contract for one or more components, systems, or accessories for a motor vehicle for a filing period beginning on or after March 1, 2016, and ending before January 1, 2017, where the contract was sold by a motor vehicle dealer, a motor vehicle service agreement company, or a motor vehicle dealer on behalf of a motor vehicle service agreement company.
5. A person failed to collect sales tax on the retail sale of a service contract for tangible personal property that becomes a part of or is affixed to real property for a filing period beginning on or after March 1, 2016, and ending before January 1, 2019.
6. A person failed to collect sales tax on the retail sale of a service contract for a pool, a fish tank, or similar aquatic feature on or after January 1, 2017, and prior to January 1, 2019, provided the person paid tax on any purchases used to fulfill the service contract.
7. A person failed to collect sales tax on the sales price of or the gross receipts derived from the retail sale of a home warranty on or after January 1, 2017, and prior to January 1, 2019, provided the warranty includes coverage for real property.
8. A person failed to collect sales tax on the taxable portion of a mixed service contract that exceeds 10% for a transaction on or after January 1, 2017, and prior to January 1, 2019.

This subsection does not prohibit the Secretary from assessing use tax on purchases used to fulfill a mixed service contract.

9. A person failed to collect sales tax on the taxable portion of a mixed transaction contract that exceeds 25% for a transaction on or after January 1, 2017, and prior to January 1, 2019. This subsection does not prohibit the Secretary from assessing use tax on purchases used to fulfill a mixed transaction contract.
10. A person failed to collect sales tax on the taxable portion of a bundled transaction that included a contract for two or more services, one of which was subject to tax and one of which was not subject to tax, for a transaction on or after March 1, 2016 and prior to January 1, 2017.
11. A person treats a transaction as a real property contract for remodeling instead of the retail sale of repair, maintenance, and installation services sold at retail prior to January 1, 2019. This subdivision does not prohibit the Secretary from assessing use tax on purchases used to fulfill the transaction.
12. A person failed to collect sales tax on repair, maintenance, and installation services for tangible personal property or a motor vehicle for a filing period beginning on or after March 1, 2016 and ending prior to January 1, 2019. A person failed to collect sales tax on repair, maintenance, and installation services for certain digital property for a filing period beginning on or after January 1, 2017 and ending prior to January 1, 2019.

2. The assessment of tax due on an amount included in the definition of "sales price" where a retailer failed to charge or remit the tax, except as allowed under this SUTB.

The term does not include a single service included in repair, maintenance, or installation services, but does include a contract where the obligor may provide a service included in the definition of “repair, maintenance, and installation services” as a condition of the contract. The term includes a service contract for a pool, fish tank, or similar aquatic feature and a home warranty. Examples include a warranty agreement other than a manufacturer’s warranty or dealer’s warranty provided at no charge to the purchaser, an extended warranty agreement, a maintenance agreement, a repair agreement, or a similar agreement or contract.

79-2 IMPOSITION AND LIABILITY FOR COLLECTING AND REMITTING TAX

A. Tax Imposed

The sales price of or the gross receipts derived from a service contract or the renewal of a service contract sold at retail and sourced to this State is subject to the general State, applicable local, and applicable transit rates of sales and use tax.

B. Liability for Collecting and Remitting Tax

The retailer of a service contract is required to collect and remit the sales and use tax due at the time of the retail sale of a service contract and is liable for payment of the tax to the Department.

The retailer of a service contract is the applicable person listed below:

1. When a service contract is sold at retail to a purchaser by the obligor under the contract, the obligor is the retailer.
2. When a service contract is sold at retail to a purchaser by a service contract facilitator on behalf of the obligor under the contract, the service contract facilitator is the retailer unless the provisions of SUTB 79-2B.3 apply.
3. When a service contract is sold at retail to a purchaser by a service contract facilitator on behalf of the obligor under the contract and there is an agreement between the service contract facilitator and the obligor that states the obligor will be liable for the payment of the sales and use tax, the obligor is the retailer. The service contract facilitator must send the retailer the sales and use tax due on the sales price of or gross receipts derived from the service contract no later than 10 days after the end of each calendar month. A service contract facilitator that does not send the retailer the sales and use tax due on the sales price or gross receipts derived from the service contract is liable for the amount of sales and use tax the service contract facilitator fails to send. A service contract facilitator is not liable for sales and use tax sent to a retailer but not remitted by the retailer to the Secretary. Sales and use tax payments received by a retailer from a service contract facilitator are held in trust by the retailer for remittance to the Secretary. A retailer that receives a sales and use tax payment from a service contract facilitator must remit the amount received to the Secretary. A retailer is not liable for sales and use tax due but not received from a service contract facilitator. The requirements imposed by G.S. § 105-164.4I on a retailer and a service contract facilitator are considered terms of the agreement between the retailer and the service contract facilitator.

