Form 1042-S File Layout Specification

Purpose of Document

The purpose of this document is to provide the file format instructions and guidance for the electronic filing of Form 1042-S.

What's New

- No changes with tax year 2022.

File Format Requirements

- **File Format** – The eNC3 application will only accept text (.txt) files; no other file format extensions will be accepted. Some examples of unacceptable formats include PDF's, MS Word, and MS Excel.
- **Testing File Formats** – Prior to submitting your file, the eNC3 application will allow you to test your file layout and confirm if it's formatted correctly. This will ensure your file will be uploaded successfully without generating an error. Step by step instructions to test file formats can be found our website at <https://www.ncdor.gov/documents/how-test-file-formats-using-enc3-portal>.
- **Naming Convention for Uploaded Files** - In the root directory, the file name should be "1042SReturn.txt". For each 1042-S file that will be uploaded, the file name must be unique. If the 1042-S file requires multiple uploads within the same submission, name your files 1042SReturn_01.txt, 1042SReturn_02.txt, etc. This naming convention is a suggested format, however, if your system requires a different format which includes the date and time of the file, please ensure that the each file name includes the form type in the filename (i.e., 1042s100120181259.txt).
- Follow IRS Publication 1187 in addition to the NCDOR field requirements that are outlined below. The uploaded files must meet the requirements for filing 1042-S information as specified in the **IRS Publication 1187 and the NCDOR 1042-S filing requirements below** to ensure the files are uploaded successfully.

Reminders