79-5 PROPERTY MANAGEMENT CONTRACTS

79-6 ITEMS PURCHASED TO FULFILL A SERVICE CONTRACT

A. Purchases to Fulfill a Taxable Service Contract

The application of sales and use tax to the purchase price of an item (e.g. component or repair part), including any repair, maintenance, and installation services, purchased and used to fulfill a taxable service contract depends on whether the retailer charges the purchaser of the service contract for such item. For purposes of this subsection, the term "item" does not include a tool, equipment, supply, or similar tangible personal property that is not a component or repair part of the tangible personal property, real property, or certain digital property for which a service contract is sold to a purchaser.

If the retailer does not charge for the item (e.g. component or repair part) purchased or used to fulfill a taxable service contract, such purchase is exempt from sales and use tax.

If the retailer charges the purchaser of the service contract for the item (e.g. component or repair part) sales and use tax is due on the sales price of the item (e.g. component or repair part) charged to the purchaser of the service contract.

A person purchasing an item to fulfill a taxable service contract, may purchase such item exempt from sales and use tax as provided in SUTB 5. This subsection does not apply to the purchase of tangible personal property or certain digital property used to fulfill a service contract for real property where the charge being covered would otherwise be subject to tax as a real property contract.

B. Purchases to Fulfill an Exempt Service Contract

Unless otherwise provided in SUTB 79-3B, items purchased and used to fulfill an exempt service contract are exempt from sales and use tax and may be purchased for resale as provided in SUTB 5.

C. Purchases to Fulfill a Manufacturer's Warranty or Dealer's Warranty

Refer to SUTB 79-12 for information regarding items purchased to fulfill a manufacturer's warranty or dealer's warranty.

D. Purchases that are not a Component or Repair Part

Items such as tools, equipment, supplies or other similar property used or consumed that are not a component or repair part are subject to sales and use tax.

79-7 DEDUCTIBLES OR SIMILAR FEES

When a deductible or similar fee, as set forth in a taxable service contract, is charged in conjunction with maintenance or repairs completed under the service contract and such fee is part of the sales price of a replacement or repair part, or repair, maintenance, and installation services, the fee is subject to sales and use tax. If the fee is unrelated to the sales price of the replacement or repair part, or repair, maintenance, and installation services, the fee is not subject to sales and use tax.

79-8 REFUND OF TAX PAID ON THE CANCELLATION OF A SERVICE CONTRACT

When a service contract is cancelled and a purchaser receives a refund, in whole or in part, of the sales price paid for the service contract, the purchaser may receive a refund of the pro rata amount of the sales and use tax paid on the service contract based on the taxable amount of the sales price refunded as provided in this section.

A. Refund from Retailer

If the purchaser receives a refund on any portion of the sales price of a service contract purchased from the retailer required to remit the sales and use tax on the retail sale of the service contract, then the provisions provided in SUTB 77 for a rescinded sale or cancelled service apply.

B. Refund from the Department

If the purchaser receives a refund on any portion of the sales price for a service contract from a person other than the retailer required to remit the sales and use tax on the retail sale of the service contract, then the amount refunded to the purchaser by the person does not have to include the sales and use tax on the taxable amount of the refund. If the amount refunded to the purchaser by the person does not include the sales and use tax paid on the portion of the sales price of the service contract refunded, then the purchaser may apply to the Department for a refund of the pro rata amount of the sales and use tax paid based on the taxable amount of the service contract refunded to the purchaser.

The application for a refund by a purchaser must be made on **Form E-588SC, Claim for Refund State, County, and Transit Sales and Use Taxes for Certain Cancelled Service Contracts**, supported by documentation on the taxable amount of the service contract refunded to the purchaser from the person who refunded that amount, and filed within 30 days after the purchaser receives the refund. The date the purchaser receives a refund is considered the date of the postmark on the envelope in which the refund is received, the date of an electronic transfer, or the date of the check, whichever is later. An application for a refund filed by the purchaser after the due date is barred. Sales and use taxes for which a refund is allowed directly to the purchaser for sales and use tax paid on a service contract are not an overpayment of tax and do not accrue interest.

79-9 MIXED SERVICE CONTRACT

A mixed service contract is a service contract for real property that includes two or more services, one of which is subject to sales and use tax and one of which is not subject to sales and use tax. The sales price of or gross receipts derived from a mixed service contract are 100% subject to the general State, applicable local, and applicable transit rates of sales and use tax unless one of the following applies:

1. The person determines an allocated price for the taxable portion of the service contract based on a reasonable allocation of revenue that is supported by the person's business records kept in the ordinary course of business. In this circumstance, the general State, applicable local, and applicable transit rates of sales and use tax apply to the allocated price of the taxable portion of the service contract.
2. The allocated price of the taxable portion of the service contract does not exceed 10% of the sales price of the contract. In this circumstance, no sales and use tax applies to the price of the contract.

79-10 BASIS OF REPORTING

A retailer who sells or derives gross receipts from a service contract must report those sales on an accrual basis of accounting, notwithstanding that the retailer reports tax on the cash basis for other sales at retail. The tax on the sales price of or the gross receipts derived from a service contract is due at the time of the retail sale, notwithstanding any portion that may be financed. If the sales price of or the gross receipts derived from the service contract is financed in whole or in part, the financed amount of the sales price of or the gross receipts derived from the service contract included in each payment is exempt from sales tax if the amount is separately stated in the contract and on the billing statement or other similar billing document provided to the purchaser at the time of the sale.

79-11 SOURCING – SERVICE CONTRACTS

A. General Sourcing

The retail sale of a service contract by the retailer or on behalf of a retailer at a location in this State is sourced to the location where the purchaser of the service contract can potentially make first use of the service. The general sourcing principles provided in SUTB 4-1 apply to the sales price of a service contract, unless otherwise provided in SUTB 79-11B.

B. Computer Software Renewal of a Service Contract

The gross receipts derived from the renewal of a service contract for prewritten software is generally sourced pursuant to SUTB 4-7. However, sourcing the renewal to an address where the purchaser received the underlying prewritten software does not constitute bad faith provided the seller has not received information from the purchaser that indicates a change in the location of the underlying software.

79-12 MANUFACTURER AND DEALER WARRANTIES, AND RECALLS

A. Manufacturer's Warranty

A manufacturer's warranty is an explicit warranty the manufacturer of an item extends to the purchaser of the item as part of the purchase price of the item. If the item is defective, the warranty allows the purchaser to return the item and receive either a replacement for the defective item or a repair of the defective item.

Purchases by a manufacturer of a replacement item, a repair part, or repair, maintenance, and installation services to maintain or repair tangible personal property or a motor vehicle pursuant to a manufacturer's warranty is exempt from sales and use tax and may be purchased as provided in SUTB 5. This exemption applies when the manufacturer contracts with a dealer or another person and that dealer or person purchases the replacement item, repair part, or repair, maintenance, and installation services to make the repairs on behalf of the manufacturer pursuant to a manufacturer's warranty.

If the manufacturer does not charge the purchaser for the replacement item, repair parts, or any repair, maintenance, and installation services, no sales and use tax is due on the cost of the replacement item, parts, or services. If the manufacturer charges the purchaser for the replacement item, repair parts, or any repair, maintenance, and installation services, sales and use tax is due on the sales price of the item, parts, or services.

Note: For information regarding repair, maintenance, and installation services, refer to SUTB 75.

B. Dealer's Warranty

A dealer's warranty is an explicit warranty the seller of an item extends to the purchaser of the item as part of the purchase price of the item. If the item is defective, the warranty allows the purchaser to return the item and receive either a replacement for the defective item or the repair of the defective item. This type of warranty normally occurs when there is no manufacturer's warranty.

Purchases by a dealer of a replacement item, a repair part, or repair, maintenance, and installation services to maintain or repair tangible personal property or a motor vehicle pursuant to a dealer's warranty is exempt from sales and use tax and may be purchased as provided in SUTB 5. This exemption applies when the dealer contracts with another person and that person purchases the replacement item, repair part, or repair, maintenance, and installation services to make the repairs on behalf of the dealer pursuant to a dealer's warranty.

If the dealer does not charge the purchaser for the replacement item, repair parts, or any repair, maintenance, and installation services, no sales and use tax is due on the cost of the replacement item, parts, or services. If the dealer charges the purchaser for the replacement item, repair parts, or any repair, maintenance, and installation services, sales and use tax is due on the sales price of the item, parts, or services.

Note: For information regarding repair, maintenance, and installation services, refer to SUTB 75.

C. Manufacturer Recall

A manufacturer recall is an action by a manufacturer of an item or a component part of an item to replace the item or component part for all customers who have purchased the item due to a defect or other problem notwithstanding that a manufacturer's warranty has expired. A recall is generally made due to health or safety reasons.

The same principles that apply to a manufacturer's warranty apply to a manufacturer recall. If a charge is made for the replacement item or part, sales or use tax is due on the amount paid for the replacement item or part. If no charge is made for the replacement item or part, no sales and use tax is due on the cost of the replacement item or part. This application applies when the manufacturer makes the repairs or contracts with another person to make the repairs on behalf of the manufacturer. These principles apply for both mandatory and voluntary recalls.

SUTB 80 TELECOMMUNICATIONS SERVICE, ANCILLARY SERVICE, PREPAID TELEPHONE CALLING SERVICE, AND OTHER RELATED TOPICS**80-1 DEFINITIONS**

A postpaid calling service includes a service that meets all the requirements of a prepaid telephone calling service, except the exclusive use requirement.

D. Sourcing

1. General Sourcing Principles – Telecommunications and Ancillary Service

The following general sourcing principles apply to telecommunications services unless the service falls under one of the exceptions set out in SUTB 80-2D.2. Ancillary service is provided in this State if the telecommunications service to which it is ancillary is provided in this State.

- a. **Flat Rate** – A telecommunications service that is not sold on a call-by-call basis is sourced to North Carolina if the place of primary use is in this State.
- b. **General Call-by-Call** – A telecommunications service that is sold on a call-by-call basis and is not a postpaid calling service is sourced to North Carolina in the following circumstances:
 - (1) The call both originates and terminates in the State.
 - (2) The call either originates or terminates in the State and the telecommunications equipment from which the call originates or

terminates and to which the call is charged is located in the State. This applies regardless of where the call is billed or paid.

- c. **Postpaid** – A postpaid calling service is sourced to the origination point of the telecommunications signal as first identified by either the seller's telecommunications system or, if the system used to transport the signal is not the seller's system, by information the seller receives from its service provider.

2. Exceptions

The following telecommunications services and products are sourced in accordance with the principles set out in this subsection:

- a. **Mobile** – Mobile telecommunications service is sourced to the place of primary use, unless the service is prepaid wireless calling service or is air-to-ground radiotelephone service. Air-to-ground radiotelephone service is a postpaid calling service that is offered by an aircraft common carrier to passengers on its aircraft and enables a telephone call to be made from the aircraft. This sourcing principle applies to a service or product provided as an adjunct to mobile telecommunications service if the charge for the service or product is included within the term charges for mobile telecommunications services under the Federal Mobile Telecommunications Sourcing Act.
- b. **Prepaid** – Prepaid telephone calling service is sourced in accordance with G.S. § 105-164.4B.
- c. **Private** – Gross receipts from private telecommunications service is sourced as follows:
 - (1) If all the customer's channel termination points are located in this State, the service is sourced to this State.
 - (2) If all the customer's channel termination points are not located in this State and the service is billed on the basis of channel termination points, the charge for each channel termination point located in this State is sourced to this State.
 - (3) If all the customer's channel termination points are not located in this State and the service is billed on the basis of channel mileage, the following applies:
 - (i) A charge for a channel segment between two channel termination points located in this State is sourced to this State.
 - (ii) Fifty percent of a charge for a channel segment between a channel termination point located in this State and a channel termination point located in another state is sourced to this State.
 - (4) If all the customer's channel termination points are not located in this State and the service is not billed on the basis of channel termination points or channel mileage, a percentage of the charge for the service is sourced to this State. The percentage is determined by dividing the number of channel termination points in this State by the total number of channel termination points.

3. Mobile Telecommunications Sourcing Act

The definitions and provisions of the federal Mobile Telecommunications Sourcing Act apply to the sourcing and taxation of mobile telecommunications services.

E. Basis of Reporting

Telecommunications service and ancillary service providers must report receipts from sales of telecommunications service and ancillary service on an accrual basis. The sale of the services is considered to occur when the retailer bills the customer for the sale. Such receipts must be reported on **Form E-500E, Combined General Rate Sales and Use Tax Return (Utility, Liquor, Gas, and Other)**. Telecommunications service and ancillary service providers are required to file returns and remit sales and use tax as provided in SUTB 3.

F. Bundled Transaction

When a taxable telecommunications service or ancillary service is bundled with a product that is not taxable or that is taxed at a different rate, and the transaction meets the definition of a "bundled transaction," the following apply:

1. If the price is attributable to products that are taxable and products that are nontaxable, the portion of the price attributable to the nontaxable products may be subject to tax unless the provider can identify by reasonable and verifiable standards such portion from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, non-tax purposes.
2. If the price is attributable to products that are subject to tax at different rates, the total price may be treated as attributable to the products subject to tax at the highest tax rate unless the provider can identify by reasonable and verifiable standard the portion of the price attributable to the products subject to tax at the lower rate from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, non-tax purposes.
3. The provisions of this section shall apply unless otherwise provided by federal law.

Note: For information regarding bundled transactions, refer to SUTB 16.

G. Sale of Telecommunications Equipment by Telecommunication Providers

The tax applies regardless of whether tangible personal property, such as a card or a telephone, is transferred. The tax applies to a service that is sold in conjunction with prepaid wireless calling service. Prepaid telephone calling services are taxed at the point of sale instead of the place of use. A prepaid telephone calling service is not subject to tax as a telecommunications service.

80-7 TANGIBLE PERSONAL PROPERTY SOLD BELOW COST WITH A SERVICE CONTRACT (CELLULAR TELEPHONES AND OTHER SIMILAR PROPERTY)

2. The agreement requires the consumer to pay a cancellation fee to the seller if the consumer cancels the contract for services within the minimum period.
3. For the item transferred, the seller charges the consumer a price that, after any price reduction the seller gives the consumer, is below the purchase price the seller paid for the item. The seller's purchase price is presumed to be no greater than the price the seller paid, as shown on the seller's purchase invoice, for the same item within 12 months before the seller entered into the conditional contract.

B. Tax Due

If the seller transfers an item of tangible personal property as a part of a conditional contract, a sale has occurred, and the sales price of the item is presumed to be the retail price at which the item would sell in the absence of the conditional contract. SUTB 81 THIRD PARTY DROP SHIPMENTS, TRANSFERS, AND PERFORMANCE OF SERVICES**81-1 DROP SHIPMENTS, TRANSFERS, AND SERVICES SUBJECT TO SALES AND USE TAX**

Retailers or wholesale merchants located in-state or out-of-state engaged in business in North Carolina that make retail sales of taxable items to out-of-state users or consumers where the item is sourced to the purchaser's locations in North Carolina are subject to the applicable rates of sales and use tax.

81-2 CUSTOMERS LIABLE FOR USE TAX

A North Carolina wholesale merchant is not required to collect North Carolina sales tax on its sales to an out-of-state retailer or an out-of-state wholesale merchant properly registered in another taxing jurisdiction when it drop ships taxable tangible personal property to the out-of-state retailer's or out-of-state wholesale merchant's customers in North Carolina. The out-of-state retailer's or out-of-state wholesale merchant's customers in North Carolina are liable for reporting the applicable rates of use tax on these purchases.

This position is based on the decision by the North Carolina Court of Appeals in the case *VSA, Inc. v. Faulkner*, 126 N.C. App. 421, 485 S.E.2d 348 (1997). The facts in the case were as follows:

1. Taxpayer was a North Carolina wholesaler.
2. Taxpayer was properly registered for North Carolina sales and use tax purposes.
3. Taxpayer sold its products to vendees located in another state.
4. Taxpayer's vendees were not engaged in business in North Carolina.
5. Taxpayer's vendees were properly registered in their taxing jurisdictions.
6. Taxpayer's vendees resold the products to North Carolina customers.
7. Taxpayer delivered the products to its vendees' customers in North Carolina.

SUTB 82 USED PROPERTY**82-1 USED PROPERTY**

Retail sales of used tangible personal property that the retailer acquired by any means other than by repossession are subject to the applicable rate of sales and use tax. In cases where a retailer reacquires property that is collateral for a nonrecourse endorsement by the retailer to a financing institution, the retailer has actually repurchased the property. In such case, it is not property repossessed by the retailer and the sales price of such property is subject to the applicable rate of sales and use tax when sold at retail. Used or secondhand property accepted in lieu of commissions is deemed to have been purchased. The original stock in trade of a retailer is not limited to newly manufactured articles; therefore, the fact that tangible personal property is secondhand or used does not exempt sales of such property from sales and use tax.

82-2 SALES OF USED PARTS REMOVED FROM JUNKED PROPERTY

Retail sales of used parts that have been removed from junked tangible personal property, including motor vehicles, by retailers are subject to the general State, applicable local, and applicable transit rates of sales and use tax. When repossessed articles are dismantled and the parts therefrom are sold at retail by such businesses, the parts have lost their identity as repossessed articles and are subject to sales and use tax.

Note: For information regarding repossessions refer to SUTB 76.

82-3 USED PROPERTY SOLD FOR REPAIR CHARGES

Taxable tangible personal property sold to satisfy repair or storage charges because the owner fails to reclaim it within a stipulated period of time when the retailer is engaged in the business of selling similar items, is subject to sales and use tax.

82-4 SALES OF REPAIR PARTS FOR RECONDITIONING USED PROPERTY

- A.** Sales of repair parts to retailers or wholesale merchants for use in reconditioning used property for sale to other retailers or wholesale merchants for resale are exempt from sales and use tax when the parts become a part of the reconditioned used property and are purchased as provided in SUTB 5.
- B.** Sales of repair parts to retailers or wholesalers to be attached to tangible personal property which has been repossessed by the retailer or wholesaler where the used tangible personal property will be sold, leased or rented and tax was paid on the original sales price of the tangible personal property are classified as wholesale sales exempt from sales or use tax when the parts become a part of the used tangible personal property sold and are purchased as provided in SUTB 5.

Note: For information regarding repossessions refer to SUTB 76.

The lease or rental of vending machines to users are subject to the general State, applicable local, and applicable transit rates of sales and use tax. Sales of vending machines to a person for leasing purposes or for the purpose of resale are not subject to the tax when purchased as provided in SUTB 5.

83-2 SALES THROUGH VENDING MACHINES**A. Application of Tax**

Any person that makes sales of tangible personal property through vending machines is required to register with the Department and pay sales and use tax on the sales price of the tangible personal property. Tobacco products and newspapers are taxed on 100% of the sales price for which the property is sold in the vending machine. Other items sold through a coin-operated vending machine are taxed on 50% of their sales price.

B. Reporting the Tax

Vending machine operators are permitted to separate their receipts that are taxed on 100% of the sales price from their receipts that are taxed on 50% of their sales price and, after calculating the taxable amounts of each and adding the two taxable amounts together, may divide the total taxable amount by 100% plus the combined percentage of the general State, applicable local, and applicable transit rates of sales and use tax to arrive at taxable sales reportable on their sales and use tax return. Records must be kept to support such sales. *(For example, if the general State, applicable local, and applicable transit rate is 6.75% in the county where the vending machine is located, the vending machine operator may divide the total taxable amount by 106.75% to arrive at the taxable sales to be reported on the sales and use tax return.)*

87-2 PRODUCT LIST

DHHS has a published list of all approved wastewater dispersal products on its website located at www.ncdhhs.gov. DHHS must notify the Department of all wastewater dispersal product approvals and revocations within 60 days of approval or revocation. Upon receipt of notification from DHHS, the Department publishes the DHHS list of all wastewater dispersal product approvals and revocations. The Department's publication of the DHHS list can be found at www.ncdor.gov.

87-3 DOCUMENTATION FOR EXEMPTION

A retailer engaged in business in the State that makes a retail sale of a DHHS approved wastewater dispersal product that is sourced to the State must maintain adequate documentation to substantiate that the product is on the DHHS approved list at the time of the sale. SUTB 88 WORTHLESS ACCOUNTS (BAD DEBTS)**88-1 REPORTING**

A. In reporting sales and use taxes on an accrual basis, accounts of purchasers representing taxable sales on which the sales and use tax has been paid may be determined to be worthless and will actually be charged off for income tax purposes as bad debts. For purposes of this exemption, a worthless account of a purchaser is a bad debt as allowed under Section 166 of the Internal Revenue Code. The amount calculated must be adjusted to exclude finance charges or interest, sales and use taxes charged on the sales or purchase price, amounts that cannot be collected on property that remains in the possession of the retailer until the full purchase price is paid, expenses incurred in attempting to collect a debt, and repossessed property.

B. Deducting Amounts Charged off from Gross Taxable Sales

The amount charged off representing taxable retail sales may, during corresponding periods, be deducted from gross taxable sales provided the retailer maintains records disclosing separately the portion of bad debts representing taxable sales and the portions representing nontaxable sales. The amount of any deduction taken that is attributable to bad debts shall not include accrued interest.

88-2 WHEN BAD DEBTS ARE DEDUCTIBLE

In order for a worthless account to be charged off for income tax purposes, the account must be written off as uncollectible on the applicant's books and records and the applicant must bear the risk of loss. If the charge-off is not made until the income tax return is filed, the bad debt should generally be deducted within one month of the date the income tax return reflecting the bad debt is filed. If the charge-off is made during the income tax year, the deduction of the bad debt should be taken for the period in which the charge-off occurs. A taxpayer is required to make the deduction for sales and use tax purposes within three (3) years of charging off an account for income tax purposes. If a taxpayer fails to deduct a bad debt for sales and use tax purposes within three (3) years of the date the bad debt is deducted for income tax purposes, the deduction from taxable gross receipts is not allowable.

A taxpayer who is not required to file income tax returns may deduct a bad debt on a return filed for the period in which the bad debt is charged off in its books and records as uncollectible and would otherwise be eligible for a bad debt deduction for income tax purposes if the taxpayer were required to file income tax returns. In this instance, the taxpayer is required to make the deduction for sales and use tax purposes within three (3) years of the date the account is recognized and finally expensed as a bad debt in its books and records.

Note: For additional information regarding a taxpayer bearing the risk of loss for bad debts, refer to *Home Depot U.S.A., Inc. v. N.C. Dept of Revenue*, 2015 NCBC 100.

88-3 REFUND PROVISIONS – BAD DEBTS

A. When the amount of the bad debt deduction exceeds the amount of taxable sales, resulting in a credit balance of tax on the sales and use tax return, a refund claim may be filed within the statute of limitations for filing refund claims. The claim for refund must be filed within three (3) years of the date the bad debt becomes eligible for deduction from gross retail sales on the sales and use tax return.

B. Form for Submitting Claim

Unless otherwise provided in these SUTBs, a claim for refund of an overpayment of sales and use tax must be submitted on **Form E-588, Business Claim for Refund State, County and Transit**

Sales and Use Taxes. The basis of the claim for the requested refund must be stated in the Basis for Claim section of the refund claim form. If applicable, **Form E-536R, Schedule of County Sales and Use Taxes for Claims for Refund**, should also be submitted. After a claim is verified and approved, a refund voucher is issued and forwarded to the taxpayer.

C. Documentation Required

The records of the retailer must clearly reflect and support the claim for refund or adjustment to taxable receipts for the period in which the refund or adjustment occurs. When submitting a refund claim, supporting data to be submitted includes copies of invoices or schedules reflecting the purchaser's name, invoice numbers, description of the property purchased, amount of tax collected, and documentation showing the purchaser's account has been written off as uncollectible on the taxpayer's books and records including the date the bad debt becomes eligible for deduction from gross retail sales on the sales and use tax return (i.e. the date the purchaser's account was written off as uncollectible). If applicable, **Form E-536R, Schedule of County Sales and Use Taxes for Claims for Refund**, should also be submitted.

88-4 BAD DEBT COLLECTION

If a deduction is taken for a bad debt and the debt is subsequently collected, in whole or in part, the tax on the amount of debt collected must be paid and reported on the sales and use tax return filed for the period in which the collection occurs. For purposes of reporting collection of the bad debt subsequent to having charged off and deducted such bad debt, any payments on the debt shall be applied first proportionally to the taxable price of the item and sales tax thereon, and secondly to interest, service charges, and any other charges.

88-5 CERTIFIED SERVICE PROVIDERS

Effective with the entry of North Carolina as a member state to the Streamlined Agreement, a Certified Service Provider (CSP) who enters into a contract with the Governing Board of the Streamlined Agreement to offer services to collect and remit sales and use taxes on behalf of a person may claim any bad debt deduction that would ordinarily be claimed by the person. The terms of the contract between the Governing Board and a CSP will establish the procedures for credits by the CSP to a person for allowable bad debt taken by the CSP.
